A

Acacia gum exudates
- refinement of structures for gum arabic and other – 148

Accuracy
- in spark source mass spectrometry 52

Acenaphthenequinonedioxime
- detmn. of nickel with – by gravimetry 464

Acetaldehyde
- detmn. of formaldehyde, –, benzaldehyde and acrolein in automobile exhaust gases by HPLC 377

N-(2-Acetoamide)iminodiacetic acid
- complexation of – with zinc, cobalt(II), nickel and copper(II) 460

Acetoacetic acid
- detmn. of acetone and – in urine by GC 571

Acetone
- detmn. of – and acetoacetic acid in urine by GC 571
- detmn. of – in hydroxyethyl starches by GC 160
- detmn. of water in ethanol and – by direct injection enthalpimetry 470

Acetonitrile
- detmn. of – in foods by head-space GLC with NPD, from packings 84

3-(O-Acetophenyl)-1-methyltriazene-N-oxide
- stepwise formation constants of nickel and copper(II) with – 463

Acetylacetone
- detmn. of iron in bronzes with pyrocatechol-3,5-disulfonic acid or – by spectrophotometry 466

2-Acetylaminofluorene
- detmn. of – in laboratory feeds by HPLC 156

N-Acetyl-p-benzoquinoneimine
- detmn. of – by GC/MS 165

N-Acetyl-L-methionine electrode
- detmn. of acyclase using a – 91

Acetylneuraminic acid, N-
- detection of 2-keto-3-deoxyoctanat, 2-deoxysugars, – on chromatograms and pherograms 171
- detmn. of – in blood plasma by GC/MS 171

Acetylprocainamide, N-
- detmn. of quinidine, procainamide, – and disopyramide in blood plasma by HPLC 388

Acetylsalicylic acid
- sepn. of benzoic acid, hydroxybenzoic acids and – by RP ion-pair HPLC 142

Acetylsialic acid, N-
- detmn. of CMP-N-acetylsialic acid and – in biological materials by radioenzymatic anal. 172

Acid amides
- isolation of – from plant materials by HPLC 247

Acid chlorides
- anal. of – as 4-chloroanilides by HPLC 139

Acid functionalities
- improved inflection points in the non-aqueous potentiometric titration of – in lignin chemicals 148

Acids
- anal. of special purity – by AES and spark source MS, preconcentration of impurities 468
- detmn. of dissociation constants of weak – by fast atom bombardment MS 365

Aconitic acid, trans-
- detmn. of carbodiimides with – by fluorimetry 146

Acrolein
- detmn. of formaldehyde, acetaldehyde, benzaldehyde and – in automobile exhaust gases by HPLC 377

Acrylamide
- detmn. of monomeric – in water soluble polymers 335

Acrylonitrile
- detmn. of – in blood plasma by GC, delayed injection technique 166

Actinides
- extr. of palladium isotopes in irradiated – 376

Activation analysis, neutron
- of elements in rocks and minerals 150

Acyclase
- detmn. of – using a N-acetyl-L-methione electrode 91

Acylcarnitines
- detmn. of carnitine and – by enzymatic radioisotopic exchange and HPLC or TLC 575

Adenine
- detmn. of –, adenosine, nucleotides in biological fluids by HPLC/fluorescence detection 175
- sepn. of – and adenosylsulfur compounds in tissues, animal by HPLC 479

Adenosine
- detmn. of adenine, –, nucleotides in biological fluids by HPLC/fluorescence detection 175

Adenosine triphosphate
- detmn. of –, NADH and bile acids based on immobilized enzymes, bioluminescent and photographic detection 569

Adenosylsulfur compounds
- sepn. of adenine and – in tissues, animal by HPLC 479

Adiphenin
- detmn. of –, diphenylacetic acid and diethylaminoethanol in tissues, animal by HPLC 388

[^{14}C]ADP-ATP
- detmn. of $^{32}P_i$-ATP and – exchange rates by TLC 176

Adrenodoxin
- anal. of – with anaerobic thin-layer electrode 575

Aerosols
- detection of polyaromatic isomers and polychlorinated isomers in – by capillary GC/MS, NICI 378
- detmn. of capsaicin in personal protection – by HPLC 471

Aflatoxin B_1
- detmn. of – in oils and fats by TLC 478

Aflatoxins
- detmn. of – in corn, computerized testing programm 84
- detmn. of – in peanuts by TLC, dilution errors in extr. sampling 84

Agrochemical analysis
- metrological aspects of –, routine anal. of forage 562

Air
- anal. of amines and isocyanates in – by capillary GC 77

Air
- anal. of minor gases in – by spectrometry, IR and laser 555
- detmn. of aldehydes, aliphatic in – by HPLC 556
- detmn. of amines, aliphatic in – by GC 556
- detmn. of arsenic in – by AAS, after hydride generation 78
- detmn. of bromide in suspended particulate matter of – by HPLC 377
- detmn. of carbon monoxide in –, elimination of interferences at a precolumn 554
- detmn. of carboxylic acids in – by ion chromatography 378
- detmn. of chlorine and bromine in the stratosphere, – by spectrometry, MIP 555
- detmn. of dimethylmercury and methylmercury chloride in – by GC with AAS detection 555
- detmn. of ethyleneoxide in – as ethylene-chlorohydrine by GC 377
- detmn. of formaldehyde in – by GC 377
- detmn. of formaldehyde in – with pararosaniline by spectrophotometry, temperature dependence 77
- detmn. of hydrocarbons, oxygenated in – by GC 556
- detmn. of hydrocarbons, polycyclic aromatic in –, sampling with membrane filters 378
- detmn. of hydrocarbons, polycyclic aromatic in urban – and coal fly ashes by GC 556
- detmn. of hydrogen cyanide in – by sampling on a solid sorbent 76
- detmn. of isocyanates, aromatic and amines, carcinogenic in – by reversed-phase HPLC 77
- detmn. of mercury vapor in – by arc-source spectrometry, atomic emission after preconcentration 377
- detmn. of nickel tetracarbonyl in – by GC 556
- detmn. of nicotine in – by GC, collection on solid sampling tube 77
- detmn. of nitrogen oxides in – by chemiluminescence 555
- detmn. of organic lead in –, review 78
- detmn. of water in ethanol and moist – by GC 470
- distant analysis of sulfur dioxide in – with correlations spectroscopic method 555
- electrostatic capture of gaseous tetraalkyllead compounds from – and their detmn. by EAAS 555

Airborne particulates
- detmn. of anions in – and rain water by ion chromatography 377
- detmn. of antimony in – by AAS 78
- detmn. of benzidine and pigments in – by HPLC 378
- detmn. of hydrocarbons, polycyclic aromatic, nitrated in – by capillary GC 160
- detmn. of hydrocarbons, polycyclic aromatic in –, high temperature extr. and Shpol'skii spectrometry 378
- detmn. of hydrocarbons, polycyclic aromatic in – by GC/MS, NICI 378
- detmn. of hydrocarbons, polycyclic aromatic in – by capillary GC with laser-induced fluorescence detection 556
- detmn. of organic materials in –, Teflon block extr. apparatus 557

Air-borne particulates
– multielement analysis in – by X-ray fluorescence spectrometry 377
Airdust
– detmn. of heavy metals in –, new digestion procedure 495
Alamine-335
– sepn. of tin(IV) and indium by extr. with – 67
Alanine
– detmn. of – and aspartic acid by HPLC as dansyl derivatives 88
Alanyl-transfer RNA synthetase
– detmn. of – by continuous spectrophotometry 483
Albumin
– catalytic immunoreactor for amperometric detmn. of human serum – 575
– detmn. of polymer and purification of – by HPLC 90
– luminescent immunoassay for human serum – with hemin as labelling catalyst 574
– quantitation of immunoglobulin G and – by electroimmunodiffusion in presence of detergents 170
– voltammetric immunoassay of human – and its goat antiserum by Co-labelling 33
Alcohol dehydrogenase
– silica-bound – as stationary phase for chromatography, HPLC of nucleotides and nucleosides 481
Alcoholic dairy products
– detmn. of ethanol in liqueurs and – with density meter 82
Alcohols
– sep. of – and alkylpropanoates by GC 137
Alcuronium dichloride
– detmn. of – in blood plasma by HPLC 386
Aldehyde pheromones
– detmn. of – from insect lures by bioluminescence 90
Aldehydes
– detmn. of formaldehyde and – in exhaust gases by HPLC as fluorescent azine derivatives 77
– detmn. of formaldehyde, – in oxidized glycol systems by spectrophotometry 166
– detmn. of – with crown ethers by spectrophotometry 548
Aldehydes, aliphatic
– detmn. of – in air by HPLC 556
Alditol benzoates
– detmn. of sugars as – by liquid-solid chromatography 140
Aldoximes, N-heterocyclic
– reaction of pentacyanoferrate(II) complexes with three – 551
Algae
– detmn. of ascorbic acid in – by HPLC with electrochem. detection 173
– detmn. of fatty acids in – by capillary GC/MS 155
Alginates
– detmn. of uronic acids in – by HPLC 171
Alginic acid
– anal. of – by electrophoresis, on urea-poly-acrylamide gel 155
Alizarin red-S
– detmn. of lanthanum and cerium with – by amperometric titration 369
Alkali metals
– detmn. of – and alkaline earth metals in water by ion-chromatography/coulometry 380
– normal pulse polarography of – in acid solution 540
– sepn. of – and alkaline earth metals by ion-exchange chromatography/conductivity detection 366
Alkaline earth metals
– detmn. of alkali metals and – in water by ion-chromatography/coulometry 380
– sepn. of alkali metals and – by ion-exchange chromatography/conductivity detection 366
Alkaloids
– detmn. of – of papaver by HPLC 165
Alk-1-enylglycerols
– detmn. of alkylglycerols and – as benzoates by HPLC 571
Alkyl acetates, chlorinated
– detmn. of n– by capillary GC 139
Alkyl butanoates
– sepn. of n– C_1–C_{18} and chlorinated analogs by GC 138
Alkylcarboxylic acid dihydrazides
– detmn. of – by photometry 146
Alkylglycerols
– detmn. of – and alk-1-enylglycerols as benzoates by HPLC 571
Alkyl phosphite derivatives
– sepn. of – of iron pentacarbonyl by HPLC 137
Alkylphosphoric acids
– synergic systems involving –, review 61
Alkylpropanoates
– sep. of alcohols and – by GC 137
Alkylquinolin-8-ols
– complex formation and extr. of copper, iron and gallium with long-chain – 542
Alkylsulfates
– detmn. of –, alkylsulfonates and arylsulfonates by spectrophotometric titration 471
Alkylsulfonates
– detmn. of alkylsulfates, – and arylsulfonates by spectrophotometric titration 471
Alkylxanthogenates
– anal. of metal complexes with – by extr. voltammetry 464
Allantoin
– detmn. of – in blood plasma by HPLC 168
Allopurinol
– detmn. of uric acid, xanthine, hypoxanthine, –, oxipurinol, orotic acid, orotidine and creatinine in biological fluids by HPLC 175
Alloying additives
– detmn. of – in alumo-magnesium spinel by X-ray fluorescence spectrometry 74
Alloy phases
– estim. of the composition of – by local X-ray anal. 73
Alloys
– anal. of metals and – by spectrometry, a.c. arc and high-frequency spark in air and argon 360
– detmn. of argon, helium, neon and hydrogen in powdered – 72
– detmn. of cobalt in – with EDTA by spectrophotometry 375
– detmn. of indium in – with 2-(3,4-dihydroxy-phenylazo)-thiazole by spectrophotometry 375
– detmn. of iron and aluminum in – and silicate rocks, ion-exchange sepn. on zirconium(IV) phospho and silico arsenates 73
– detmn. of iron in ores and – by spectrophotometry, new reagents 462
– detmn. of nickel in – and soils with cadion and 1,10-phenanthroline by extr. spectrophotometry 375
– detmn. of nickel in – by derivative spectrophotometry 73
– detmn. of palladium and copper(II) in – and minerals with p-anisaldehyde thiosemi-carbazone by spectrophotometry 465
– detmn. of palladium in – by selective complexometry 376
Alloys
– detmn. of silver in ores, concentrates, zinc process solutions, copper and – by AAS, extr. as tribenzylamine-silver bromide complex 374
– detmn. of zirconium in – with 2-(6-bromo-2-benzothiazolylazo)-5-diethylaminophenol by spectrophotometry 375
Alloys, nonferrous
– detmn. of zinc in – by chelatometric titration 73
Allyl alcohol
– study of copper(I) complexes with – 63
Allyl chloride
– detmn. of – in blood by GC/ECD and GC/MS-SIM 166
Allylisothiocyanate
– detmn. of – by colorimetry 562
– detmn. of – in mustard oil and rapeseed oil by spectrophotometry 478
Almitrine
– detmn. of – in blood plasma by HPLC 579
Altenuene
– detmn. of alternaria mycotoxins, –, alternariol in fruits and vegetables by GC/MS 419
Alternariol
– detmn. of alternaria mycotoxins, altenuene, – in fruits and vegetables by GC/MS 419
Alumina
– autoclave digestion of – and aluminum hydroxide 467
– chromatography, gas on –, modified with K_2HPO_4 135
Aluminon
– detmn. of aluminum in steel with – by spectrophotometry 467
Aluminum
– anal. of technical grade – by spectrometry 466
– complexation of – with humic acids 558
– complex formation of –, gallium and indium with Sulfarsazene 65
– detmn. of beryllium with chromazurol S in the presence of – by photometry 64
– detmn. of – by luminescence 65
– detmn. of –, copper and zinc in human hair by AAS 86
– detmn. of gallium in – with 2,4-dihydroxy-benzaldehyde-semicarbazone by fluorimetry 71
– detmn. of – in rocks and cement by spectrophotometry 151
– detmn. of – in steel with aluminon by spectrophotometry 467
– detmn. of – in welding-fluxing agents with chromazurol KS by spectrophotometry 375
– detmn. of – in zinc-aluminum alloys with EDTA and Cu(II)-selective electrode 73
– detmn. of iron and – in alloys and silicate rocks, ion-exchange sepn. on zirconium(IV) phospho and silico arsenates 73
– detmn. of – with salicylaldehyde nicotinoyl-hydrazone by spectrophotometry 369
– extr./detmn. – as Xylenol orange-fluoride complex 368
– fluorescence in complexing of – with morin using surfactants 543
– sepn. of – and magnesium in antacid drugs by LC 160
– speciation of – in acidic fresh water 381
Aluminum alloys
– detmn. of indium in – by AAS and AES 73
– detmn. of nitrogen, oxygen, fluorine, phosphorus, sulfur and chlorine in – by NAA 73
Aluminum chloride
– detmn. of – and hydrochloric acid by differential potentiometry 75

Aluminum chloride
– detmn. of oxygen-containing substances as impurities in – 75
– detmn. of water in an – ionic liquid by voltammetry 75
Aluminum hydroxide
– autoclave digestion of alumina and – 467
Alumo-magnesium spinel
– detmn. of alloying additives in – by X-ray fluorescence spectrometry 74
Americium(V)
– sepn. of – with di(2-ethylhexyl)phosphoric acid by extr. 370
Amezinium
– detmn. of – in blood plasma by HPLC 385
Amides
– detmn. of molybdenum with thiocyanate and – by extr. spectrophotometry 546
– detmn. of pharmaceutically active – and imides by spectrophotometry 565
Amines
– anal. of – and isocyanates in air by capillary GC 77
– derivatization of – with anilinophenyl-isomalimide, anilinophenylisophthalimide for HPLC 547
– sepn. of – by GC, optimization of stationary phase 138
Amines, aliphatic
– detmn. of – in air by GC 556
Amines, aromatic
– detmn. of –, in urine by HPTLC 271
Amines, biogenic
– detection of metabolites of – by micro chromatography, HPLC with electrochem. detection 573
– detmn. of catecholamines, indole amines, – by automated HPLC 573
– detmn. of – in tissues, animal by HPLC 168
Amines, carcinogenic
– detmn. of isocyanates, aromatic and – in air by reversed-phase HPLC 77
Amines, chiral
– sepn. of enantiomers of polyols and – by GC 171
Amines, prim.
– detmn. of – by TLC/CLC after derivatization 280
Amines, sec.
– detmn. of – by HPLC, post-column derivatization 138
Amino acid analyzer
– automated – based on reversed-phase ion-pair chromatography 573
Amino acid enantiomers
– sepn. of – by GC with Heliflex Chirasil-Val as liquid phase in capillary columns 139
Amino acid racemates
– sepn. of – by chromatography, ligand exchange on L-hydroxy-proline polystyrene sorbents 88
Amino acids
– detection of – at platinum electrode in alkaline effluent after LC 573
– detect. of – in LC by electrochemical detection 611
– detmn. of – as o-phthalaldehyde-mercapto-ethanol derivatives by HPLC with electrochem. detection 169
– detmn. of – by polarography as trinitrophenyl derivatives 549
– detmn. of cystein in mixtures of – by catalytic spectrophotometry 574
– detmn. of –, imino acids and thiols by LC post-column derivatization with 4-fluoro-7-nitrobenzo-2,1,3-oxadiazole 88
Amino acids
– detmn. of – in biological fluids by HPLC, o-phthalaldehyde derivatives 573
– detmn. of methylhistidine and – by HPLC 140
– enantiomer sepn. of –, N-methylamino acids and 3-hydroxy acids as isocyanates by GC 549
– ident. of – in scorpion venom by PC 170
– sepn. of – and peptides by TLC on ammonium tungstophosphate layers 169
– sept. of D- and L-– by HPLC with chiral additives 549
– sepn. of N(O,S) acyl alkyl esters of – by GC 168
– sepn. of sulfur-containing substances, – and nucleotides by gel filtration 85
Amino acid sequences
– detmn. of – of peptides by capillary GC 169
1-Amino-9,10-anthraquinones
– sepn. of – by HPLC 143
2-Aminobenzophenones
– sepn. of isomeric – by TLC and HPLC 241
o-Aminohydroxamic acid
– detmn. of manganese(II) with – by spectrophotometry 373
δ-Aminolevulinate dehydratase
– detmn. of – by a specific fluorimetric coupled enzyme assay 176
S-2-(3-Aminopropylamino)ethyl phosphorothionate
– detmn. of – in blood plasma by HPLC 93
4-Aminopyridine
– density of –, precision weighing 161
Aminopyrine
– sepn. of – and metabolites in liver microsomes by HPLC 93
Amiodarone
– detmn. of – and metabolite in blood plasma by HPLC 385
Amitriptyline
– detmn. of – in pharmaceutical products by HPLC 162
– detmn. of –, nortriptyline and metabolites in blood plasma by GC/NPD 579
Ammonia
– detection of – using piezoelectric quartz crystal 371
– detmn. of – and ammonium in water by flow-injection anal. 78
– detmn. of – in presence of corrosion inhibitors 355
– detmn. of – in water by continuous fluorimetry 78
Ammonia sensor
– bilayer lipid membrane for a selective – 58
– improved dynamic response of potentiometric – 58
Ammonium
– detmn. of ammonia and – in water by flow-injection anal. 78
Amphotericin B
– detmn. of – in blood serum and blood plasma by HPLC 580
Ampicillin
– detmn. of penicillin G, – and cephapirin in biological materials by microbiological methods 96
α-Amylase
– anti-interference enzyme layer for detmn. of – in glucose containing samples 483
Amylopectin
– detmn. of starch, amylose and – in plant materials on glass fiber paper 154
Amylose
– detmn. of starch, – and amylopectin in plant materials on glass fiber paper 154
Amylose
– matrix influences on pyrolysis-mass spectra of – using GC/MS 140
Anabolics
– detection of –, steroids in urine by capillary GC/MS 577
– detmn. of – in urine of cattle by GC/MS 562
– detmn. of –, steroids in biological fluids by capillary GC 577
Analgesics
– detect. of narcotic – in blood and urine by TLC 580
– sepn. of –, anti-inflammatory agents in blood plasma by high-resolution GC 578
Analytical chemistry
– treatise on –, solution equilibria, book 129
– treatise on –, thermal methods, book 358
– trends in –, book 129
Analytical methods
– errors in –, correction for systematic error 61
– errors in –, method verification program 61
– , high-melting methods, book 358
– manual of – used at MINTEK 374
2,5-Anhydro-D-mannitol
– detmn. of – in biological materials by enzymatic anal. 575
Anilides
– detmn. of urea, carbamates and –, herbicides by reversed-phase TLC 157
Aniline
– detmn. of – and derivatives in waste water by GC and HPLC 81
– detmn. of – in arsalinic acid and sodium arsanilate by HPLC 156
Anilinophenylisomalimide
– derivatization of amines with –, anilinophenyl-isophthalimide for HPLC 547
Anilinophenylisophthalimide
– derivatization of amines with anilinophenyl-isomalimide, – for HPLC 547
Anion exchangers
– detmn. of trace metals, copper in apatite by – and spectrophotometry 131
– sepn. of metal ions in aqueous acetone-acetic acid on – 131
Anions
– detmn. of – by chromatography, ion/potentiometry 456
– detmn. of – in airborne particulates and rain water by ion chromatography 377
– detmn. of – in environmental water by nonsuppressed ion chromatography 380
Anions, inorganic
– detmn. of – as pentafluorobenzyl derivatives by GC 547
– detmn. of – in water, comparison of methods 557
– sepn. of – and organic acids on silica-based ion-exchangers by chromatography, ion 456
Antacid drugs
– assay of mixtures of sodium bicarbonate and sodium citrate in – 160
– sepn. of aluminum and magnesium in – by LC 160
Anthocyanins
– anal. of – in plant extracts by high-resolution GC/HPLC 561
Anthranilic acid
– detmn. of sulfonamides in meat, swine liver by spectrophotometry, errors by – 83
Antidepressants
– sepn. of polycyclic – and metabolites by HPLC 162
Antiepileptics
– detmn. of – by HPTLC 261

Antiepileptics
– detmn. of – in blood serum by HPLC 94
Anti-inflammatory agents
– sepn. of analgesics, – in blood plasma by high-resolution GC 578
Antimicrobial agents
– detmn. of – in cosmetics by TLC, GC and HPLC 567
Antimony
– detmn. of – in airborne particulates by AAS 78
– detmn. of – in solder alloy by hydride generation AAS 502
– detmn. of lead, bismuth, – and silver in steel by flame spectrometry, atomic absorption/flow-injection analysis 71
– detmn. of phosphorus and – in silicon structures by a neutron activation method 375
Antimony(III)
– detmn. of – by solvent extr. with mandelic acid and malachite green, spectrophotometry 371
– zirconium(IV) and – for structural investigation of flavonoids by spectrophotometry 143
Antimony sulfide
– use of hydrous – as adsorbent ion-exchangers 131
Antipyrine
– detmn. of – and metabolites in biological fluids by HPLC 578
Antiserum
– voltammetric immunoassay of human albumin and its goat – by Co-labelling 33
Antitumor agent BD 40
– detmn. of – by HPLC 163
Apatite
– detmn. of trace metals, copper in – by anion exchangers and spectrophotometry 131
Apolipoproteins
– sepn. of – by chromatofocusing 576
Apple juice
– anal. of –, 3 year basic data 81
Aprindine
– detmn. of – in blood plasma by GC/MS 94
– detmn. of – in blood serum by HPLC 259
Arachidonic acid diols
– anal. of linoleic acid diols, α-linolenic acid diols and – as boronic esters by GC/MS 172
Arachidonic acid metabolites
– sepn. of prostaglandins, thromboxanes, 6-keto-prostaglandin $F_1\alpha$, – in biological materials by TLC 172
Arbaprostil
– detmn. of – in pharmaceutical products by HPLC 164
Arene oxides
– sepn. of diastereomeric glutathione adducts of – by HPLC 556
Argillites
– detmn. of molybdenum in solutions of – by AAS 152
Argon
– detmn. of –, helium, neon and hydrogen in powdered alloys 72
Aromatic compounds
– sepn. of – in coal liquefaction products by LC on picric acid modified alumina 144
Aromatic compounds, halogenated
– detmn. of – by GC/MS 159
Arsalinic acid
– detmn. of aniline in – and sodium arsanilate by HPLC 156
Arsenic
– detmn. of – by galvanostatic stripping anal., appl. to steel 72
Arsenic
– detmn. of – by hollow-cathode spectrometry, emission 545
– detmn. of high-levels of – in geological materials by AAS 151
– detmn. of – in air by AAS, after hydride generation 78
– detmn. of – in geological materials by X-ray fluorescence spectrometry 151
– detmn. of phosphorus and – in steel by extr. of their heteropolyacids 71
– detmn. of selenium, – and mercury in environmental samples by AFS 382
– survey for sodium, potassium, barium, – and selenium in drinking water supplies 557
Arsenic(III)
– detmn. of – by stripping voltammetry, flow cell 371
– investigation of ion associates of unithiol complexes of – with basic dyes 545
Arsenic compounds
– detmn. of – in water by AAS/hydride generation 80
Arsine
– detection of – oxidation by chemiluminescence 545
Arylsulfonates
– detmn. of alkylsulfates, alkylsulfonates and – by spectrophotometric titration 471
Ascorbic acid
– detmn. of – and dehydroascorbic acid in blood plasma by HPLC 173
– detmn. of – in algae by HPLC with electrochem. detection 173
– detmn. of – in citrus juices and tomato juices with "sandwich"-indicator sticks 477
– detmn. of – in fruits and pharmaceutical products by titration with thallium(III) 477
Aspartate transcarbamylase
– detmn. of – by phosphate release 483
Aspartic acid
– detmn. of alanine and – by HPLC as dansyl derivatives 88
Aspartic proteinases
– detmn. of – with peptide substrate in presence of zymogens 91
Asphaltene
– detmn. of malthene and – in bitumen, heavy oils and synthetic fuels by pyrolysis TLC 469
Aspirin
– detmn. of – and salicylic acid in blood plasma by HPLC 383
Astemizole
– detmn. of – and metabolites in blood plasma, tissues, animal by HPLC 579
Asulam
– detection of –, herbicides in soils by TLC 158
Atenolol
– detmn. of – in blood plasma and urine by HPLC 383
– detmn. of – in blood plasma by HPLC/UV detection 385
$^{32}P_i$-ATP
– detmn. of – and [^{14}C]ADP-ATP exchange rates by TLC 176
Autoradiograms
– detmn. of proteins on – or fluorograms by spectrophotometry of eluted Ag 574
Azaarenes
– ident. of – in petroleum by GC/MS, CH_2-homologous series 145
Azapropazone
– detmn. of – and its 6-hydroxy metabolite in blood plasma and urine by HPLC 384
Azo dyes
– analytical applications of the complexes of copper(II) and zinc with sulfonated – 367
Azoisobutyronitrile
– immobilization of silicone stationary phases for capillary chromatography, gas with – 55
Azopyrazolonic derivatives
– complexation of zirconium with – 68

B

Bacteria
– anal. of fatty acids in – by GC 167
– detmn. of flavin-adenine-dinucleotide in tissues, animal and – by luminometric anal. 481
Bacterial electrode
– , a new type of electrodes 85
Bacterial spores
– detmn. of dipicolinic acid in – by derivative spectrophotometry 167
Bamifylline
– detmn. of – and metabolites in blood plasma by HPLC 384
Barium
– detmn. of traces of mercury and – in mineral-containing water by selective retention on ion-exchange paper and X-ray fluorescence 558
– survey for sodium, potassium, –, arsenic and selenium in drinking water supplies 557
Bauxite
– detmn. of lanthanides in – by neutron activation anal. 151
Beef
– detmn. of neutral and polar lipids in – by solvent extr./GLC 82
– disc electrophoresis to detect the adulteration of – by other animal meat 476
Beer
– detmn. of hydroxymethylfurfural in – by HPLC 474
Beeswax
– detmn. of hydrocarbons, fatty acid derivatives, cholesterol esters, wax esters, triglycerides in – by GLC 410
Benzaldehyde
– detmn. of formaldehyde, acetaldehyde, – and acrolein in automobile exhaust gases by HPLC 377
Benzene
– detmn. of –, catechol and hydroquinone in blood by GC 572
– formation of isomeric terphenyls and triphenylene by pyrolysis of – 146
– sorption of – in presence of xylene, o- on different chromatographic sorbents 140
Benzene derivatives
– data analysis in chromatography, gas of – 55
– sepn. of – by LC on methacrylate copolymer 141
Benzene-1,4-dicarboxylic acid
– detmn. of 4-carboxybenzaldehyde in – by square wave voltammetry 147
Benzidine
– detmn. of – and pigments in airborne particulates by HPLC 378
Benzoic acid
– sepn. of –, hydroxybenzoic acids and acetylsalicylic acid by RP ion-pair HPLC 142
Benzoic acid chloride
– detmn. of chlorine-substituted – isomers by GC 143
Benzoic anhydride
– detmn. of – in the presence of benzoic acid by GC 142
Benzoin
– sepn. of guanidino compounds as – derivatives by HPLC 479

Benzo(a)pyrene
– detmn. of – in gasoline and light oil by HPLC 77
– supersonic jet fluorescence spectrometry of perylene and – 550
Benzo(a)pyrene derivatives
– sepn. of – by TLC 159
Benzotriazole
– detmn. of nitrite as – derivatives by GC 545
Benzoylacetone
– detmn. of geometrical isomers of metal chelates of – and trifluoroacetylacetone by HPLC 458
5-Benzoyl-2,3-dihydro-6-hydroxy-1H-inden-1-carboxylic acid
– detmn. of – in blood plasma and urine by GC/ECD 384
1-Benzoyl-2-monothiobiuret
– study of metal complexes with – 62
Bergamot oil
– isolation of bergapten and limettin from – 566
Bergapten
– detmn. of – and citropten in cosmetics by HPLC 566
– isolation of – and limettin from bergamot oil 566
Beryllium
– detmn. of boron, – and lithium in coal ash and geological materials by optical emission spectrometry 144
– detmn. of – with chromazurol S in the presence of aluminum by photometry 64
– sepn. of – as malonate complex with Aliquat 336 S by extr. 367
Betaine
– detmn. of choline and – in some fish materials, simultaneous 477
Betanin
– ident. of – degradation products by HPLC 478
Beverages
– continuous detmn. of sulfite in – by second-derivative spectrophotometry 81
– detmn. of cyclamate in – by HPLC 477
Biacetyl monoxime glycinimine
– detmn. of palladium and nickel with – as new reagent 465
Bicarbonate
– assay of mixtures of sodium – and sodium citrate in antacid drugs 160
Bilayer lipid membrane
– for a selective ammonia sensor 58
Bile
– detmn. of conjugated bile acids in – by isotachophoresis 91
Bile acids
– anal. of sulfated 7α-hydroxy – in urine, enzymatic detection 91
– assay of – by bioluminescence with immobilized enzymes 91
– detmn. of adenosine triphosphate, NADH and – based on immobilized enzymes, bioluminescent and photographic detection 569
– detmn. of conjugated – in bile by isotachophoresis 91
Biochemical mixtures
– differentiation of simple –, biopolymers by pyrolysis mass spectrometry 456
Biochemical sciences
– chromatography and mass spectrometry in –, book 49
Biological fluids
– anal. of formate in solutions containing phosphate, – by colorimetry 87
– anal. of pefloxacin and metabolites in – by HPLC 96
Biological fluids
– assay of verapamil in – by ion-exchange HPLC 385
– boronic acid substituted silica for sepn. of nucleosides, cis-dioles from – by chromatography, HPLC 54
– detmn. of 1,4-benzodiazepines in – by HPLC with electrochem. detection 95
– detmn. of adenine, adenosine, nucleotides in – by HPLC/fluorescence detection 175
– detmn. of amino acids in – by HPLC, o-phthalaldehyde derivatives 573
– detmn. of anabolics, steroids in – by capillary GC 577
– detmn. of antipyrine and metabolites in – by HPLC 578
– detmn. of calcium isotopes in – by fast atom bombardement MS 570
– detmn. of cephalosporins in – by reversed-phase LC 387
– detmn. of cytosine arabinoside, uracil arabinoside, nucleosides in – by HPLC 175
– detmn. of dipyrone and its active metabolite in – by HPLC 383
– detmn. of fenflumizole in – by reversed-phase HPLC 384
– detmn. of galanthamine in – by HPLC 387
– detmn. of hypoxanthine and xanthine in – by HPLC/enzyme reactors 384
– detmn. of metronidazole and metabolite in – by HPLC 386
– detmn. of phospholipids in – by HPLC 577
– detmn. of piperazine metabolites in – by GC 383
– detmn. of propranolol, nadolol and prazosin in – by ion-exchange HPLC 579
– detmn. of pyrimido-benzazepine anxiolytic agent and metabolite in – by HPLC and GLC/ECD 386
– detmn. of rifamycin in – by spectrophotometry 387
– detmn. of salicylamide, gentisamide and metabolites in – by HPLC 383
– detmn. of steoids in – by capillary GC 577
– detmn. of total thiamine in – by HPLC 172
– detmn. of trimethoprim, sulfamethoxazole in – by HPLC 96
– detmn. of trimethoprim, sulfamethoxazole and metabolite in – by HPLC 579
– detmn. of uric acid, xanthine, hypoxanthine, allopurinol, oxipurinol, orotic acid, orotidine and creatinine in – by HPLC 175
– sepn. of – by isotachophoresis/HPLC 85
Biological materials
– anal. of diadenosine tetraphosphate in –, review 481
– analytical methods for testing of hazardous substances in –, book 130
– assay of quinolinic acid in – by fluorimetry 167
– detection of octopine in – by ^{14}C-radio TLC 561
– detmn. of 2,5-anhydro-D-mannitol in – by enzymatic anal. 575
– detmn. of biopterin in – by LC with electrochem. detection 483
– detmn. of cholecystokinins in – by HPLC 574
– detmn. of CMP-N-acetylsialic acid and acetylsialic acid, N- in – by radioenzymatic anal. 172
– detmn. of cobalamins in – 173
– detmn. of corticosteroids in – by HPLC 174
– detmn. of drugs in – by TLC/tandem MS 93
– detmn. of fenquizone in – by GLC 96
– detmn. of methylamines in – by head space GC 168
Biological material
– detmn. of nitrogen containing pesticides in – by GC-MS 111
– detmn. of organic acids of Krebs cycle in – by GC/MS 167
– detmn. of parathyroid hormones in – and reference standards by HPLC 175
– detmn. of penicillin G, ampicillin and cephapirin in – by microbiological methods 96
– detmn. of propranolol in – by radioimmunoassay 94
– detmn. of retinol, retinal and retinyl esters in – by HPLC 253
– detmn. of selenium in – by AAS 166
– detmn. of selenium in – by platform furnace AAS and Zeeman background correction 571
– detmn. of strontium in – by AAS 570
– detmn. of tin in – by tin iodide-anodic stripping voltammetry 570
– detmn. of vitamin U in – by GC 174
– extr. of heptacaine from – 578
– ident. of retinols in – by HPLC 172
– measurement of ethanol or NAD in acid extracts of – by enzymatic method 166
– sepn. of catecholamines and indole amines in – by HPLC 572
– sepn. of prostaglandins, thromboxanes, 6-keto-prostaglandin $F_1\alpha$, arachidonic acid metabolites in – by TLC 172
– tolerance values of hazardous substances in –, book 357
Biological tissues
– detmn. of catecholamines, octopamine, 5-hydroxytryptamine in – by HPLC/coulometry 572
– detmn. of lead and nickel in – by EAAS 570
Bioluminescence
– assay of bile acids by – with immobilized enzymes 91
– detmn. of aldehyde pheromones from insect lures by – 90
Biomass
– anal. of acidic/phenolic – degradation products by isotachophoresis 30
Biomass conversion
– study of – by pyrolysis GC and MS 445
– study of – by pyrolysis GC and MS 446
– study of – by pyrolysis GC and MS 447
– study of – by pyrolysis GC and MS 448
Biopolymers
– differentiation of simple biochemical mixtures, – by pyrolysis mass spectrometry 456
Biopterin
– detmn. of – in biological materials by LC with electrochem. detection 483
Biotin
– sepn. of – and analogs by HPLC, labeling for UV or fluorimetric detection 173
Biphenyls
– detection of dioxins, dibenzofurans and – in fish, enzyme induction test 83
Biphenyls, polychlorinated
– detmn. of incidental – in chlorinated hydrocarbon process streams by GC/MS 159
– detmn. of – in foods by Clevenger method/GC 564
– detmn. of – in sediments by high-resolution GC 564
– sepn. of mirex from – in foods by GC 564
Bis(diphenyldithiophosphine)disulfide
– use of – as reagent in coulometry 460
Bismuth
– detmn. of – as tetrabutylammonium iodide complex 371

Bismuth
- detmn. of – by potentiometry and potentiometric titration 545
- detmn. of – in geological materials by automated hydride generation AAS 552
- detmn. of – in pharmaceutical products, cosmetics by extr. spectrophotometry as tetra-n-butylammonium tetraiodobismuthate 160
- detmn. of lead, –, antimony and silver in steel by flame spectrometry, atomic absorption/flow-injection analysis 71
- liquid-state membrane electrode sensitive to – 371

Bitumen
- detmn. of malthene and asphaltene in –, heavy oils and synthetic fuels by pyrolysis TLC 469
- sepn. of polar compound classes in petroleum, – and coal liquids by LC with aprotic dipolar solvents 469

β-Blockers
- detmn. of – in blood plasma by electron-capture GC 425

Blood
- anal. of copovithane and methylamine in – and urine by HPLC 96
- detect. of narcotic analgesics in – and urine by TLC 580
- detmn. of enzyme, angiotensin-converting in – and tissues by HPLC 91
- detmn. of allyl chloride in – by GC/ECD and GC/MS-SIM 166
- detmn. of benzene, catechol and hydroquinone in – by GC 572
- detmn. of chloroquine in – by perfluoro-acylation and GC 387
- detmn. of cis- and trans- 1,3-dichloropropene in – by GC/MS-SIM 166
- detmn. of cobalt in – by electrothermal AAS 37
- detmn. of gold in tissues and – by cold ashing/AAS 86
- detmn. of lead in – by discrete nebulisation flame AAS 166
- detmn. of naloxone in – by HPLC 578
- detmn. of polyamines in – by GLC/ECD 88
- detmn. of selenium in horse – by hydride generation AAS 571
- detmn. of serine in – by fluorimetry 573
- detmn. of volatile carboxylic acids in – and urine by GC 167
- sepn. of pteridines from – by HPLC 91

Blood cells
- sepn. of – by chromatography, affinity on polyethylene glycol bonded stationary phases 165

Blood plasma
- anal. of cardiotonic agents, MDL 19,205 in – and urine by HPLC 578
- anal. of D-penicillamine in – by HPLC/fluorescence detection 387
- anal. of ifosfamide in – and urine by GC/ECD 387
- anal. of phenytoin and salicylate in – by LC 385
- assay of triazolam in – and urine by capillary GC 94
- detmn. of 2-phenylbutyric acid in – by LC and GC 167
- detmn. of 3-methoxy-4-hydroxyphenylglycol in – by HPLC/electrochem. detection 88
- detmn. of 5-benzoyl-2,3-dihydro-6-hydroxy-1H-inden-1-carboxylic acid in – and urine by GC/ECD 384

Blood plasma
- detmn. of 5-fluorouracil and 5,6-dihydro-fluorouracil in – by GC 579
- detmn. of α-tocopherol in tissues and – by HPLC 173
- detmn. of β-blockers in – by electron-capture GC 425
- detmn. of acetylneuraminic acid, N- in – by GC/MS 171
- detmn. of acrylonitrile in – by GC, delayed injection technique 166
- detmn. of alcuronium dichloride in – by HPLC 386
- detmn. of allantoin in – by HPLC 168
- detmn. of almitrine in – by HPLC 579
- detmn. of amezinium in – by HPLC 385
- detmn. of amiodarone and metabolite in – by HPLC 385
- detmn. of amitriptyline, nortriptyline and metabolites in – by GC/NPD 579
- detmn. of amphotericin B in blood serum and – by HPLC 580
- detmn. of aprindine in – by GC/MS 94
- detmn. of ascorbic acid and dehydroascorbic acid in – by HPLC 173
- detmn. of aspirin and salicylic acid in – by HPLC 383
- detmn. of astemizole and metabolites in –, tissues, animal by HPLC 579
- detmn. of atenolol in – and urine by HPLC 383
- detmn. of atenolol in – by HPLC/UV detection 385
- detmn. of azapropazone and its 6-hydroxy metabolite in – and urine by HPLC 384
- detmn. of bamifylline and metabolites in – by HPLC 384
- detmn. of busulfan in – by GC/ECD 386
- detmn. of CT-esterase inhibitor activity in – with new substrate 483
- detmn. of cobalt in – by electrothermal AAS 41
- detmn. of cortisol in – and urine by affinity HPLC 174
- detmn. of desmethyl nortriptyline in – by GC 95
- detmn. of dihydroergocristine and dihydroergotamine in – by HPLC/fluorimetry 388
- detmn. of dihydroergotoxin methanesulfonate in – by HPLC 388
- detmn. of diminazene in – by HPLC 156
- detmn. of disopyramide in – and urine by HPLC 94
- detmn. of fentiazac and p-hydroxyfentiazac in – by HPLC/UV detection 578
- detmn. of fluphenazine in – by HPTLC 95
- detmn. of glycerol in – by enzymatic fluorimetry 571
- detmn. of heptaminol in – and urine by HPLC 93
- detmn. of hymecromon in – by HPLC 579
- detmn. of indomethacin and metabolite in – and urine by GC 384
- detmn. of ketanserin and metabolite in – by HPLC 385
- detmn. of L-dopa in – by HPLC 386
- detmn. of MEN 935 in – by HPLC 578
- detmn. of methyprylon and metabolite in – by HPLC 579
- detmn. of metoprolol in – by GC 95
- detmn. of metoprolol in – by HPLC 385
- detmn. of mimosine and 3-hydroxy-4(1H)-pyridone in – by HPLC 156
- detmn. of nafazatrom in – and urine by HPTLC/HPLC 267

Blood plasma
- detmn. of noscapine in – by HPLC 384
- detmn. of oxcarbazepine in – by HPLC 386
- detmn. of oxprenolol in – by GC 578
- detmn. of oxyphenbutazone in – by HPLC 384
- detmn. of perhexiline in – by GLC/NPD 94
- detmn. of pramiracetam in – by GC/NPD 95
- detmn. of prazosin in – by HPLC 94
- detmn. of primaquine in – by spectrophotometry 388
- detmn. of quinidine, procainamide, acetylprocainamide, N- and disopyramide in – by HPLC 388
- detmn. of reproterol in – by HPLC/amperometry 93
- detmn. of S-2-(3-aminopropylamino)ethyl phosphorothioate in – by HPLC 93
- detmn. of sulfinpyrazone in – and urine by HPLC 383
- detmn. of sulthiame in – by HPLC 531
- detmn. of theophylline and caffeine in – by HPLC 580
- detmn. of toloxatone in – by GLC/NPD 93
- detmn. of warfarin in – by HPLC 577
- detmn. on piroxicam in –, comparison of HPTLC and HPLC 257
- sepn. of analgesics, anti-inflammatory agents in – by high-resolution GC 578
- sepn. of steroids in – by HPLC 174
- sepn. of transferrins in – by HPLC 90

Blood platelets
- detmn. of nucleotides in – by pulse labeling with [^{32}P]orthophosphate 176

Blood serum
- detection of 2-ethyl-3-oxohexanoic acid and 4-heptanone in – and urine by GC 572
- detmn. of 3'-hydroxypentobarbital in – by HPLC 385
- detmn. of amphotericin B in – and blood plasma by HPLC 580
- detmn. of antiepileptics in – by HPLC 94
- detmn. of aprindine in – by HPLC 259
- detmn. of calcium in – by ion-selective electrodes, flow-through apparatus 570
- detmn. of copper in – by AAS, collaborative study 86
- detmn. of copper, zinc, cadmium and manganese in – and liver tissue 570
- detmn. of digitoxin and digitoxosides of digitoxigenin in – by TLC 580
- detmn. of digoxin in – by HPLC/HPTLC, comparison 264
- detmn. of estrone, estradoil and estriol in – as methylether acetates by GC/EI-MS 174
- detmn. of etodolac in – by HPLC 93
- detmn. of fluorine in – by automated spectrometry, molecular absorption 571
- detmn. of free cortisol in – by ultrafiltration 174
- detmn. of lipids in – by IR spectrometry, least-squares regression anal. 90
- detmn. of lycopene, carotene and retinyl esters in – by reversed-phase HPLC 172
- detmn. of lysozyme in – and urine by turbidimetry 484
- detmn. of major metamizole metabolites in – and urine by TLC 93
- detmn. of methotrexate in – by back-flush HPLC 251
- detmn. of naproxen in – by HPTLC 93
- detmn. of phosphatase, alkaline in – by anion exchange chromatography 484
- detmn. of polyamines in – and urine by ion-pairing HPLC 168

Blood serum
– detmn. of polyols in urine and – by GC/MS 171
– detmn. of procainamide and N-acetyl metabolite in – and urine by TLC 385
– detmn. of propylthiouracil in – by micro HPLC 580
– detmn. of quinidine in –, comparison of methods 388
– detmn. of quinine in – by HPLC 580
– detmn. of retinol-binding protein, proteins in – by enzyme-linked immunosorbent assay 575
– detmn. of sorbitan monolaurate in human – by GLC 569
– detmn. of tiazofurin in – by TLC/HPLC 387
– detmn. of total cholesterol in – by enzymatic anal. 174
– detmn. of urea in – with a urease reactor/ion-selective electrode 86
– detmn. of uric acid in – by reversed-phase HPLC 572
– detmn. of valproic acid in – by GLC 386
– detmn. of valproic acid in – by GLC/NPD 94
– detmn. of zinc in – by AAS, matrix modification 570
– detmn. of zinc in – by flameless AAS 86
– isoelectric focusing of phosphatase, alkaline isoenzymes in – 484
– lactate electrode with lactate oxidase for – samples in flow systems 569
– measurement of glucose enrichment in – using isotope dilution MS 87
Body fluids
– detmn. of γ-vinyl-γ-aminobutyric acid enantiomers in – by GC/MS 169
Borate complexes
– detmn. of hydrocarbons via – by chromatography, ion-exchange 285
Boron
– detmn. of –, beryllium and lithium in coal ash and geological materials by optical emission spectrometry 144
– detmn. of impurities in – and boron compounds by ICP spectrometry 368
– detmn. of – (ng) in plant materials by pH-difference measurement 560
Boron compounds
– detmn. of impurities in boron and – by ICP spectrometry 368
Boron hydride, ^{3}H-labelled
– detmn. of the specific activity of sodium – 460
Boronic acid
– substituted silica for sepn. of nucleosides, cis-dioles from biological fluids by chromatography, HPLC 54
Boron trihalides
– chromatography, gas, adsorption effects by – 459
– chromatography, gas, faults by – used as catalyst 540
Borosilicate glass
– microscale homogeneity and compositional profiling of –, glass 75
Brain
– detmn. of catecholamines in – by HPLC/fluorimetry 87
Bread
– detmn. of propionic acid in – by GC 475
Brines
– anal. of fluoride in geothermal geopressed – 468
Brines
– detmn. of dissolved carbon, organic in conc. – 469
Bromate
– detmn. of – in perchloric acid medium by spectrophotometry, new reagents 70
Bromide
– detmn. of – in fresh water after chromatographic enrichment 559
– detmn. of – in suspended particulate matter of air by HPLC 377
– detmn. of – traces by spectrometry, molecular absorption of AlBr 546
Bromine
– detmn. of chlorine and – in the stratosphere, air by spectrometry, MIP 555
– detmn. of fluorine, chlorine, – and iodine by ion chromatography with electrochem. or conductometric detection 69
Bromine fluorides
– anal. of – by GC 70
2-(6-Bromo-2-benzothiazolylazo)-5-diethylamino-phenol
– detmn. of zirconium in alloys with – by spectrophotometry 375
Bromochlorohydantoin
– use of – as oxidimetric titrant in potentiometric titration 460
4-Bromomethyl-6,7-dimethoxycoumarin
– detection of carboxylic acids with – in LC 548
Bromophenyl ethers
– as stationary phases in chromatography, gas 135
N-α(5-Bromopyridyl)-N′-benzoyl thiourea
– detmn. of rhodium(III) with – by extractive spectrophotometry 612
Bronzes
– anal. for fire-proof –, glass for decomposition vessels 466
– detmn. of iron in – with pyrocatechol-3,5-disulfonic acid or acetylacetone by spectrophotometry 466
Busulfan
– detmn. of – in blood plasma by GC/ECD 386
Butter
– detmn. of sodium in – by AAS 473
2-tert-Butylanthraquinone
– chromatography, liquid with fluorescence detection by photoreduction of – 133
Butylhydroxyanisole
– preconc. and differential pulse voltammetry of – at a carbon paste electrode 149
N-Butyl scopolammonium bromide
– detmn. of scopolamine hydrobromide and – using liquid membrane electrodes 165
Butyltin compounds
– anal. of – by GC 137

C

Cabbage
– detmn. of prothiophos in – by GC/MS 564
Cacao beans
– detmn. of ochratoxin A in – by HPLC 84
Cactaceae
– anal. of β-phenethylamines in – by HPLC 156
Cadion
– detmn. of nickel in alloys and soils with – and 1,10-phenanthroline by extr. spectrophotometry 375
Cadmium
– acid-extr. of – from fish eggs or tissues 473
– detmn. of – and copper by isotope dilution analysis/TIMS 398
– detmn. of – and lead in natural water by EAAS 434
– detmn. of – and zinc in waste water, comparison of polarography and stripping voltammetry 81
– detmn. of – and zinc traces in water by AAS, graphite rod 380
Cadmium
– detmn. of –, cobalt, copper, lead, mercury and nickel in zinc sulfate plant electrolyte by LC 469
– detmn. of copper, lead and – on gold electrodes by anodic stripping voltammetry 542
– detmn. of copper, zinc, – and manganese in blood serum and liver tissue 570
– detmn. of – in ceramic enamels with PAN and non-ionic surfactants by spectrophotometry 76
– detmn. of – in water by extr. preconcentration and AAS 380
– detmn. of – in zinc ores by thermal neutron absorption analysis 150
– detmn. of iron, sulfate, silver and – by flow-injection anal. 462
– detmn. of lead and – in ceramics, comparison of two hot leach methods 76
– detmn. of stability constants of binary and ternary complexes of copper(II) and – 542
– detmn. of thallium in – and lead by graphite furnace AAS with platform 71
– detmn. of the chemical forms of – and silver in sediments by Zeeman flame AAS 151
– detmn. of traces of copper(II), iron(II) and – by colorimetry 64
– detmn. of – with pyrazolone derivatives by extr. spectrophotometry 368
– detmn. of – with tetramethyltetraazacyclotetradecane and erythrosin A 542
– digestion methods for detmn. of – and lead in organic and silica-rich sediments 151
– in situ gaseous pre-treatment of liver extracts in spectrometry, atomic absorption of – and lead 165
– sources and analysis of –, review 581
Cadmium azide
– detmn. of the products of – radiolysis by ion-selective electrode 374
Cadmium oxide
– anal. of – surface area by isotope exchange, gas adsorption and air-permeability 74
Caffeine
– detmn. of theophylline and – in blood plasma by HPLC 580
Calcium
– bipolar pulse conductometric monitoring of electrodes, ion-selective, interferences from electroactive species, – electrode 363
– detmn. of – and magnesium in soils by spectrophotometry 153
– detmn. of – and magnesium in the presence of Mn and Fe by complexometry 542
– detmn. of – by flow injection anal. and AAS, ion-exchange of interferences 368
– detmn. of – in blood serum by ion-selective electrodes, flow-through apparatus 570
– detmn. of – in urine by direct EAAS with the L'vov platform 570
– detmn. of – with crown ethers by extr. spectrophotometry 64
– detmn. of – with cryptand derivatives by extr. spectrophotometry 367
– electrodes, ion-selective in the presence of anionic surfactants 367
Calcium di(octylphenyl)phosphate
– structural characteristics of – for use in electrodes, ion-selective 368
Calcium isotopes
– detmn. of – in biological fluids by fast atom bombardement MS 570
Calorimetry
– study of bonded silica phases by adiabatic – 132
Cannabis
– detmn. of Δ^9-tetrahydrocannabinol in – by GC 568

Capillary columns
– chromatography, gas, selective phases for –, WCOT 458
– development of porous-layer –, PLOT for chromatography, gas 458
Capsaicin
– detmn. of – in personal protection aerosols by HPLC 471
Carbamates
– detmn. of –, insecticides in fruits and vegetables by capillary GC 157
– detmn. of urea, – and anilides, herbicides by reversed-phase TLC 157
Carbodiimides
– detmn. of – with aconitic acid, trans- by fluorimetry 146
Carbohydrates
– anal. of – in foods 220
– detmn. of – by anion-exchange chromatography, with pulsed amperometric detection 140
Carbon
– detmn. of – in metals by photometric nonaqueous coulometric titration 70
– detmn. of – in uranium carbide and uranium oxide by manometry 46
Carbon, activated
– adsorption of ferroin-type ligands and metal chelates on – 60
– adsorption of hydrogen sulfide and methyl sulfide on – 78
– sorption of metal chelates on – 22
Carbonate
– detmn. of alkalinity and total – in sea water by automatic titration 379
Carbon dioxide
– detmn. of – by a gas sensor probe 58
[^{14}C]Carbon dioxide
– new device for detmn. of – 86
Carbon monoxide
– detmn. of – in air, elimination of interferences at a precolumn 554
– detmn. of – with ruthenium(II) octaethylporphyrin 554
– detmn. of – with tetrachloropalladate(II)-cacotheline by spectrophotometry 555
Carbon, organic
– detmn. of dissolved – in conc. brines 469
Carbonyl groups
– detmn. of – position in triamantanone by ^{13}C-NMR spectroscopy 354
4-Carboxybenzaldehyde
– detmn. of – in benzene-1,4-dicarboxylic acid by square wave voltammetry 147
Carboxylic acids
– chloranil as reagent for detmn. of – and their salts 60
– detection of – with 4-bromomethyl-6,7-dimethoxycoumarin in LC 548
– detmn. of C_2–C_8 – in water by HPLC with conductivity detection 381
– detmn. of – in air by ion chromatography 378
– detmn. of volatile – in blood and urine by GC 167
– high-resolution subtractive chromatography, gas of – 459
– sepn. of halogenopropyl esters of aliphatic – by GC 548
Carboxypeptidase A
– detmn. of zinc with immobilized – 64
Cardiac glycosides
– detection of – in HPLC by tensammetric detector 567
– sepn. of – by reversed-phase HPLC, retention and structure 164
Cardiotonic agents
– anal. of –, MDL 19,205 in blood plasma and urine by HPLC 578
Cardiotoxins
– sepn. of – in snake venom by HPLC 580
Carnitine
– detmn. of – and acylcarnitines by enzymatic radioisotopic exchange and HPLC or TLC 575
Carotene
– detmn. of lycopene, – and retinyl esters in blood serum by reversed-phase HPLC 172
Carrier gases
– chromatography, gas with vapor –, review 136
Carrots
– anal. of herbicides in potatoes and – by chronopotentiometry 563
Cartap
– detmn. of – by spectrophotometry 158
Carvone
– detmn. of cinnamic aldehyde and – in oils, volatile by sec. derivative UV spectrometry 566
Cast iron
– detmn. of lanthanum and cerium in nodular – by wavelength-dispersive X-ray fluorescence spectrometry 466
Catalysis
– new horizons in –, vol. A and B, book 359
Catalysts
– detmn. of palladium in – with 5-phenylazo-8-aminoquinoline by extr. spectrophotometry 465
Catechol
– detmn. of benzene, – and hydroquinone in blood by GC 572
Catecholamine metabolites
– detmn. of – and 5-hydroxyindoleacetic acid in urine by capillary GC 573
Catecholamines
– detmn. of – in brain by HPLC/fluorimetry 87
– detmn. of –, indole amines, amines, biogenic by automated HPLC 573
– detmn. of – in urine by HPLC/electrochem. detection 88
– detmn. of – in urine by ion-exchange LC/electrochem. detection 572
– detmn. of metabolites of – in urine by TLC-spectroscopy 273
– detmn. of –, octopamine, 5-hydroxy-tryptamine in biological tissues by HPLC/coulometry 572
– sepn. of – and indole amines in biological materials by HPLC 572
Catecholamine sulfoconjugate isomers
– detmn. of – in urine by HPLC/photometry 87
Cell extracts
– detmn. of deoxythymidine, nucleosides in – by reversed-phase HPLC 480
Cells
– anal. of proteins in – by isoelectric focusing in zwitterionic agarose gel thin layers 170
Cell systems, aerobic
– detmn. of hydrogen peroxide in – 165
Cement
– detmn. of aluminum in rocks and – by spectrophotometry 151
Cephalosporins
– detmn. of – in biological fluids by reversed-phase LC 387
Cephapirin
– detmn. of penicillin G, ampicillin and – in biological materials by microbiological methods 96
Ceramic enamels
– detmn. of cadmium in – with PAN and non-ionic surfactants by spectrophotometry 76
Ceramics
– detmn. of lead and cadmium in –, comparison of two hot leach methods 76
Cereals
– detmn. of uric acid in grains and – by HPLC 475
Cerebrospinal fluid
– anal. of 3-methoxy-4-hydroxyphenylglycol in human – by GC/MS and LC/electrochem. detection 572
– detmn. of 3-methoxy-4-hydroxyphenylglycol, 5-hydroxyindoleacetic acid and homovanillic acid in – by HPLC with electrochem. detection 168
– detmn. of monoamine metabolites in – by HPLC with electrochem. detection 168
Cerium
– detmn. of – in lanthanide oxides and yttrium by inverse voltammetry 369
– detmn. of lanthanum and – in low-alloy metals by spectrophotometry, polymetallic complexes 375
– detmn. of lanthanum and – in nodular cast iron by wavelength-dispersive X-ray fluorescence spectrometry 466
– detmn. of lanthanum and – with alizarin red-S by amperometric titration 369
Cerium(III)
– study of –, sorption and LC in HCl medium 369
Cerium dioxide
– detmn. of chromium traces in – by spectrophotometry 74
Cesium
– detmn. of – by AAS in flames by laser excited ionization of atoms 62
Cetylpyridinium chloride
– detmn. of – in chondroitin sulfate by HPLC 566
Charcoal
– anal. (nondestructive) of chemical reactivity of Cu–Cr–Ag impregnated – 74
Chemiluminescence
– detection of sulfur compounds in chromatography, gas with fluorine induced – detector 55
– detmn. of phosphorus by gas phase – after hydride generation 68
Chemiluminescence analyzers
– , optimization 52
Chemistry
– computer in –, book 130
Chicken tissue
– detmn. of ethopabate in – by HPLC with fluorimetric detection 562
Chloramine T
– detmn. of silver and mercury(II) with – by electrodes, ion-selective 542
^{36}Cl-Chloramine T
– detmn. of nitrite with – by radio-release method 545
Chloramphenicol
– detmn. of – in pharmaceutical products by ion-selective electrode 163
Chloranil
– as reagent for detmn. of carboxylic acids and their salts 60
– detmn. of tranexamic acid with – by spectrophotometry 566
Chlorhexidine
– detmn. of – in pharmaceutical products by GLC 565
– detmn. of proguanil and – by polarography 566
Chloride
– detmn. of – in oxidizing media by ion-selective electrodes 468
– detmn. of – in sodium hydroxide and sulfuric acid by ion chromatography 468
– detmn. of nitrate, – and sulfate in drinking water by capillary free-zone electrophoresis 78

Chloride
– detmn. of nitrate, nitrite, phosphate, –, sulfate in vegetables by ion chromatography 121
Chlorine
– detmn. of – and bromine in the stratosphere, air by spectrometry, MIP 555
– detmn. of fluorine, –, bromine and iodine by ion chromatography with electrochem. or conductometric detection 69
– detmn. of nitrogen, oxygen, fluorine, phosphorus, sulfur and – in aluminum alloys by NAA 73
– solubility data series (IUPAG), sulfur dioxide, –, fluorine and chlorine oxides 50
Chlorine oxides
– solubility data series (IUPAG), sulfur dioxide, chlorine, fluorine and – 50
Chlormethanesulfonanilide
– detmn. of – and derivatives by TLC with FID 563
4-Chloroanilides
– anal. of acid chlorides as – by HPLC 139
β-P-Chloroanilinocinnamo-p-chloroanilide
– detmn. of copper(II) with – by gravimetry 367
Chlorobenzenes
– retention increments of isomeric – 141
Chlorobenzohydroxamic acid, o-
– detmn. of vanadium(V) with – by extr. spectrophotometry 545
Chlorocresol
– detmn. of – in pharmaceutical products by LC and spectrophotometry 565
Chlorophenols
– detmn. of – and phenoxyacetic acids by LC, on PRP-1 as stationary phase 159
– detmn. of – in herbicides by capillary-GC/FTIR-spectroscopy 103
– detmn. of – in water, waste water by GLC/ECD 381
– ident. of – in urine by GC/MS, SIM 96
Chlorophylls
– detmn. of – a and b in plants 561
Chloroquine
– detmn. of – in blood by perfluoroacylation and GC 387
Chlorostannate(II)
– detmn. of platinum based on systems with – and basic dyes, flotation/spectrophotometry 466
Chocolate
– detmn. of proteins in – by immunology 82
Cholecystokinins
– detmn. of – in biological materials by HPLC 574
Cholesterol
– detmn. of total – in blood serum by enzymatic anal. 174
Cholesterol esters
– detmn. of hydrocarbons, fatty acid derivatives, –, wax esters, triglycerides in beeswax by GLC 410
Choline
– detmn. of – and betaine in some fish materials, simultaneous 477
Cholinesterase
– detmn. of – by fluorimetry as thiocholine 483
– detmn. of – by kinetic spectrophotometry with cholinoxidase-peroxidase 92
– enzyme electrode based on immobilized – 569
Chondroitin sulfate
– detmn. of cetylpyridinium chloride in – by HPLC 566
Chromatin histones
– sepn. of – by HPLC 90
Chromatography
– and mass spectrometry in biochemical sciences, book 49
– , effect of eluent electrolyte on the behavior of ionic solutes on polyacrylamide gels 458
Chromatography
– , new methods for interpretation of overlapped peaks 456
– , relationships between molecular connectivity indices, partition coefficients and chromatographic parameters 135
Chromatography, adsorption
– of organic compounds on Bio-Gel P-2 134
Chromatography, affinity
– sepn. of blood cells by – on polyethylene glycol bonded stationary phases 165
Chromatography, Donnan exclusion
– sepn. of organic acids by – 138
Chromatography, droplet-counter-current
– , DCCC with non-aqueous systems 225
Chromatography, gas
– , adsorption effects by boron trihalides 459
– bromophenyl ethers as stationary phases in – 135
– , capillary columns with very thick phase film 538
– , capillary GC/FTIR system 539
– charact. of bonded silica gels, stationary phases for – 459
– , choice of optimal columns 539
– , coating of capillaries with reduced internal diameter 537
– , cold injection techniques 539
– column problems and correction in capillary – 135
– columns with polyperfluoroalkyl ether as stationary phases in – 55
– concentration-dependent retention behavior in capillary –, toxicological analysis 568
– , control system for carrier gas distribution for two or more detectors 459
– , current techniques for prep. of capillary columns 537
– cyclodextrins, acetylated as stationary phases in – 135
– data analysis in – of benzene derivatives 55
– , deactivation and coating of capillary columns 538
– , deactivation of capillary columns 538
– detecor, radioactivity for capillary – 55
– detection of sulfur compounds in – with fluorine induced chemiluminescence detector 55
– detector, gas density for – 540
– detector, ion mobility for – with photoionization source 55
– detectors for – and chromatography, HPLC, advances and needs 136
– detmn. of hydrocarbons, polycyclic aromatic by –, interaction with stationary phases 539
– , detmn. of N- and P-compounds by tunable selective thermionic detector 540
– detmn. of pesticides by –, polar glass capillary column 563
– development of porous-layer capillary columns, PLOT for – 458
– , direct head-space technique with capillaries and multiple detection 539
– effect of chemical bonding of stationary phases in capillary – 537
– , efficiency of thick film capillary columns 538
– , equation for solvent effect 459
– ethanol as volatile stationary phase conditioner in – 136
– , faults by boron trihalides used as catalyst 540
– , fluidic logic injection system for capillary GC 536
– fused silica capillary column for – 537
– gas-loop injection system in capillary – 458
– , gummification of methylphenylsilicones in capillary columns 537
– high-resolution subtractive – of carboxylic acids 459
Chromatography, gas
– immobilization of polyethylene glycol in capillary columns for – 136
– immobilization of silicone stationary phases for capillary – with azoisobutyronitrile 55
– , improved N-P detector resolution with solids injector 540
– , improved precision with a calibration detector 540
– , influence of sample solvent and stationary phase polarity 540
– injection temperature effects in capillary – 135
– , joining of glass capillary columns with gold-plated Pt-IR tubing 55
– judged by optic fibre techniques 459
– /mass spectrometry, fused-silica interface 136
– mass spectrometry/pyrolysis combined with –, applications 439
– mass spectrometry/pyrolysis combined with –, applications 440
– mass spectrometry/pyrolysis combined with –, applications 441
– mass spectrometry/pyrolysis combined with –, applications 442
– mass spectrometry/pyrolysis combined with –, applications 443
– mass spectrometry/pyrolysis combined with –, applications 444
– mass spectrometry/pyrolysis combined with –, applications 445
– mass spectrometry/pyrolysis combined with –, applications 446
– mass spectrometry/pyrolysis combined with –, applications 447
– mass spectrometry/pyrolysis combined with –, applications 448
– mass spectrometry/pyrolysis combined with –, applications 449
– mass spectrometry/pyrolysis combined with –, applications 450
– mass spectrometry/pyrolysis combined with –, applications 451
– mass spectrometry/pyrolysis combined with –, applications 452
– micro-glass working for capillary – 458
– movable on-column injector for capillary – 536
– , new cold injection device 539
– nonextractable cyanopropyl polysiloxane stationary phases for capillary – 135
– on alumina, modified with K_2HPO_4 135
– optimization of on-column injection in capillaries – 537
– polyimide effluent splitter for multiple detection in capillary – 538
– polysiloxanes containing tolyl and cyanopropyl groups as stationary phases for – 459
– , preparative sepn. by high resolution circulation GC 540
– prep. of coated capillary columns for – 537
– , prep. of medium-polarity capillary columns with silane-coupling agents 537
– , reproducibility of retention indices 538
– rubidium benzenesulfonate as stationary phases in – 135
– , selective phases for capillary columns, WCOT 458
– sepn. of C_1–C_{10} hydrocarbons by –, Al_2O_3-coated capillary columns 538
– sepn. of cyclic ethers and ketones by –, on graphitized carbon black 136
– , solute escape and solvent effects 540
– , solute focusing by solvent effect 539
– , solute focusing in packed and open-tubular inlets 539
– , solute focusing technique for on-column injection in capillary columns 537
– solvent effects in capillary – 538

Chromatography, gas
– , stationary phase selection 539
– study of porous polymer bead as stationary phases in –, classification of polarity 459
– , testing of capillary columns 538
– thermal peak splitting capillary – 538

– with packed capillary columns 135
– with vapor carrier gases, review 136
Chromatography, gel
– , prep. of whole-fiber cotton columns 134
– , solvation and adsorption effects 134
Chromatography, HPLC
– , 3 µm packings in microbore RP columns 535
– , advantages of microbore columns 535
– anal. of insect hormones by – with radial compression 175
– anal. of wines and musts by – 474
– boronic acid substituted silica for sepn. of nucleosides, cis-dioles from biological fluids by – 54
– , charact. of silanophilic columns 132
– computer controlled – 295
– , data storage with computer 134
– detection of metabolites of amines, biogenic by micro – with electrochem. detection 573
– detection of volatile fatty acids in –, by capillary electrokinetic detector 138
– , detector, electrochemical with graphite-Teflon electrode 457
– detectors for chromatography, gas and –, advances and needs 136
– detectors for –, crystalline quartz cell for simultaneous fluorescence, photoacoustic and photoionization detection 54
– detmn. of glucuronides by –/mass spectrometry with thermospray ionization interface 54
– dual detector, electrochemical for – 133
– , evaluation using photodiode-array detectors 235
– , extraction with supercritical gases 305
– , gradient separations with micropacked capillaries 457
– hard- and software in – 536
– influence of counter-ions in ion-paired – 269
– , Kel-F ion-exchange packings 131
– long columns and column coupling for high efficiency in – 457
– /mass spectrometry, moving belt interface with spray deposition 54
– mechanistic study of the negative mode detector, fluorescence in – 133
– micellar mobile phase in – of hydrobenzene derivatives 142
– MIP as detector for – 485
– , optimization of mobile phase 132
– rotating disc multiwavelength detector, UV for– 457
– silica-bound alcohol dehydrogenase as stationary phase for – of nucleotides and nucleosides 481
– , slurry packing of columns 536
– solid phase reactions for derivatization in – 457
– study of silica alkyl-bonded phases for – 535
– supported mercury drop electrode detector in – 54
– , testing of columns with ECD 536
Chromatography, HPLC
– transfer of chromatography, thin-layer separation systems to – 300
– with microbore columns, mixers for gradient elution 53
– with microbore columns, review 132
– with on-column infrared monitoring and deuterated solvents 132
– with short columns 53
Chromatography, ion
– detmn. of anions by –/potentiometry 456
– linear calibration of – by calculations 456
– multiple detectors and stepwise elution in – 133
– quant. – with UV detector without standards 535
– sepn. of anions, inorganic and organic acids on silica-based ion-exchangers by – 456
Chromatography, ion-exchange
– fast – of proteins, optimal conditions 89
Chromatography, ion-pair
– of ions on Lichrosorb RP-18 54
Chromatography, ligand exchange
– sepn. of amino acid racemates by – on L-hydroxy-proline polystyrene sorbents 88
Chromatography, liquid
– dead volume detmn. in reversed-phase – 536
– dependence of site-site interactions on pore diameter on amine-modified stationary phases in – 535
– detector, chemiluminescence for – 134
– detector, polarographic, flow-through, for – 133
– dual-label radiochemical detection of metabolites in – 85
– , influence of pressure on diffusion coefficient and plate height 132
– , interfacial tension in reversed-phase LC 536
– laser two-photon ionization detector for – 458
– leak-tight glassy carbon electrodes for electrochemical detection in – 133
– liquid modifiers in reversed-phase – 457
– , low-dispersion connecting tubes 132
– /mass spectrometry, direct liquid inlet 55
– /mass spectrometry, direct liquid introduction interface 134
– , modified autosampler 131
– , open-tubular microcapillary columns with bonded stationary phases 535
– open-tubular – with 5–10 µm i. d. columns 53
– , potentiometric detector for capillary columns 133
– removal of solvents in – 54
– sepn. of lipids by – with florisil adsorbent 576
– study of silica based stationary phases for reversed-phase –, cation-exchange characteristics 53
– study of TSK-Gel CM-Toyopearl 650, ion-exchangers for – 131
– with dual-flame thermionic detector 133
– with electrochemical detection using coulostatic pulse amperometry 133
– with fluorescence detection by photoreduction of 2-tert-butylanthraquinone 133
– with microbore packed anion-exchange column and UV detector 535
– with mobile phases containing crown ethers 457
Chromatography, liquid-gas partition
– , LC with gaseous stationary phase 132
Chromatography, pseudophase liquid
– , PLC, with micellar mobile phases 132
Chromatography, sequence thin-layer
– exp. with MOBIL-Rf-chamber for – 289
– MOBIL-Rf-chamber in preparative – 291
Chromatography, size exclusion
– anal. of particle suspensions by – and chromatography, hydrodynamic 134
– , effect of flow rate on elution volume 134
Chromatography, supercritical fluid
– direct fluid injection interface for capillary –/mass spectrometry 136
– gradient elution in – 54
– , open-tubular columns 536
– , scanning fluorescence detection 536
– , use of FID and N-thermionic detectors 536
Chromatography, thin-layer
– advances in –, clinical and environmental applications, book 534
– as pilot-technique to HPLC 307
– derivatization reactions in quant. – 206
– detection of organic compounds by thermal-UV method in – 56
– detmn. of parameters of ion-exchange – systems, estim. of complex formation 56
– ion-pair –, with UV-absorbing counterions 136
– /mass spectrometry, plate scanner interfaced with MS 137
– programmed multiple development (PMD) – compared with HPLC 228
– sepn. of metal ions by – on stannic arsenate layers 56
– sepn. of prostaglandins and thromboxane by –, alkylsilane modified silica 577
– , sorbents in comparison with LC 181
– transfer of – separation systems to chromatography, HPLC 300
Chromazurol RS
– detmn. of aluminum in welding-fluxing agents with – by spectrophotometry 375
Chromazurol S
– detmn. of beryllium with – in the presence of aluminum by photometry 64
Chromium
– detmn. of – and zinc in corrosion-resistant coatings by XRS/AAS 73
– detmn. of – besides silicon and tungsten by optimization of flame AAS 309
– detmn. of – by spectrometry, atomic absorption, N_2O-acetylene flame 546
– detmn. of – (III and VI) by AAS in a graphite tube 372
– detmn. of total – in sea water by AAS 80
– detmn. of – traces in cerium dioxide by spectrophotometry 74
Chromium(III)
– detmn. of – in steel by spectrophotometry with tropolon 372
Chromium(VI)
– detmn. of – in ground water by electrothermal AAS, selective 381
– detmn. of – in sewage 559
– detmn. of – with cyclohexane-1,3-dione bisthio-semicarbazone hydrochloride by spectrophotometry 546
– stripping voltammetry of – at a poly(4-vinyl-pyridine)-coated platinum electrode 373
Chromotropic acid
– oxidation of – and 2,7-dichlorochromotropic acids with persulfate in presence of copper(II) 541
Cigarette smoke
– anal. of volatile compounds in – condensate by LC/GC-MS 479
– detmn. of gas phase organic compounds in – by GC, Tenax trap 479
Cinetidine
– detmn. of – at nanomolar to micromolar levels 161
Cinnamic acid derivatives
– sepn. of cis-trans isomers of – by HPLC with UV and electrochemical detection 550
Cinnamic aldehyde
– detmn. of – and carvone in oils, volatile by sec. derivative UV spectrometry 566

Circular spectroscopy dichroism
– detmn. of Δ^4-3-ketosteroids in drug base substances by – 528
Cisplatin
– detmn. of – in urine by HPLC 96
– detmn. of – by LC with chloride-assisted electrochem. detection 163
Citrate
– assay of mixtures of sodium bicarbonate and sodium – in antacid drugs 160
– detmn. of oxalate, – and fluoride by indirect spectrophotometry 549
Citropten
– detmn. of bergapten and – in cosmetics by HPLC 566
Citrus juices
– detmn. of ascorbic acid in – and tomato juices with "sandwich"-indicator sticks 477
Clay minerals
– detmn. of water and hydroxide in – by Erba-CHNO-analzator 347
CMP-N-acetylsialic acid
– detmn. of – and acetylsialic acid, N- in biological materials by radioenzymatic anal. 172
Coagulase
– detection of staphylococal thermonuclease and – in foods by enzymatic anal. 478
Coal ash
– detmn. of boron, beryllium and lithium in – and geological materials by optical emission spectrometry 144
– detmn. of – by X-ray fluorescence spectrometry 144
Coal fly ashes
– detmn. of hydrocarbons, polycyclic aromatic in urban air and – by GC 556
– screening of – for organic compounds, volatile by GC 144
Coal liquefaction products
– sepn. of aromatic compounds in – by LC on picric acid modified alumina 144
Coal liquids
– anal. of – by HPLC and GC/MS 144
– sepn. of polar compound classes in petroleum, bitumen and – by LC with aprotic dipolar solvents 469
Coals
– anal. of natural – by optical spectroscopy methods, pecularities 143
– detmn. of trace elements in – by AAS 144
Coatings
– anal. of thermal decomposition products of phosphate and oxalate – on steel 467
– detmn. of chromium and zinc in corrosion-resistant – by XRS/AAS 73
Cobalamins
– detmn. of – in biological materials 173
Cobalt
– detmn. of cadmium, –, copper, lead, mercury and nickel in zinc sulfate plant electrolyte by LC 469
– detmn. of copper, nickel, – and zinc in iron-manganese nodules by atomic fluorescence 152
– detmn. of –, copper, nickel, lead and zinc in rocks by solvent extr. and AAS 152
– detmn. of – in alloys with EDTA by spectrophotometry 375
– detmn. of – in blood by electrothermal AAS 37
– detmn. of – in blood plasma by electrothermal AAS 41
– detmn. of – in steel and nickel alloys by a.c. polarography 72
– detmn. of – with 1,10-phenanthroline by spectrophotometry 463
Cobalt(II)
– anal. of hydroperoxides, organic by photometry using mixed-ligand complexes of – 470
– complexation of N-(2-acetoamido)imino-diacetic acid with zinc, –, nickel and copper(II) 460
– detmn. of – by spectrophotometry, new reagents 463
– detmn. of – traces by continuous flow and flow-injection anal., chemiluminescence detector 463
– detmn. of – with maleonitrile dithiolate by spectrophotometry 463
Coenzyme A
– detmn. of – by radioisotopic assay with ^{14}C 483
Coenzyme Q
– sepn. of – homologues by reversed-phase HPLC 92
Coffee
– detmn. of insoluble matter in instant – 82
Complexes
– computerized plotting method for detmn. of stoichiometry of – 460
Complex formation
– detmn. of parameters of ion-exchange chromatography, thin-layer systems, estim. of – 56
– of some elements with Eriochromcyanine R 60
Complex formation constants
– computer methods for calculation of – by DPP 460
– detmn. of – by spectrophotometry 365
Complexometric titration
– controlled by anodic-stripping methods, voltammetric stripping 59
– use of sodium dodecyl sulfate in anodic-stripping – 59
Complexometry
– use of DCTA in –, review 460
Computer
– applications in chemistry, book 359
– in chemistry, book 130
– laboratory –, fast algorithms for digital smoothing 365
– methods for calculation of complex formation constants by DPP 460
– spectrometry, UV, coupled with desk-top – 511
Concentrates
– detmn. of silver in ores and – by AAS 551
Concrete
– investigation of interfacial corrosion in – by electron microanalysis 124
Conductometric titration
– on the invention of – 365
Continuous-flow analysis
– dispersion in – sample processing 60
Copovithane
– anal. of – and methylamine in blood and urine by HPLC 96
Copper
– complex compounds of metals with O,O-dialkyl-S-thiocarbamoyl dithiophosphates for detmn. of lead and – by extr.-polarography 67
– complex formation and extr. of –, iron and gallium with long-chain alkylquinolin-8-ols 542
– detmn. of aluminum, – and zinc in human hair by AAS 86
– detmn. of – and silver in ppm solutions by electrodeposition ICP-AES 541
– detmn. of cadmium and – by isotope dilution analysis/TIMS 398
– detmn. of cadmium, cobalt, –, lead, mercury and nickel in zinc sulfate plant electrolyte by LC 469
Copper
– detmn. of cobalt, –, nickel, lead and zinc in rocks by solvent extr. and AAS 152
– detmn. of – in blood serum by AAS, collaborative study 86
– detmn. of – in the form of ion-pair by extr.-luminescence method 64
– detmn. of – in zinc electrolyte by potentiometry with Cu-sensitrode 15
– detmn. of iron and – by spectrophotometry, new reagents 462
– detmn. of –, lead and cadmium on gold electrodes by anodic stripping voltammetry 542
– detmn. of nickel and – with o-mercapto-acetanilide by spectrophotometry 463
– detmn. of –, nickel, cobalt and zinc in iron-manganese nodules by atomic fluorescence 152
– detmn. of silver in ores, concentrates, zinc process solutions, – and alloys by AAS, extr. as tribenzylamine-silver bromide complex 374
– detmn. of trace metals, – in apatite by anion exchangers and spectrophotometry 131
– detmn. of –, zinc, cadmium and manganese in blood serum and liver tissue 570
– detmn. of –, zinc, manganese and iron in waste water by stripping voltammetry 557
– kinetic detmn. of – with 2-methyl-1,3-cyclo-hexanedione bis(4-phenyl-3-thiosemi-carbazone) 541
– sepn. of – by electrolysis with flow-through packed-bed electrode 366
– -zinc and copper-cadmium intermetallic compounds in voltammetry, anodic stripping 64
Copper(I)
– detmn. of – by electrodes, ion-selective, bis-dimethylphenanthroline picrate complex 541
Copper(II)
– analytical applications of the complexes of – and zinc with sulfonated azo dyes 367
– complexation of N-(2-acetoamido)imino-diacetic acid with zinc, cobalt(II), nickel and – 460
– detmn. of – and iron(III) by spectrophotometry as the azide complexes 367
– detmn. of – and mercury(II) with 2,2′-diphenyl-acetohydroxamic acid by gravimetry 367
– detmn. of – in water by spectrophotometry 541
– detmn. of microamounts of silver, lead and – by peak PC 366
– detmn. of –, nickel and zinc by HPLC on β-diketone bonded phase 64
– detmn. of palladium and – in alloys and minerals with p-anisaldehyde thiosemi-carbazone by spectrophotometry 465
– detmn. of stability constants of binary and ternary complexes of – and cadmium 542
– detmn. of traces of –, iron(II) and cadmium by colorimetry 64
– detmn. of – using a liquid ion-selective electrode 63
– detmn. of – with 2-(2-thiazolylazo)-4-methyl-5-(sulfopropylamino)benzoic acid by flow-injection anal. 63
– detmn. of – with β-p-chloroanilinocinnamo-p-chloroanilide by gravimetry 367
– electrodes, ion-selective for – based on vanadium oxide bronzes 63
– kinetic influence on studies of – hydrolysis by copper ion-selective electrode 541
– oxidation of chromotropic acid and 2,7-dichlorochromotropic acids with persulfate in presence of – 541
– sorption of – by some complexing agents loaded on various supports 63

Copper(II)
– stepwise formation constants of nickel and – with 3-(o-acetophenyl)-1-methyltriazene-N-oxide 463
Copper-alizarin S complexes
– photometric and polarographic studies on – 541
Copper(I) complexes
– study of – with allyl alcohol 63
Copperorganic compounds
– speciation of – in soil-pore water by HPLC 553
Copper products
– detmn. of silver in – by extr./AAS 374
Coprecipitation
– of lanthanides with strontium sulfate in the presence of potassium 369
Corn
– detmn. of aflatoxins in –, computerized testing programm 84
Corrosion
– investigation of interfacial – in concrete by electron microanalysis 124
Corticosteroids
– detmn. of – in biological materials by HPLC 174
Cortisol
– detmn. of free – in blood serum by ultrafiltration 174
– detmn. of – in blood plasma and urine by affinity HPLC 174
Cosmetics
– anal. of –, rheological and spectroscopic behaviour 525
– detmn. of antimicrobial agents in – by TLC, GC and HPLC 567
– detmn. of bergapten and citropten in – by HPLC 566
– detmn. of bismuth in pharmaceutical products, – by extr. spectrophotometry as tetra-n-butylammonium tetraiodobismuthate 160
– detmn. of sulfur in – by ion chromatography 567
– sampling and investigation of foods, tobacco, –, official collection 130
Cotton
– detmn. of lacinilene c 7-methyl ether in – plant materials by HPLC 155
Coulometric generation
– of reagents for use in ion-exchange, book 129
Coulometry
– electrogeneration of iodine compounds in acetic acid for – 57
– predictive – based on first-order kinetic linearization 363
– use of bis(diphenyldithiophosphine)disulfide as reagent in – 460
Coumarins
– anal. of – in plant materials by HPLC 245
Creatinine
– detmn. of uric acid, xanthine, hypoxanthine, allopurinol, oxipurinol, orotic acid, orotidine and – in biological fluids by HPLC 175
Cresols
– sorption-chromatographic preconc. of phenol and – 550
Crown ethers
– chromatography, liquid with mobile phases containing – 457
– detection of – on TLC-plates with Dragendorff's reagent 56
– detmn. of aldehydes with – by spectrophotometry 548
– detmn. of calcium with – by extr. spectrophotometry 64
– detmn. of isomers of dinitrophenols by extr. spectrophotometry with – 550
Crown ethers
– examin. of polymeric – by pyrolysis-GC/MC 390
– solvent extr. of lanthanides with – 369
Crude oils
– detmn. of dimethylnaphthalene isomers in – by TLC/GC 144
Cryolithe
– detmn. of – in rocks by ion-selective electrodes 553
Cryometric analysis
– calculation of impurity contents in the – 365
Cyanide
– detmn. of – by spectrophotometry, highly sensitive indirect method 547
– detmn. of – in water by AAS, indirect 559
– detmn. of total – in thiocyanate-containing waste water by spectrophotometry or potentiometry 79
2-Cyanoacetamide
– detmn. of hexosamines by HPLC, photometric and fluorimetric postcolumn labelling using – 171
Cyanobiphenyls
– anal. of liquid-crystalline – by IR spectrometry 142
Cyanopropyl polysiloxane
– nonextractable – stationary phases for capillary chromatography, gas 135
Cyclamate
– detmn. of – in beverages by HPLC 477
Cyclodextrin
– detmn. of essential oils in inclusion complexes with – by GC 566
α-Cyclodextrin inclusion complexes
– sepn. of pinene enantiomers by GLC 550
Cyclodextrin polymer beads
– use of – as packings in chromatography, gas 539
Cyclodextrins, acetylated
– as stationary phases in chromatography, gas 135
Cyclohexane-1,3-dione bisthiosemicarbazone
– detmn. of chromium(VI) with – hydrochloride by spectrophotometry 546
– detmn. of palladium with – by spectrophotometry 464
1,2,3-Cyclohexanetriontrioxine
– detmn. of nickel with – by amperometry and spectrophotometry 464
Cyclopropenoic fatty acids
– anal. of – by HPLC 139
– detmn. of – in seed oils by HPLC and GC 476
Cystein
– detmn. of – in mixtures of amino acids by catalytic spectrophotometry 574
Cytoplasm
– detmn. of phospho-L-arginine in – by enzymatic anal. 169
Cytosine arabinoside
– detmn. of –, uracil arabinoside, nucleosides in biological fluids by HPLC 175

D

Data processing
– in analytical chemistry 61
– in photochemistry, HPLC measured 296
– in TLC/HPTLC and HPLC 201
DCTA
– use of – in complexometry, review 460
Dehydroabietic acid
– anal. of – in waste water by HPLC 473
Dehydroascorbic acid
– detmn. of ascorbic acid and – in blood plasma by HPLC 173
Deoxynucleotidyl transferase
– detmn. of terminal – by solid-phase enzyme immunoassay 92
Deoxyribonucleosides
– sepn. of – and ribonucleosides by isocratic reversed-phase HPLC 176
– sepn. of – from ribonucleosides by column chromatography, on polyethyleneimine cellulose 483
2-Deoxysugars
– detection of 2-keto-3-deoxyoctanat, –, acetylneuraminic acid, N- on chromatograms and pherograms 171
Deoxythymidine
– detmn. of –, nucleosides in cell extracts by reversed-phase HPLC 480
Derivatization
– reactions in quant. chromatography, thin-layer 206
Desmethyl nortriptyline
– detmn. of – in blood plasma by GC 95
Detection limits
– detmn. (automated) of – and selectivity coefficients of electrodes, ion-selective 58
Detector, chemiluminescence
– for chromatography, liquid 134
Detector, electrochemical
– chromatography, HPLC, – with graphite-Teflon electrode 457
– dual – for chromatography, HPLC 133
Detector, electrochemical flow-through
– with lead dioxide electrode 364
Detector, electron-capture
– effect of electric fields on positive ions in – 55
– , solute switching and synchronous demodulation of the signal 459
Detector, fluorescence
– mechanistic study of the negative mode – in chromatography, HPLC 133
Detector, gas density
– for chromatography, gas 540
Detector, ion mobility
– for chromatography, gas with photoionization source 55
Detector, polarographic
– , flow-through, for chromatography, liquid 133
Detector, radioactivity
– for capillary chromatography, gas 55
Detectors
– chromatography, gas, control system for carrier gas distribution for two or more – 459
– for chromatography, gas and chromatography, HPLC, advances and needs 136
– for chromatography, HPLC, crystalline quartz cell for simultaneous fluorescence, photoacoustic and photoionization detection 54
– MIP as – for chromatography, HPLC 485
Detector, tensammetric flow-through
– design of – 364
Detector, UV
– rotating disc multiwavelength – for chromatography, HPLC 457
Detergents
– detmn. of fatty acids in soap products and – by capillary GC 473
– detmn. of hydrotopes in – by HPLC 149
– detmn. of – in liposome preparations by bubble-pressure method 569
Diadenosine tetraphosphate
– anal. of – in biological materials, review 481
Dialkylphosphorodithioates
– extr. of – with tetraphenylarsonium cation 158
O,O-Dialkyl-S-thiocarbamoyl dithiophosphates
– complex compounds of metals with – for detmn. of lead and copper by extr.-polarography 67
Dialysis
– detmn. of protein binding by – 479

2,2′-Diaminodiphenyldisulfide
– detmn. of rhenium with – by spectrophotometry 374
2,6-Diaminopurine
– in situ electrode modification for direct differential pulse polarography of – and 2,6-diaminopurinol 143
2,6-Diaminopurinol
– in situ electrode modification for direct differential pulse polarography of 2,6-diaminopurine and – 143
Diazines
– HPLC behavior of phytoactive derivatives of – 564
Dibenzodioxins
– formation of –, dibenzofurans and phenoxazines from mothproofing agents by heat 147
Dibenzofurans
– detection of dioxins, – and biphenyls in fish, enzyme induction test 83
– formation of dibenzodioxins, – and phenoxazines from mothproofing agents by heat 147
2,6-Dibromoquinone-4-chlorimide
– derivatization of vitamin B_6 with – for UV detection/HPLC 477
Dicamba
– detmn. of 2,4-dichlorophenoxyacetic acid, – and 2-(2-methyl-4-chlorophenoxy) propionic acid in formulations by HPLC 159
Dicarboxylic acids
– detection of – on TLC-plates 548
β,β′-Dichloroethyl sulfide
– detmn. of – by TLC 139
Dichlorophenols
– sepn. of – isomers by GLC 550
2,4-Dichlorophenoxyacetic acid
– detmn. of –, dicamba and 2-(2-methyl-4-chlorophenoxy) propionic acid in formulations by HPLC 159
– detmn. of – in soils by capillary GC with ion-mobility detection 564
1,3-Dichloropropene
– detmn. of cis- and trans- – in blood by GC/MS-SIM 166
2,7-Dichlorochromotropic acids
– oxidation of chromotropic acid and – with persulfate in presence of copper(II) 541
Diclofop-methyl
– detmn. of – by HPLC 159
Diesel particulate extracts
– detmn. of hydrocarbons, polycyclic aromatic, nitrated in – by capillary GC/NPD 77
Diesel soot
– detmn. of hydrocarbons, polycyclic aromatic in – by microbore LC with electrochem. detection 145
Diethanolamine
– anal. of partially degraded – solutions by GC 145
Diethylaminoethanol
– detmn. of adiphenin, diphenylacetic acid and – in tissues, animal by HPLC 388
Diethyldithiocarbamate
– detmn. of thallium with ferroin or – by reverse isotope dilution anal. 66
Diethyleneglycoldinitrate
– detmn. of ethyleneglycoldinitrate and – by IR spectrometry 548
Diethyleneglycol succinate
– sepn. of radionuclides from fission product elements by adsorption on – 376
Di(2-ethylhexyl)phosphoric acid
– sepn. of americium(V) with – by extr. 370
Diethylstilbestrol
– detmn. of – in urine, tissues, animal and meat by fluorimetry 83
Digestion methods
– for detmn. of cadmium and lead in organic and silica-rich sediments 151
Digitalis glycosides
– detmn. of – in plant materials by HPLC 567
– sepn. of – by HPLC 164
Digitoxigenin
– detmn. of digitoxin and digitoxosides of – in blood serum by TLC 580
Digitoxin
– bounding of proteins and hydroxylation rate of –, radioimmunoassay 388
– detmn. of – and digitoxosides of digitoxigenin in blood serum by TLC 580
Digitoxosides
– detmn. of digitoxin and – of digitoxigenin in blood serum by TLC 580
Digoxin
– detmn. of – in blood serum by HPLC/HPTLC, comparison 264
Dihydroergocristine
– detmn. of – and dihydroergotamine in blood plasma by HPLC/fluorimetry 388
Dihydroergotamine
– detmn. of dihydroergocristine and – in blood plasma by HPLC/fluorimetry 388
Dihydroergotoxin methanesulfonate
– detmn. of – in blood plasma by HPLC 388
5,6-Dihydrofluorouracil
– detmn. of 5-fluorouracil and – in blood plasma by GC 579
Dihydrogenpolysulfides
– sepn. of – by reversed-phase HPLC 116
2,8-Dihydroxyadenine
– detmn. of – in urine by HPLC 175
4,5-Dihydroxycoumarin
– detmn. of nitrite in waste water with – 379
2,2′-Dihydroxy-4,4′-dimethylazobenzene
– detmn. of gallium with – by fluorimetry 543
2-(3,4-Dihydroxyphenylazo)-thiazole
– detmn. of indium in alloys with – by spectrophotometry 375
5,7-Diiodoquinolin-8-ol
– detmn. of magnesium traces with – by spectrophotometry 64
β-Diketones
– sepn. of sodium, potassium, rubidium, thallium and silver by extraction with – in MIBK 62
Dikuran
– detmn. of herbicides of – and dozanex by GC 158
Dimethylamine
– detmn. of – and trimethylamine in fish by GC 83
Dimethylmercury
– detmn. of – and methylmercury chloride in air by GC with AAS detection 555
Dimethylnaphthalene
– detmn. of – isomers in crude oils by TLC/GC 144
Dimethyl-1-naphthylamine-5-sulfonic acid
– spectral luminescence properties of – 550
Dimethyl sulfide
– detection of hydrogen sulfide and – with ozone by chemiluminescence 69
Dimethylterephthalate
– detmn. of – and ester derivatives by HPLC 471
Dimetridazole
– detmn. of – residues in poultry tissues by HPLC 476
Diminazene
– detmn. of – in blood plasma by HPLC 156
Dinitroaromatics
– detection (ng) of m– by spot-tests 141
5,7-Dinitro-8-hydroxyquinoline
– detmn. of scandium as ion associate involving – by extr. fluorimetry 369
Dinitrophenols
– detmn. of isomers of – by extr. spectrophotometry with crown ethers 550
Dinucleoside monophosphates
– quant. structure-retention relationships for – as a function of pH in HPLC 481
Dioles
– boronic acid substituted silica for sepn. of nucleosides, cis– from biological fluids by chromatography, HPLC 54
Dioxins
– detection of –, dibenzofurans and biphenyls in fish, enzyme induction test 83
Diphenylacetic acid
– detmn. of adiphenin, – and diethylamino-ethanol in tissues, animal by HPLC 388
2,2′-Diphenylacetohydroxamic acid
– detmn. of copper(II) and mercury(II) with – by gravimetry 367
Dipicolindihydroxamic acid
– detmn. of nickel with – by spectrophotometry 463
Dipicolinic acid
– detmn. of – in bacterial spores by derivative spectrophotometry 167
2,2′-Dipyridyl-2-benzothiazolylhydrazone
– detmn. of iron with – by spectrophotometry 461
2,2′-Dipyridylketone aminoethylimine
– detmn. of iron(II) with – by spectrophotometry 461
Dipyrone
– detmn. of – and its active metabolite in biological fluids by HPLC 383
Diquat
– anal. of – and paraquat in potatoes by GC 478
Disopyramide
– detmn. of – in blood plasma and urine by HPLC 94
– detmn. of quinidine, procainamide, acetylprocainamide, N- and – in blood plasma by HPLC 388
Dissociation constants
– detmn. of – of weak acids by fast atom bombardment MS 365
Distamycin A
– purity control of – by HPLC 163
Distant analysis
– of sulfur dioxide in air with correlations spectroscopic method 555
Distribution coefficients
– detmn. of – of sulfurorgano compounds in air/water systems by head space GC 548
Disulphoton
– detection of fenthion, – and phorate by TLC 158
Dithiocarbamates
– ion-interaction chromatography of – in the presence of tetraalkylammonium salts 563
Dithiolthiones
– detmn. of – by HPLC 164
Dithionate
– detmn. of sulfate, sulfite and – mixtures by potentiometric titration using lead ion-selective electrode 372
Divinylbenzene
– anal. of inoculated copolymers of styrene and – by pyrolytic GC 147
DNA
– anal. of – by electrophoresis with gradient thickness of agarose gel 481
– detection of – and RNA on polyacrylamide and agarose gels by silver staining 175
– detection of A + T-rich – in gels by differential fluorescence 482
– detmn. of 5-methylcytosine in – by GC/MS 482
– detmn. of 5-methylcytosine in – by reversed-phase HPLC 482
– detmn. of hydrocarbons, polycyclic aromatic in – solutions 176
– detmn. of single-stranded – by fluorimetry 482
– sepn. of – restriction fragments by ion-exchange HPLC 482

Dopa
– detmn. of L–, 6-hydroxydopa and tyrosine by LC, with voltammetric detection 162
– detmn. of L– in blood plasma by HPLC 386
Dopamine
– detmn. of epinephrine, norepinephrine and – in urine by HPLC 95
– sepn. and detmn. of epinephrine, norepinephrine and – by chromatography on diphenyl thin layers 567
Dopamine β-hydroxylase
– detmn. of – by HPLC, tyramine as substrate 483
Dopamine-O-sulfate
– detmn. of –, norepinephrin-O-sulfate and serotonin-O-sulfate by HPLC with dual-electrode detection 87
Dot-immunobinding assay
– for zein, prolamins 170
Dozanex
– detmn. of herbicides of dikuran and – by GC 158
Dramamine
– solvent extr./flow-injection anal. of – tablets 161
Drifting systems
– Kalman filter for calibration and quality control in – 461
Drug analysis
– cholate liquid membrane electrode, ion-selective for – 565
Drug base substances
– detmn. of Δ^4-3-ketosteroids in – by circular spectroscopy dichroism 528
Drugs
– anal. of herbs and – by direct headspace GC 564
– anal. of – in topical cream formulations by automated HPLC 567
– detmn. of – in biological materials by TLC/tandem MS 93
– ident. of – with iodic acid after TLC 565
– sepn. of racemic – by LC with α_1-acid glycoprotein chiral phase 565
Dust
– detmn. of particles in metallurgical – by radiometry 556
Dusting potential
– control of – of feed premixes 522
Dye mixtures, anthraquinone derived
– anal. of –, red and violet smoke mixtures 149
Dyes
– anal. of – for foods by HPLC 83
– ident. of organic – by SIMS 473
Dyes, disperse
– sepn. of – by TLC on polyamide sheets 149
Dysprosium
– detmn. of gadolinium and – in binary mixtures by differential spectrophotometry 66

E

Egg products
– detmn. of organic acids in – by GC 82
Electroactive substances
– detmn. of – by iR drop measurement in flow-through cell 363
Electrochemistry
– curriculum –, book 357
Electrode, ion-selective
– cholate liquid membrane – for drug analysis 565
Electrodeposition
– kinetic model of metal ions – from solutions of ppm and ppb conc. 57
Electrodes
– bacterial electrode, a new type of – 85
– mercury dissolution reaction mechanism at solid – 363
Electrodes
– properties of bubble– as detector in flow injection analysis 352
Electrodes, graphite-coated
– charact. of – in voltammetry 57
Electrodes, ion-selective
– bipolar pulse conductometric monitoring of –, interferences from electroactive species, calcium electrode 363
– , book 357
– calcium – in the presence of anionic surfactants 367
– carbon substrate – 58
– detmn. (automated) of detection limits and selectivity coefficients of – 58
– detmn. of copper(I) by –, bisdimethylphen-anthroline picrate complex 541
– detmn. of potassium using –, ISFET 349
– detmn. of selectivity coefficients of – 58
– detmn. of silver and mercury(II) with chloramine T by – 542
– detmn. of sulfide by – 69
– effect of polishing the fluoride-selective electrode,– on the response time and sensitivity 546
– for copper(II) based on vanadium oxide bronzes 63
– structural characteristics of calcium di(octyl-phenyl)phosphate for use in – 368
Electroimmunodiffusion
– quantitation of immunoglobulin G and albumin by – in presence of detergents 170
Electron microscope
– energy-dispersive X-ray microanalysis at the scanning – 456
Electrophoresis
– anal. of DNA by – with gradient thickness of agarose gel 481
– , computerized anal. of two-dimensional electropherograms 363
– two-dimensional –, resolution and reproducibility 56
Electrophoresis, gel
– , quantitation of two-dimensional electropherograms with television camera-microcomputer system 56
Electrophoresis, high-voltage
– sepn. of organic ions and metal ions by capillary – 56
Elemental analysis
– organic –, ultramicro, micro and trace methods, book 359
Elemental microanalysis
– of organic compounds and metalorgano compounds by pyrolysis GC 137
Elements
– activation analysis, neutron of – in rocks and minerals 150
– detmn. of – in plastics by electron beam microanal. 472
– detmn. of – in silver by AAS 374
– detmn. of – in tea leaves by INAA 82
– detmn. of – in water by tertiary spectrometry, X-ray fluorescence 557
Emulgen 911
– sepn. of nonionic detergent – from microsomes by HPLC 85
Enfleurage chromatography
– , a new technique for ident. of volatile compounds in small sample of plants 566
β-Endorphins
– detmn. of enkephalinss – and small peptides in tissues by HPLC/electrochem. detection 89
Enkephalins
– detmn. of –, β-endorphins and small peptides in tissues by HPLC/electrochem. detection 89
– sepn. of hormones and – by HPLC with ternary solvents 89
– solid-phase radioimmunoassay for – with Staphylococcus aureus 89
Enrichment techniques
– for inorganic trace analysis, book 533
Environmental chemistry
– anal. techniques in –, book 533
Environmental samples
– detmn. of heavy metals in –, passive sampler 78
– detmn. of selenium, arsenic and mercury in – by AFS 382
Environmental substances
– study of toxicity of – by electrophoresis 382
Enzymatic analysis
– detmn. of hydrocarbons by –, part. automated 283
– methods of –, vol. II, samples, reagents, assessment of results, book 454
– using UV/VIS spectroscopy 482
Enzymatic solutions
– detmn. of phosphate in – by spectrophotometry 166
Enzyme, angiotensin-converting
– detmn. of – in blood and tissues by HPLC 91
Enzyme electrode
– based on immobilized choline esterase 569
– detmn. of L-lactate and lactate dehydrogenase with immobilized – 92
Enzymes
– detmn. of – by ion-selective electrodes, after Mg^{2+} and Cu^{2+} binding 482
Enzymes, bioluminescent
– detmn. of adenosine triphosphate, NADH and bile acids based on immobilized – and photographic detection 569
Enzymes, cellulolytic
– anal. of – by medium pressure LC 482
Ephedrine
– detmn. of – via formation of metal complexes 567
Ephidrine
– sepn. of – and pseudoephedrine enantiomers by HPLC, as Ni dithiocarbamate complexes 162
Epinephrine
– detmn. of –, norepinephrine and dopamine in urine by HPLC 95
– sepn. and detmn. of –, norepinephrine and dopamine by chromatography on diphenyl thin layers 567
Eriochromcyanine R
– complex formation of some elements with – 60
Erythromycins
– detmn. of – A and B in fermentation broth by HPLC 163
Essential oils
– anal. of – by HPLC 249
– anal. of – by microdistillation/capillary GC 566
– detmn. of – in inclusion complexes with cyclodextrin by GC 566
– sepn. of saturated from unsaturated components in – 160
CĪ-Esterase
– detmn. of – inhibitor activity in blood plasma with new substrate 483
Esterases
– detection of pyrethroid-hydrolizing – by enzymatic anal. 176
Estradiol
– detmn. of estrone, – and estriol in blood serum as methylether acetates by GC/EI-MS 174
Estradiol 17-sulfate 2-hydroxylase
– detmn. of – by HPLC 484
Estriol
– detmn. of estrone, estradiol and – in blood serum as methylether acetates by GC/EI-MS 174
– sepn. of ^{125}I-labelled – and estriol-6-(O-carboxymethyl)oxime tyrosine methyl ester by adsorption chromatography 174

Estriol-6-(O-carboxymethyl)oxime tyrosine methyl ester
– sepn. of ^{125}I-labelled estriol and – by adsorption chromatography 174
Estrone
– detmn. of –, estradiol and estriol in blood serum as methylether acetates by GC/EI-MS 174
Ethanol
– as volatile stationary phase conditioner in chromatography, gas 136
– detmn. of – in liqueurs and alcoholic dairy products with density meter 82
– detmn. of – in wine by GC 81
– detmn. of water in – and acetone by direct injection enthalpimetry 470
– detmn. of water in – and moist air by GC 470
– measurement of – or NAD in acid extracts of biological materials by enzymatic method 166
Ethers
– sepn. of cyclic – and ketones by chromatography, gas, on graphitized carbon black 136
Ethopabate
– detmn. of – in chicken tissue by HPLC with fluorimetric detection 562
Ethoxyquin
– detmn. of – in milk by HPLC with fluorescence detection 84
Ethylbenzamides
– sepn. of N–– by reversed-phase LC 142
Ethyleneglycoldinitrate
– detmn. of – and diethyleneglycoldinitrate by IR spectrometry 548
Ethyleneoxide
– detmn. of – in air as ethylenechlorohydrine by GC 377
2-Ethyl-3-oxohexanoic acid
– detection of – and 4-heptanone in blood serum and urine by GC 572
Etodolac
– detmn. of – in blood serum by HPLC 93
Europium
– synergistic extr. of – and gadolinium from a molten eutectic 543
Exhaust gases
– detmn. of formaldehyde, acetaldehyde, benzaldehyde and acrolein in automobile – by HPLC 377
– detmn. of formaldehyde and aldehydes in – by HPLC as fluorescent azine derivatives 77
Explosives
– anal. of – by HPLC/MS 149
Extraction
– of metal complexes with macrocyclic tetraaza ligands and xanthene dyes 542
– sepn. of metal ions by – as 5-(4-dodecylphenyl-azo)-8-hydroxyquinoline chelates 460
– sepn. of sodium, potassium, rubidium, thallium and silver by – with β-diketones in MIBK 62

F

Fats
– detmn. of aflatoxin B_1 in oils and – by TLC 478
– detmn. of tocopherols and sterols in – and oils by capillary GC 82
– sepn. of triglycerides in – and olive oil by TLC 476
Fatty acid derivatives
– detmn. of hydrocarbons, –, cholesterol esters, wax esters, triglycerides in beeswax by GLC 410
Fatty acids
– anal. of – in bacteria by GC 167
– anal. of – in lipids of milk fat by capillary GC 476
Fatty acids
– anal. of – methyl ester mixtures by capillary GC 138
– detection of volatile – in chromatography, HPLC, by capillary electrokinetic detector 138
– detmn. of – by GC, comparison of extr. and methylation methods 548
– detmn. of free – in oils, vegetable by GLC 82
– detmn. of – in algae by capillary GC/MS 155
– detmn. of – in seed oils by GC and HPLC 475
– detmn. of – in soap products and detergents by capillary GC 473
– electrokinetic detection of volatile – in reversed-phase HPLC 139
Fatty alcohols
– anal. of sulfatization products of secondary – by LC 137
Feed premixes
– control of dusting potential of – 522
Feeds
– detmn. of 2-acetylaminofluorene in laboratory – by HPLC 156
– detmn. of halofunginone hydrobromide in medicated animal – 562
– detmn. of nitrite in animal – by spectrophotometry or potentiometry 156
– detmn. of tylosin in – by HPLC 562
– detmn. of vitamin A in –, effects of grinding and storage 156
Felypressin
– cathodic stripping voltammetry of – 565
Fenflumizole
– detmn. of – in biological fluids by reversed-phase HPLC 384
Fenitrothion
– detmn. of warfarin, sulfaquinoxaline and – in rodenticides by HPLC 159
Fenquizone
– detmn. of – in biological materials by GLC 96
Fenthion
– detection of –, disulphoton and phorate by TLC 158
Fentiazac
– detmn. of – and p-hydroxyfentiazac in blood plasma by HPLC/UV detection 578
Fermentation broth
– detmn. of erythromycins A and B in – by HPLC 163
– detmn. of penicillins in – by HPLC 163
Ferrocenophanes
– sepn. of – and ruthenocenophanes by TLC 137
Ferroin
– detmn. of thallium with – or diethyldithio-carbamate by reverse isotope dilution anal. 66
Ferroin-type ligands
– adsorption of – and metal chelates on carbon, activated 60
Ferrous metallurgy
– spectrometry of standard materials of – 360
Fertilizers
– detmn. of potassium oxide in – by flame photometry 153
– detmn. of sodium in – by AAS 153
Fibres
– ident. of – and fibre blends by pyrolysis GC 148
Fibrinogen
– anal. of peptides released from – by HPLC 574
Field-flow fractionation
– , sedimentation-flotation focusing, theory and new channel 364
Filament hygrometer
– detmn. of water in foods by – 81
Fire assay
– detmn. of noble metals in lead beads by AAS after – 70
First-order decay
– detmn. of parameters of – with a nonzero end point and unequal time intervals 365
Fish
– acid-extr. of cadmium from – eggs or tissues 473
– detection of dioxins, dibenzofurans and biphenyls in –, enzyme induction test 83
– detmn. of choline and betaine in some – materials, simultaneous 477
– detmn. of dimethylamine and trimethylamine in – by GC 83
– detmn. of mercury in – by GC/ECD 83
– ident. of – species by immunologicasl tests and electrofocussing 83
Fish test
– in water on the basis of the avoidance reaction 559
Fission product elements
– sepn. of radionuclides from – by adsorption on diethyleneglycol succinate 376
Fission products
– detmn. of metallic impurities and rare earths in nuclear solutions and – by flameless AAS 376
Flavin-adenine-dinucleotide
– detmn. of – in tissues, animal and bacteria by luminometric anal. 481
Flavin nucleotides
– detmn. of – by HPLC 481
Flavonoids
– detmn. of – in plants by HPLC 561
– zirconium(IV) and antimony(III) for structural investigation of – by spectrophotometry 143
Flotation
– enrichment of scandian traces by froth – 19
Flow-injection analysis
– detmn. of lead, bismuth, antimony and silver in steel by flame spectrometry, atomic absorption/– 71
– detmn. of mercury by –/spectrometry, atomic fluorescence 455
– detmn. of phosphate by –, optimization procedures 371
– detmn. of trace metals by spectrophotometry, – 59
– optimum composition of pH-sensitive acceptor solutions for membrane sepn. in – 364
– potential scanning voltammetric detection for – 59
– speciation of metals by – 59
Flow-through detection
– oscillometric flow cell for – 364
Flubendazole
– detmn. of mebendazole and – by fluorimetry 161
Fluorene
– sepn. of –, nitrofluorenes and nitrofluoren-9-ones by TLC 141
Fluoride
– anal. of –-containing organic extracts 59
– anal. of – in geothermal geopressed brines 468
– detmn. of – by electrodes, ion-selective, at low conc. 69
– detmn. of – by two-phase titration with triphenyltinchloride, X-ray fluorescence endpoint 546
– detmn. of oxalate, citrate and – by indirect spectrophotometry 549
– effect of polishing the –-selective electrode, electrodes, ion-selective on the response time and sensitivity 546
Fluorimetry
– detmn. of uranium in aqueous samples by –, pulsed-source fluorescence spectrometer 370

Fluorine
– anal. of – in geological materials with ion chromatographic detection 552
– detmn. of –, chlorine, bromine and iodine by ion chromatography with electrochem. or conductometric detection 69
– detmn. of – in blood serum by automated spectrometry, molecular absorption 571
– detmn. of nitrogen, oxygen, –, phosphorus, sulfur and chlorine in aluminum alloys by NAA 73
– solubility data series (IUPAG), sulfur dioxide, chlorine, – and chlorine oxides 50
Fluoroacetic acid
– detmn. of traces of – in plants by GC/MS 561
Fluorograms
– detmn. of proteins on autoradiograms or – by spectrophotometry of eluted Ag 574
3-Fluorotyrosine
– detmn. of – substitution in proteins by HPLC 170
5-Fluorouracil
– detmn. of – and 5,6-dihydrofluorouracil in blood plasma by GC 579
Fluphenazine
– detmn. of – in blood plasma by HPTLC 95
Flurazepam
– detmn. of – in urine by TLC, improved screening 95
Fly ashes
– detmn. of sulfur in – and fuel oils standards by radiochem. NAA 377
Folate cofactor
– anal. of – in tissues by HPLC 173
Foods
– anal. of carbohydrates in – 220
– anal. of dyes for – by HPLC 83
– clean-up of pesticides in – by gel-permeation chromatography 478
– detection of staphylococal thermonuclease and coagulase in – by enzymatic anal. 478
– detmn. of acetonitrile in – by head-space GLC with NPD, from packings 84
– detmn. of biphenyls, polychlorinated in – by Clevenger method/GC 564
– detmn. of mycotoxin T2 in – by GC 84
– detmn. of nitrite and nitrate in – by chromatographic methods 428
– detmn. of pesticides in – by automated capillary GC 157
– detmn. of pesticides in – by automated GC 563
– detmn. of pesticides in – by capillary GC 478
– detmn. of pesticides in – by two-dimensional capillary GC 563
– detmn. of pesticides in plant materials, – 83
– detmn. of pheophorbide a, pyropheophorbide a and phytol in – by GC and TLC 477
– detmn. of selenium in – by AAS, testing of two methods 474
– detmn. of sugar alcohols in – by HPLC with UV detection 475
– detmn. of thiabendazole in – by TLC/GLC 276
– detmn. of thiamine in – as thiochrome by fluorimetry 477
– detmn. of vitamin K_1 in – by reversed-phase HPLC 477
– detmn. of vitamins in – by HPLC 287
– detmn. of water in – by filament hygrometer 81
– sampling and investigation of –, tobacco, cosmetics, official collection 130
– sepn. of mirex from biphenyls, polychlorinated in – by GC 564
Forage
– metrological aspects of agrochemical analysis, routine anal. of – 562
Forensic science
– , past, present, future 97
Formaldehyde
– detmn. of –, acetaldehyde, benzaldehyde and acrolein in automobile exhaust gases by HPLC 377
– detmn. of –, aldehydes in oxidized glycol systems by spectrophotometry 166
– detmn. of – and aldehydes in exhaust gases by HPLC as fluorescent azine derivatives 77
– detmn. of – in air by GC 377
– detmn. of – in air with pararosaniline by spectrophotometry, temperature dependence 77
– detmn. of – with enzyme-coated piezoelectric crystal detector 138
Formate
– anal. of – in solutions containing phosphate, biological fluids by colorimetry 87
– NMR spectrometry of phase-transfer catalysts, – selective extr. constants 145
Formic acid
– detmn. of monosaccharides in polysaccharides as – by HPLC 475
Fossil fuels
– charact. of – by pyrolysis-GC-MS 443
– charact. of – by pyrolysis-GC-MS 444
– charact. of – by pyrolysis-GC-MS 445
Francium
– Gmelin handbook, – 129
Fructose
– detmn. of sucrose, glucose and – in plant materials by HPLC 154
Fruits
– detmn. of alternaria mycotoxins, altenuene, alternariol in – and vegetables by GC/MS 419
– detmn. of ascorbic acid in – and pharmaceutical products by titration with thallium(III) 477
– detmn. of carbamates, insecticides in – and vegetables by capillary GC 157
Fuel oils
– detmn. of nickel in – by spectrometry, atomic absorption using emulsions 145
– detmn. of sulfur in fly ashes and – standards by radiochem. NAA 377
Fuels
– detmn. of malthene and asphaltene in bitumen, heavy oils and synthetic – by pyrolysis TLC 469

G

Gadolinium
– detmn. of – and dysprosium in binary mixtures by differential spectrophotometry 66
– synergistic extr. of europium and – from a molten eutectic 543
Galanthamine
– detmn. of – in biological fluids by HPLC 387
Gallic acids
– anal. of – in tannic acids by HPLC 143
Gallium
– complex formation and extr. of copper, iron and – with long-chain alkylquinolin-8-ols 542
– complex formation of aluminum, – and indium with Sulfarsazene 65
– detmn. of – after solvent extr. of its chloro-complex by spectrophotometry 66
– detmn. of – in aluminum with 2,4-dihydroxy-benzaldehyde-semicarbazone by fluorimetry 71
– detmn. of – with 2,2′-dihydroxy-4,4′-dimethyl-azobenzene by fluorimetry 543
Gallium-gadolinium garnets
– detmn. of zirconium in – by spectrophotometry 553
Gallocyanine
– detmn. of vanadium (III and IV) with – by amperometry 371
Galvanic electrolytes
– detmn. of polyfluoroalkylphosphoric acid in – by spectrophotometry as P-Mo-blue 469
– detmn. of silver cyanide and thiocyanate in – by ion-selective electrodes 469
Galvanic solid-state sensor
– monitoring of iodine, ozone and nitrogen dioxide with – 59
Gangliosides
– quantitation of – by TLC/scanning densitometry 172
Gases
– anal. of hydrocarbons in inert and natural – by GC 378
– anal. of minor – in air by spectrometry, IR and laser 555
– volume measurement of flowing –, book 534
Gasoline
– detmn. of benzo(a)pyrene in – and light oil by HPLC 77
Gas sensor
– detmn. of carbon dioxide by a – probe 58
– polymer-membrane pH electrodes as internal elements for potentiometric – 363
– theoretical predictions on the response properties of potentiometric – 58
Gentamicin
– detmn. of – in ophthalmic drops by TLC and HPLC 239
– microbiolog. assay of –, streptomycin and neomycin by potentiometry, with CO_2 gas-sensing electrode 163
Gentisamide
– detmn. of salicylamide, – and metabolites in biological fluids by HPLC 383
Geological materials
– anal. of fluorine in – with ion chromatographic detection 552
– detmn. of arsenic in – by X-ray fluorescence spectrometry 151
– detmn. of bismuth in – by automated hydride generation AAS 552
– detmn. of boron, beryllium and lithium in coal ash and – by optical emission spectrometry 144
– detmn. of high-levels of arsenic in – by AAS 151
– detmn. of selenium in marine – by fluorimetry 152
– detmn. of silver, tellurium and palladium in – by MS isotope dilution 150
– detmn. of tin in – by EAAS 552
– detmn. of tin in – by spectrometry, X-ray fluorescence 151
– detmn. of trace elements in – by flameless AAS 551
– detmn. of tungsten in – with dithiol by spectrophotometry 152
– quant. isolation of lanthanides from – 551
Germanium
– sepn. of – from accompanying elements by PC 67
Germanium tetrachloride
– detmn. of trace elements in high purity – by spark source-MS 402
Glass
– detmn. of silver and halides in – by potentiometric titration 76
– microscale homogeneity and compositional profiling of borosilicate glass, – 75
Glass electrode
– simult. detmn. of – parameters and protonation constants 57
– simult. detmn. of – parameters and protonation constants 58
Glassy carbon electrodes
– leak-tight – for electrochemical detection in chromatography, liquid 133

Glaucarubin
– detmn. of – and glaucarubinon in plant materials by HPLC 154
Glaucarubinon
– detmn. of glaucarubin and – in plant materials by HPLC 154
Glucagon
– anal. of iodine-labelled – derivatives by HPLC 164
Glucaric acid
– detmn. of – in urine by HPLC 575
– detmn. of – in urine by enzymatic anal. at low pH 167
Glucose
– detmn. of – and glucosinolate in plant materials by polarography 560
– detmn. of – and sucrose using an invertase reactor with a glucose oxidase electrode 474
– detmn. of – by enzymatic flow enthalpimetry 549
– detmn. of sucrose, – and fructose in plant materials by HPLC 154
– measurement of – enrichment in blood serum using isotope dilution MS 87
– study of hydroxyl-coupled α- and β-D-– by NMR 140
Glucosinolate
– detmn. of glucose and – in plant materials by polarography 560
Glucuronides
– detmn. of – by chromatography, HPLC/mass spectrometry with thermospray ionization interface 54
Glutathione
– regioselectivity in the chemical and enzymatic reactions between – and phenylglycidyl ethers 85
Glutathione adducts
– sepn. of diastereomeric – of arene oxides by HPLC 556
– sepn. of diastereomeric – of styrene oxide by HPLC 85
Glutathione peroxidase
– detmn. of –, glutathione S-transferase and glutathione reductase by centrifugal anal. with Centrifichem 484
Glutathione reductase
– detmn. of glutathione peroxidase, glutathione S-transferase and – by centrifugal anal. with Centrifichem 484
Glutathione S-transferase
– detmn. of glutathione peroxidase, – and glutathione reductase by centrifugal anal. with Centrifichem 484
Glycerides
– anal. of sucrose esters in – by GC 474
Glycerol
– detmn. of – in blood plasma by enzymatic fluorimetry 571
Glycoalkaloids
– detmn. of solamargine, solasonine, – in plant extracts by HPLC 165
Glycoproteins
– detection of – in concanavalin A-fluorescein isothiocyanate stained gels by laser fluorimetry 576
Glycosides
– sepn. of monosaccharides and neutral aromatic – from aqueous solutions by LC 608
Glyphosate
– detmn. of – by HPLC 157
Gmelin handbook
– , electronic spectra of manganese halides 129
– , francium 129
– , lanthanoides, yttrium, minerals, excluding silicates 358
– , rare earth elements (sulfides, oxide sulfides, alkali thiometallates) 50
Gmelin handbook
– , scandium, yttrium, rare earth elements, ion exchange and solvent extr., organometallic compounds 454
– , tellurium 50
– , uranium, compounds with C and Si 533
Gold
– accuracy of detmn. of – in coarse-detrital rocks 150
– detmn. of – and thallium using solvent extr. 366
– detmn. of –, comparison of some AAS techniques 63
– detmn. of – in silicate rocks and ores by coprecipitation with tellurium and neutron activation 150
– detmn. of – in tissues and blood by cold ashing/AAS 86
– extr. of – and mercury from sea water with bismuth diethyldithiocarbamate prior to NAA 380
– recovery of – from alkaline cyanide media 76
Gold(III)
– detmn. of – traces by kinetic fluorimetry using catalytic autoxidation 542
– extr. of – from nitric acid medium 542
Gold electrodes
– detmn. of copper, lead and cadmium on – by anodic stripping voltammetry 542
Gradient optimization
– sepn. of influenza virus components by reversed-phase HPLC, – 90
Grains
– detmn. of uric acid in – and cereals by HPLC 475
Graphite
– detmn. of trace elements in – by spectrometry, ICP-AES, chelating resin preconc. 74
[Guanidino-^{15}N]arginine
– detmn. of nitrogen-15 in – by GC/MS 86
Guanidino compounds
– sepn. of – as benzoin derivatives by HPLC 479
Gum arabic
– refinement of structures for – and other Acacia gum exudates 148

H

Hafnium
– detmn. of zirconium and – with PAR by spectrophotometry 370
– sepn. of titanium, zirconium and – as pentamethylcyclopentadienyl dichlorides by HPLC 68
Hair
– detmn. of aluminum, copper and zinc in human – by AAS 86
– detmn. of quinine in – by reversed-phase HPLC 567
Halides
– detmn. of silver and – in glass by potentiometric titration 76
Halofuginone
– detmn. of – hydrobromide in medicated animal feeds 562
Halogenopropyl esters
– sepn. of – of aliphatic carboxylic acids by GC 548
Halogenorgano compounds
– detmn. of – and sulfurorgano compounds in water by group parameters 560
Halogens
– detmn. of – in organic compounds by ion chromatography, after sodium fusion 137
Hazardous substances
– analytical methods for testing of – in biological materials, book 130
Hazardous substances
– tolerance values of – in biological materials, book 357
Heavy metals
– certification of – in sewage sludge 490
– certification of – in soils 588
– chromatography of xanthate complexes of – 278
– detmn. of – in airdust, new digestion procedure 495
– detmn. of – in commercial soft drinks by DPASV, automated 474
– detmn. of – in environmental samples, passive sampler 78
– detmn. of trace – in water by extr. ICP-AES 557
Heavy oils
– detmn. of malthene and asphaltene in bitumen, – and synthetic fuels by pyrolysis TLC 469
Heliflex Chirasil-Val
– sepn. of amino acid enantiomers by GC with – as liquid phase in capillary columns 139
Helium
– detmn. of argon, –, neon and hydrogen in powdered alloys 72
Hemin
– luminescent immunoassay for human serum albumin with – as labelling catalyst 574
Hemoglobins
– sepn. of tryptic peptides of – by reversed-phase HPLC 89
Heparin
– detmn. of – by lucigenin chemiluminescence 576
Heptacaine
– extr. of – from biological materials 578
Heptaminol
– detmn. of – in blood plasma and urine by HPLC 93
4-Heptanone
– detection of 2-ethyl-3-oxohexanoic acid and – in blood serum and urine by GC 572
Herbicides
– anal. of – in potatoes and carrots by chronopotentiometry 563
– detection of asulam, – in soils by TLC 158
– detmn. of chlorophenols in – by capillary-GC/FTIR-spectroscopy 103
– detmn. of – in water by GC/MS, chromatographic extr. for enrichment 157
– detmn. of – of dikuran and dozanex by GC 158
– detmn. of urea, carbamates and anilides, – by reversed-phase TLC 157
Herbs
– anal. of – and drugs by direct headspace GC 564
Heroin
– anal. of – samples by GC, comparison of capillary and packed columns 568
– detection of impurities in – by GC/ECD 568
– detmn. of – by means of the pitch of induced cholesteric mesophases 568
Hexosamines
– detmn. of – by HPLC, photometric and fluorimetric postcolumn labelling using 2-cyanoacetamide 171
– monitoring of – with 2,4-pentanedione/formaldehyde after HPLC sepn. 575
High-melting methods
– analytical methods, –, book 358
Histidine
– detmn. of – by selective chemiluminescence 139
– resin-bead test for – and spectrophotometric detmn. 549

Histones
– detmn. of – by electrophoresis, silver stain 575
Homocysteine
– electrochem. studies of – and homocystine at mercury electrodes 549
Homocystine
– electrochem. studies of homocysteine and – at mercury electrodes 549
Homovanillic acid
– detmn. of 3-methoxy-4-hydroxyphenylglycol, 5-hydroxyindoleacetic acid and – in cerebrospinal fluid by HPLC with electrochem. detection 168
Hormones
– measurements of free – 175
– sepn. of – and enkephalins by HPLC with ternary solvents 89
Human growth hormone
– sepn. of tryptic peptides of – by reversed-phase HPLC 89
Humic acids
– complexation of aluminum with – 558
– N-containing pyrolysis products and amino acid composition of – of soils 553
Hydralazine
– detmn. of – in pharmaceutical products by fluorescence 161
Hydrazines
– detmn. of – in urine by LC with electrochem. pretreated glassy carbon electrodes 86
– detmn. of thiols and – with electrogenerated iodine by coulometry 138
Hydrobenzene derivatives
– micellar mobile phase in chromatography, HPLC of – 142
Hydrobromic acid
– detmn. of hydrochloric acid and – by GC after derivatization with ethylene oxide 70
Hydrocarbons
– anal. of – in inert and natural gases by GC 378
– detmn. of – by enzymatic analysis, part. automated 283
– detmn. of –, fatty acid derivatives, cholesterol esters, wax esters, triglycerides in beeswax by GLC 410
– detmn. of high-boiling – in natural gas by capillary GC and MS 407
– detmn. of petroleum – in water und mussels 559
– detmn. of – via borate complexes by chromatography, ion-exchange 285
– sepn. of C_1–C_{10} – by chromatography, gas, Al_2O_3-coated capillary columns 538
– sepn. of – of shale oils by HPLC 470
– sepn. of phenyl-substituted and bicyclic – by GC on graphitized carbon black 141
– sepn. of tricyclic – by capillary GC on graphitized carbon black 141
Hydrocarbons, aromatic
– anal. of – by mass spectrometry, reactions in the source 362
Hydrocarbons, oxygenated
– detmn. of – in air by GC 556
Hydrocarbons, polycyclic aromatic
– anal. of – by GC on polysiloxane phases 141
– charge transfer TLC of nucleic acid bases and – 480
– detection of – in sediments by HPLC and Shpol'skii effect fluorimetry 153
– detmn. of – by chromatography, gas, interaction with stationary phases 539
– detmn. of – in airborne particulates, high temperature extr. and Shpol'skii spectrometry 378
– detmn. of – in airborne particulates by GC/MS, NICI 378
Hydrocarbons, polycyclic aromatic
– detmn. of – in airborne particulates by capillary GC with laser-induced fluorescence detection 556
– detmn. of – in air, sampling with membrane filters 378
– detmn. of – in diesel soot by microbore LC with electrochem. detection 145
– detmn. of – in DNA solutions 176
– detmn. of – in lake water by HPLC with fluorometric detection 382
– detmn. of – in urban air and coal fly ashes by GC 556
– residue reviews, –, methyl bromide, book 130
– sepn. of – by TLC, fluorescence enhancement with Fomblin Y-Vac 550
Hydrocarbons, polycyclic aromatic, nitrated
– detmn. of – in airborne particulates by capillary GC 160
– detmn. of – in Diesel particulate extracts by capillary GC/NPD 77
Hydrocarbons, volatile
– detmn. of biogenic – in plant emissions by GC/MS 560
Hydrochloric acid
– detmn. of aluminum chloride and – by differential potentiometry 75
– detmn. of – and hydrobromic acid by GC after derivatization with ethylene oxide 70
Hydrogen
– detmn. of argon, helium, neon and – in powdered alloys 72
– detmn. of – in steel by low-temperature extr. 71
Hydrogen cyanide
– detmn. of – in air by sampling on a solid sorbent 76
Hydrogen peroxide
– detmn. of – and hydroperoxides, organic by spectrophotometry in aqueous solution 366
– detmn. of – in cell systems, aerobic 165
– detmn. of –, MnO_2 column in the flow enthalpimetry 365
– detmn. of – with diphenylmethane-based derivatives, highly sensitive 62
Hydrogen sulfide
– adsorption of – and methyl sulfide on carbon, activated 78
– detection of – and dimethyl sulfide with ozone by chemiluminescence 69
Hydroperoxides, organic
– anal. of – by photometry using mixed-ligand complexes of cobalt(II) 470
– detmn. of hydrogen peroxide and – by spectrophotometry in aqueous solution 366
Hydroquinone
– detmn. of benzene, catechol and – in blood by GC 572
Hydrotopes
– detmn. of – in detergents by HPLC 149
Hydroxide
– detmn. of traces of water, – and oxide in metal halide salts by coulometric Karl Fischer titration 467
– detmn. of water and – in clay minerals by Erba-CHNO-analzator 347
3-Hydroxy acids
– enantiomer sepn. of amino acids, N-methyl-amino acids and – as isocyanates by GC 549
Hydroxybenzoic acids
– sepn. of benzoic acid, – and acetylsalicylic acid by RP ion-pair HPLC 142
6β-Hydroxycortisol
– detmn. of – in urine, index of enzyme induction 174
N-Hydroxy-N,N′-diarylbenzamidines
– detmn. of vanadium(V) in the presence of acetic acid or an azide by spectrophotometry – as selective extractants 372
6-Hydroxydopa
– detmn. of L-dopa, – and tyrosine by LC, with voltammetric detection 162
Hydroxyethyl starches
– detmn. of acetone in – by GC 160
5-Hydroxyindoleacetic acid
– detmn. of 3-methoxy-4-hydroxyphenylglycol, – and homovanillic acid in cerebrospinal fluid by HPLC with electrochem. detection 168
– detmn. of catecholamine metabolites and – in urine by capillary GC 573
Hydroxymandelic acid
– detmn. of vanillylmandelic acid and p— in urine by UV-spectrophotometry/generalized standard addition 87
Hydroxymethylfurfural
– detmn. of – in beer by HPLC 474
3′-Hydroxypentobarbital
– detmn. of – in blood serum by HPLC 385
Hydroxyphenytoin
– detmn. of – in urine by HPLC 386
Hydroxyproline
– assay of – in proteins by fluorimetry 170
L-Hydroxy-proline polystyrene sorbents
– sepn. of amino acid racemates by chromatography, ligand exchange on – 88
3-Hydroxy-4(1H)-pyridone
– detmn. of mimosine and – in blood plasma by HPLC 156
Hydroxyquinone
– detmn. of quinone and – by polarography as iodate 143
5-Hydroxytryptamine
– detmn. of catecholamines, octopamine, – in biological tissues by HPLC/coulometry 572
Hyfrane
– detmn. of tributylphosphate and – in solvents by HPLC 146
Hymecromon
– detmn. of – in blood plasma by HPLC 579
Hypobromite oxidation
– detmn. of nitrogen-15 by spectrometry, emission, after – 597
Hypochlorite
– studies of the reactions of phenylphenols with – in water by GC/MS 382
Hypoxanthine
– detmn. of – and xanthine in biological fluids by HPLC/enzyme reactors 384
– detmn. of uric acid, xanthine, –, allopurinol, oxipurinol, orotic acid, orotidine and creatinine in biological fluids by HPLC 175

I

Ice
– detmn. of common ions at ultratrace levels in Antarctic snow and – by ion chromatography 557
Ice-cream
– investigation of –, anal. methods, book 533
Ifosfamide
– anal. of – in blood plasma and urine by GC/ECD 387
Illicit products
– detection of LSD in – by fluorimetry, low-cost field fluorimeter 568
Imidazole acetic acid
– detmn. of – in tissues by enzymatic anal. 87
Imidazolines
– sepn. of fatty – from their diamide hydrolysis derivatives by HPLC 143
Imidazolinium
– structural anal. of – surfactants, cationic 472
Imides
– detmn. of pharmaceutically active amides and – by spectrophotometry 565

Imino acids
– detmn. of amino acids, – and thiols by LC post-column derivatization with 4-fluoro-7-nitrobenzo-2,1,3-oxadiazole 88
Iminodiacetic acid
– studies of the oxidation of – and nitrotriacetic acid 146
Immunoassay, microgravimetric
– with piezoelectric crystal 569
Immunoglobulin G
– quantitation of – and albumin by electro-immunodiffusion in presence of detergents 170
Immunology
– anal. foundation of quantitative – 479
Immunoreactor
– catalytic – for amperometric detmn. of human serum albumin 575
Indenolol
– detmn. of – hydrochloride in pharmaceutical products by HPLC 161
Indicators
– semicarbazones as acid-base – 61
Indicators, redox
– use of primaquine phosphate as – 461
Indium
– complex formation of aluminum, gallium and – with Sulfarsazene 65
– detmn. of – and thallium by hydride generation AAS 544
– detmn. of – in alloys with 2-(3,4-dihydroxy-phenylazo)-thiazole by spectrophotometry 375
– detmn. of – in aluminum alloys by AAS and AES 73
– sepn. of tin(IV) and – by extr. with Alamine-335 67
Indium(III)
– sepn. of – with mesityl oxide by extraction from salicylate solution 612
Indolealkylamines
– sepn. of – by LC 168
Indoleamines
– detmn. of catecholamines, –, amines, biogenic by automated HPLC 573
– sepn. of catecholamines and – in biological materials by HPLC 572
Indomethacin
– detmn. of – and metabolite in blood plasma and urine by GC 384
Industrial chemicals
– reproductive hazards of –, book 359
Influenza virus components
– sepn. of – by reversed-phase HPLC, gradient optimization 90
Infusion solutions
– quality control of – by TLC and HPLC 237
Inorganic materials
– detection of phosphorusorgano compounds in – by LC with post-column photodegradation 471
Inosine
– detmn. of – by polarography 480
Inosine 5′-monophosphate
– detmn. of – by enzymatic anal. 481
Insect hormones
– anal. of – by chromatography, HPLC with radial compression 175
Insecticides
– detmn. of carbamates, – in fruits and vegetables by capillary GC 157
Insect lures
– detmn. of aldehyde pheromones from – by bioluminescence 90
Insoluble matter
– detmn. of – in instant coffee 82
Insulins
– sepn. of – by HPLC 163
– sepn. of monoiodinated – by reversed-phase HPLC 164
Interface
– for coupling personal computers with analytical instruments 509
Iodate
– detmn. of – by fluorimetry 70
Iodic acid
– ident. of drugs with – after TLC 565
Iodide
– detmn. of – in conc. chloride solution by spectrophotometric titration 70
Iodine
– detmn. of fluorine, chlorine, bromine and – by ion chromatography with electrochem. or conductometric detection 69
– detmn. of – in rice by neutron activation anal. 474
– monitoring of –, ozone and nitrogen dioxide with galvanic solid-state sensor 59
Iodine compounds
– electrogeneration of – in acetic acid for coulometry 57
Ion-exchange
– coulometric generation of reagents for use in –, book 129
Ion-exchangers
– analytical applications of Zr(IV) and Ti(IV) arsenophosphates as – 131
– sepn. of anions, inorganic and organic acids on silica-based – by chromatography, ion 456
– sepn. of metals on stannic arsenoantimonate as – 131
– sepn. of proteins and nucleic acids on –, TSK-gel IEX-645 DEAE 89
– studies on the lanthanum arsenate – 535
– study of TSK-Gel CM-Toyopearl 650, – for chromatography, liquid 131
– use of hydrous antimony sulfide as adsorbent – 131
Ionic solutes
– chromatography, effect of eluent electrolyte on the behavior of – on polyacrylamide gels 458
Ions
– chromatography, ion-pair of – on Lichrosorb RP-18 54
Ion-transfer
– across water/organic phase boundaries 364
Iridium
– detmn. of osmium, ruthenium and – traces by chemiluminescence 376
Iron
– complex formation and extr. of copper, – and gallium with long-chain alkylquinolin-8-ols 542
– detmn. of – and aluminum in alloys and silicate rocks, ion-exchange sepn. on zirconium(IV) phospho and silico arsenates 73
– detmn. of – and copper by spectrophotometry, new reagents 462
– detmn. of copper, zinc, manganese and – in waste water by stripping voltammetry 557
– detmn. of – in bronzes with pyrocatechol-3,5-disulfonic acid or acetylacetone by spectrophotometry 466
– detmn. of – in lubricating oils by AAS 145
– detmn. of – in ores and alloys by spectrophotometry, new reagents 462
– detmn. of – in ores by complexometry 152
– detmn. of nickel in presence of excess – by spectrophotometry 463
– detmn. of –, sulfate, silver and cadmium by flow-injection anal. 462
– detmn. of – with 1-phenyl-3-thiobenzoyl thiocarbamide by extr. spectrophotometry 462
– detmn. of – with 2,2′-dipyridyl-2-benzo-thiazolylhydrazone by spectrophotometry 461
– detmn. of – with thioglycolic acid by spectrophotometry 462
Iron
– detmn. (simult.) of – and titanium in silicate rocks with dual-wavelength spectrophotometry 152
– study of 2-(picolyliminomethyl)phenol and its complexes with – (II) and (III) 462
Iron(II)
– detmn. of – by flow-injection anal./spectrophotometry, new reagents 462
– detmn. of traces of copper(II), – and cadmium by colorimetry 64
– detmn. of – with 2,2′-dipyridylketone amino-ethylimine by spectrophotometry 461
Iron(III)
– detmn. of copper(II) and – by spectrophotometry as the azide complexes 367
– detmn. of – traces in tungsten by catalytic polarography, use of peroxodisulfate 71
– detmn. of – using the reaction of 1,2-phenylenediamine oxidation by fluorimetry 462
– detmn. of vanadium(V) and – by kinetic potentiometric method 372
Iron-manganese nodules
– detmn. of copper, nickel, cobalt and zinc in – by atomic fluorescence 152
Iron pentacarbonyl
– sepn. of alkyl phosphite derivatives of – by HPLC 137
Iron(II)-thiocyanate complexes
– study of –, effect of polyethylene on coloration 462
Isocyanates
– anal. of amines and – in air by capillary GC 77
– enantiomer sepn. of amino acids, N-methyl-amino acids and 3-hydroxy acids as – by GC 549
Isocyanates, aromatic
– detmn. of – and amines, carcinogenic in air by reversed-phase HPLC 77
Isoelectric focusing
– , immobilized pH gradients in presence of urea and neutral detergents 363
Isolectins
– sepn. of – from tomatoes by chromatofocusing 475
Isoprenoid alcohols
– anal. of enantiomeric – by GC 143
Isosorbide nitrates
– detmn. of – in pharmaceutical products by HPLC 162
Isotachophoresis
– sepn. of biological fluids by –/HPLC 85
Isothiazolones
– ident. of microbicidal – by GC/MS 414
Isotope composition
– detmn. of – in protic solvents by spectrometry, NMR, ^{59}Co 61
Isotope ratios
– detmn. of nitrogen – ^{14}N:^{15}N by OES 68

K

Kallikrein
– sepn. of – in urine by HPLC with enzyme detector 176
Kalman filter
– for calibration and quality control in drifting systems 461
Keratin proteins
– radiolabelling of –, proteins by amidiniation 171
Ketanserin
– detmn. of – and metabolite in blood plasma by HPLC 385
2-Keto-3-deoxyoctanat
– detection of –, 2-deoxysugars, acetyl-neuraminic acid, N- on chromatograms and pherograms 171

Ketones
– sepn. of cyclic ethers and – by chromatography, gas, on graphitized carbon black 136
6-Keto-prostaglandin $F_1\alpha$
– sepn. of prostaglandins, thromboxanes, –, arachidonic acid metabolites in biological materials by TLC 172
Δ^4-3-Ketosteroids
– detmn. of – in drug base substances by circular spectroscopy dichroism 528
Khimduchlorophosphonazo-I
– detmn. of magnesium with – by spectrophotometry 505
Kinetic-catalytic methods
– detmn. of organic substances by –, review 547
Kinetic spectroscopy
– in analytical chemistry, review 361

L

Labelled compounds
– synthesis and applications of isotopically –, book 454
Laccase
– detmn. of – by HPLC 484
Lacinilene c 7-methyl ether
– detmn. of – in cotton plant materials by HPLC 155
Lactate
– detmn. of L– and lactate dehydrogenase with immobilized enzyme electrode 92
Lactate dehydrogenase
– detmn. of L-lactate and – with immobilized enzyme electrode 92
Lactate electrode
– with lactate oxidase for blood serum samples in flow systems 569
Lactate oxidase
– lactate electrode with – for blood serum samples in flow systems 569
Lanthanide oxides
– detmn. of cerium in – and yttrium by inverse voltammetry 369
– group preconcentration before AES of high-purity – 74
Lanthanides
– coprecipitation of – with strontium sulfate in the presence of potassium 369
– detmn. of – by extr.-spectrophotometry 65
– detmn. of – in bauxite by neutron activation anal. 151
– detmn. of – in the presence of each other by PMR spectrometry 66
– detmn. of –, niobium, zirconium, tantalum in alkaline rocks by spectrophotometry 151
– detmn. of terbium in solutions containing other – by fluorimetry 66
– influence of buffers on the spectral line intensity for –, niobium, zirconium and refractory elements using blowing-in-arc technique 151
– quant. isolation of – from geological materials 551
– solvent extr. and sepn. of thorium(IV) from – 543
– solvent extr. of – with crown ethers 369
– studies of some – by reversed-phase PC 369
Lanthanoides
– detmn. of – by X-ray fluorescence analysis 604
– Gmelin handbook, –, yttrium, minerals, excluding silicates 358
– sepn. of – by TLC/HPLC 198
Lanthanum
– detmn. of – and cerium in low-alloy metals by spectrophotometry, polymetallic complexes 375
– detmn. of – and cerium in nodular cast iron by wavelength-dispersive X-ray fluorescence spectrometry 466
Lanthanum
– detmn. of – and cerium with alizarin red-S by amperometric titration 369
Lanthanum arsenate
– studies on the – ion-exchangers 535
Laser ionization
– dual – processes in flames 361
Lead
– complex compounds of metals with O,O-dialkyl-S-thiocarbamoyl dithiophosphates for detmn. of – and copper by extr.-polarography 67
– detmn. of – and cadmium in ceramics, comparison of two hot leach methods 76
– detmn. of – and nickel in biological tissues by EAAS 570
– detmn. of – and trimethyllead(IV) in water by differential pulse polarography 381
– detmn. of – and zinc in sea water by extr.-AAS 80
– detmn. of –, bismuth, antimony and silver in steel by flame spectrometry, atomic absorption/flow-injection analysis 71
– detmn. of cadmium and – in natural water by EAAS 434
– detmn. of cadmium, cobalt, copper, –, mercury and nickel in zinc sulfate plant electrolyte by LC 469
– detmn. of cobalt, copper, nickel, – and zinc in rocks by solvent extr. and AAS 152
– detmn. of copper, – and cadmium on gold electrodes by anodic stripping voltammetry 542
– detmn. of – in blood by discrete nebulisation flame AAS 166
– detmn. of – in plant ash by X-ray fluorescence spectrometry 153
– detmn. of – in potable water by AAS with matrix modification 558
– detmn. of – in potable water by spectrometry, atomic absorption, electrothermal with La matrix modification 80
– detmn. of – in sea water by graphite furnace AAS/electrolytic preconcentration 381
– detmn. of – in semiconductors with iodide and malachite green by extr. spectrophotometry 468
– detmn. of – in titanium dioxide by anodic stripping voltammetry 75
– detmn. of microamounts of silver, – and copper(II) by peak PC 366
– detmn. of organic – in air, review 78
– detmn. of thallium in cadmium and – by graphite furnace AAS with platform 71
– digestion methods for detmn. of cadmium and – in organic and silica-rich sediments 151
– encumbrance of man, book 359
– extr. from natural water 79
– in situ gaseous pre-treatment of liver extracts in spectrometry, atomic absorption of cadmium and – 165
– preconcentration of – from tap water 79
Lead dioxide electrode
– detector, electrochemical flow-through with – 364
Lead salts
– detmn. of thallium in – by DPASV 468
Light oil
– detmn. of benzo(a)pyrene in gasoline and – by HPLC 77
Lignin chemicals
– improved inflection points in the non-aqueous potentiometric titration of acid functionalities in – 148
Lignins
– detmn. of molecular weight of – by size exclusion chromatography 155
Limettin
– isolation of bergapten and – from bergamot oil 566
Limit of determination
– statistical definition of – 293
Linoleic acid diols
– anal. of –, α-linolenic acid diols and arachidonic acid diols as boronic esters by GC/MS 172
α-Linolenic acid diols
– anal. of linoleic acid diols, – and arachidonic acid diols as boronic esters by GC/MS 172
Lipase
– conductimetric assay of a bacterial –, using triacetin as substrate 92
Lipid peroxidation products
– detmn. of – in vivo by HPLC and GC/MS 172
Lipids
– anal. of fatty acids in – of milk fat by capillary GC 476
– anal. of – in marine sediments by HPLC and GC 554
– anal. of – in oils by capillary GC 476
– detmn. of – and phospholipids by TLC, plates and detection reagents 172
– detmn. of – in blood serum by IR spectrometry, least-squares regression anal. 90
– detmn. of neutral and polar – in beef by solvent extr./GLC 82
– sepn. of – of human milk by capillary GC 576
Liposome preparations
– detmn. of detergents in – by bubble-pressure method 569
Liqueurs
– detmn. of ethanol in – and alcoholic dairy products with density meter 82
Lithium
– detmn. of boron, beryllium and – in coal ash and geological materials by optical emission spectrometry 144
– detmn. of metallic – in lithium hydride by coulometry 62
Lithium hydride
– detmn. of metallic lithium in – by coulometry 62
Liver
– detmn. of copper, zinc, cadmium and manganese in blood serum and – tissue 570
Liver microsomes
– sepn. of aminopyrine and metabolites in – by HPLC 93
LSD
– detection of – in illicit products by fluorimetry, low-cost field fluorimeter 568
Lubricating oils
– detmn. of iron in – by AAS 145
Luminescence spectrometry
– relative fluorescence quantum yields using a computer-controlled – 361
Lycopene
– detmn. of –, carotene and retinyl esters in blood serum by reversed-phase HPLC 172
Lycorine
– anal. of – in plants by reversed-phase HPLC 561
Lysozyme
– detmn. of – in blood serum and urine by turbidimetry 484

M

Magnesium
– detmn. of – by photometry using CMAS oxin 367
– detmn. of calcium and – in soils by spectrophotometry 153
– detmn. of calcium and – in the presence of Mn and Fe by complexometry 542

Magnesium
– detmn. of – in common salt by complexometry 473
– detmn. of – traces with 5,7-diiodoquinolin-8-ol by spectrophotometry 64
– detmn. of – with khimduchlorophosphonazo-I by spectrophotometry 505
– sepn. of aluminum and – in antacid drugs by LC 160
Magnesium alloys
– detmn. of zinc in – with 7(2-thiazolylazo)-8-hydroxyquinoline-5-sulfonic acid by spectrophotometry 374
Magnesium compounds
– detmn. of trace metals in – by differential pulse polarography 467
Magnetic powders
– detmn. of stearate and oleate in – by potentiometry 467
Malachite green
– detmn. of antimony(III) by solvent extr. with mandelic acid and –, spectrophotometry 371
Maleic imides
– anal. of N-alkyl substituted – by GC 146
Maleonitriledithiol
– detmn. of palladium(II) and platinum(II) with – by reversed-phase ion-pair chromatography/spectrophotometry 465
Maleonitrile dithiolate
– detmn. of cobalt(II) with – by spectrophotometry 463
Malonic acid
– estim. of – by thallimetric oxidation 549
Malthene
– detmn. of – and asphaltene in bitumen, heavy oils and synthetic fuels by pyrolysis TLC 469
Malto-oligosaccharides
– sepn. of – by LC, influence of mutarotation catalysts 140
Mandelic acid
– detmn. of antimony(III) by solvent extr. with – and malachite green, spectrophotometry 371
Manganese
– detmn. of – at ng/ml levels in natural water by differential pulse polarography 80
– detmn. of – by amperometric titration 373
– detmn. of – by catalytic colorimetry 373
– detmn. of – by fluorimetry based on its catalytic effect 547
– detmn. of copper, zinc, – and iron in waste water by stripping voltammetry 557
– detmn. of copper, zinc, cadmium and – in blood serum and liver tissue 570
– detmn. of trace elements in – nodules and plant materials by ion-exchange chromatography 343
Manganese(II)
– detmn. of – by means of succineimidedioxime, kinetic-ctalytic method 373
– detmn. of – in water using 3-cyanoformazan oxidation by catalytic-kinetic spectrophotometry 547
– detmn. of – traces using catalytic oxidation of malachit green with periodate 547
– detmn. of – with aminohydroxamic acid, o- by spectrophotometry 373
Manganese halides
– Gmelin handbook, electronic spectra of – 129
Manganite
– detmn. of – in ores by potentiometry 553
Mannitol
– detmn. of titanium(IV) with – by spectrophotometry 544
Mannosamine
– detmn. of D-– in polysaccharides by GLC 576
Margarine
– detmn. of styrene in – by head-space GC, migration from polymer packings 82
Marine organisms
– detmn. of selenium in – using hydride generation EAAS 571
Mass spectrometer
– microcomputer controlled tandem quadrupole – using a direct liquid introduction probe 456
Mass spectrometry
– accuracy in spark source – 52
– anal. of hydrocarbons, aromatic by –, reactions in the source 362
– anal. of thin metallic films by glow discharge – 362
– biochemical application of field desorption – 53
– charact. of polymers by FD- and FAB-– 339
– chromatography and – in biochemical sciences, book 49
– chromatography, gas/–, fused-silica interface 136
– chromatography, HPLC/–, moving belt interface with spray deposition 54
– chromatography, liquid/–, direct liquid inlet 55
– chromatography, liquid/–, direct liquid introduction interface 134
– chromatography, thin-layer/–, plate scanner interfaced with MS 137
– , computerized data processing, Bayesian statistical methods 53
– detection limits and surface interactions in negative chemical-ionization – 456
– detmn. of glucuronides by chromatography, HPLC/– with thermospray ionization interface 54
– detmn. of ultratraces of metals and organic compounds by – 456
– differentiation of simple biochemical mixtures, biopolymers by pyrolysis – 456
– direct fluid injection interface for capillary chromatography, supercritical fluid/– 136
– ICP – using continuum flow ion extr. 362
– ident. of nucleoside phosphite esters by – 176
– improvement of accuracy of spark source – by extention of photographic emulsion dynamic range 52
– /pyrolysis combined with chromatography, gas, applications 439
– /pyrolysis combined with chromatography, gas, applications 440
– /pyrolysis combined with chromatography, gas, applications 441
– /pyrolysis combined with chromatography, gas, applications 442
– /pyrolysis combined with chromatography, gas, applications 443
– /pyrolysis combined with chromatography, gas, applications 444
– /pyrolysis combined with chromatography, gas, applications 445
– /pyrolysis combined with chromatography, gas, applications 446
– /pyrolysis combined with chromatography, gas, applications 447
– /pyrolysis combined with chromatography, gas, applications 448
– /pyrolysis combined with chromatography, gas, applications 449
– /pyrolysis combined with chromatography, gas, applications 450
– /pyrolysis combined with chromatography, gas, applications 451
– /pyrolysis combined with chromatography, gas, applications 452
– /pyrolysis, instrumental and methodological developments 439
– /pyrolysis, instrumental and methodological developments 440
– /pyrolysis, instrumental and methodological developments 441
Mass spectrometry
– /pyrolysis, thermal degradation reactions 441
– /pyrolysis, thermal degradation reactions 442
– /pyrolysis, thermal degradation reactions 443
– spark source – of thin layers, high-purity water 53
– with direct supercritical fluid injection 362
Materials analysis
– progress in –, book 49
Materials research centres
– , book 357
MDL 19,205
– anal. of cardiotonic agents, – in blood plasma and urine by HPLC 578
Meat
– detmn. of diethylstilbestrol in urine, tissues, animal and – by fluorimetry 83
– detmn. of nitrite in – by fluorometry 476
– detmn. of sulfonamides in –, swine liver by spectrophotometry, errors by anthranilic acid 83
– disc electrophoresis to detect the adulteration of beef by other animal – 476
Mebendazole
– detmn. of – and flubendazole by fluorimetry 161
Mefenamic acid
– detmn. of – by ion-pair chromatography, with tetraalkylammonium compounds 161
Membrane electrodes
– bioelectrochem. –, book 357
MEN 935
– detmn. of – in blood plasma by HPLC 578
Menthol
– detmn. of – in sweets by GC 478
Mercaptoacetanilide
– detmn. of nickel and copper with o-– by spectrophotometry 463
Mercaptoquinolinates
– extr. of metal complexes as alkylsubstituted – into molten naphthalene 364
Mercury
– absorption of – by solutions containing oxidants 65
– detmn. of – by cold vapor AAS, glass reaction vessel 65
– detmn. of – by cold vapor AAS, improvements 65
– detmn. of – by flow-injection analysis/spectrometry, atomic fluorescence 455
– detmn. of – by spectrometry, atomic absorption, electrothermal, photometric accessory 543
– detmn. of cadmium, cobalt, copper, lead, – and nickel in zinc sulfate plant electrolyte by LC 469
– detmn. of – in fish by GC/ECD 83
– detmn. of – in pharmaceutical products by AAS 160
– detmn. of – in water, humic acid as sample storing preservative 380
– detmn. of selenium, arsenic and – in environmental samples by AFS 382
– detmn. of silver traces in – by voltammetry at HMDE 466
– detmn. of trace – in water, enrichment on gold collector 498
– detmn. of traces of – and barium in mineral-containing water by selective retention on ion-exchange paper and X-ray fluorescence 558
– detmn. of – vapor in air by arc-source spectrometry, atomic emission after preconcentration 377
– dissolution reaction mechanism at solid electrodes 363
– extr. of gold and – from sea water with bismuth diethyldithiocarbamate prior to NAA 380

Mercury
– investigation of the reactions between – (I, II) and thio-Michler ketone 368
Mercury(II)
– detmn. of copper(II) and – with 2,2′-diphenylacetohydroxamic acid by gravimetry 367
– detmn. of silver and – with chloramine T by electrodes, ion-selective 542
– detmn. of – with phthalazinylformazanes by spectrophotometry 543
– investigation of the complex of – with triethylenetetramine 368
Mercury electrodes
– equilibrium constant and formal potentials of –, Hg(II)-H(I)-Hg(0) system 57
Mesityl oxide
– sepn. of indium(III) with – by extraction from salicylate solution 612
Metal chelates
– adsorption of ferroin-type ligands and – on carbon, activated 60
– detmn. of – by reversed-phase HPLC 47
– detmn. of geometrical isomers of – of benzoylacetone and trifluoroacetylacetone by HPLC 458
– sorption of – on carbon, activated 22
Metal complexes
– anal. of – with alkylxanthogenates by extr. voltammetry 464
– extraction of – with macrocyclic tetraaza ligands and xanthene dyes 542
– extr. of – as alkylsubstituted mercaptoquinolinates into molten naphthalene 364
– study of –, praseodymium EDTA complex by spectrometry, photoacoustic 52
– study of – with 1-benzoyl-2-monothiobiuret 62
Metal halide salts
– detmn. of traces of water, hydroxide and oxide in – by coulometric Karl Fischer titration 467
Metal ions
– detmn. of – in waste water by X-ray fluorescence spectrometry 380
– kinetic model of – electrodeposition from solutions of ppm and ppb conc. 57
– sepn. of – by chromatography, thin-layer on stannic arsenate layers 56
– sepn. of – by extraction as 5-(4-dodecylphenylazo)-8-hydroxyquinoline chelates 460
– sepn. of – in aqueous acetone-acetic acid on anion exchangers 131
– sepn. of organic ions and – by capillary electrophoresis, high-voltage 56
Metallic films
– anal. of thin – by glow discharge mass spectrometry 362
Metal-ligand bond stability
– influence of substituents in reagents, organic on the – 60
Metalorgano compounds
– elemental microanalysis of organic compounds and – by pyrolysis GC 137
Metal oxides
– anal. of high-purity – and semiconductors by spectrometry, with hollow cathode discharge 360
Metals
– anal. of – and alloys by spectrometry, a.c. arc and high-frequency spark in air and argon 360
– complex compounds of – with O,O-dialkyl-S-thiocarbamoyl dithiophosphates for detmn. of lead and copper by extr.-polarography 67
– detmn. of – as complex compounds by spectrometry, photoacoustic 362
– detmn. of – by spectrometry, atomic absorption, conc. at cation exchange resin 51
Metals
– detmn. of carbon in – by photometric nonaqueous coulometric titration 70
– detmn. of – in solid samples by spectrometry, atomic emission, YICP, evolved gas analysis 51
– detmn. of lanthanum and cerium in low-alloy – by spectrophotometry, polymetallic complexes 375
– detmn. of little admixtures in – by spectrometry, X-ray, excitation of accelerated ions 361
– detmn. of toxic metals, – in water and waste materials by graphite cuvette AAS 382
– detmn. of ultratraces of – and organic compounds by mass spectrometry 456
– sepn. of – on stannic arsenoantimonate as ion-exchangers 131
– sepn. of tin from – by extr.-chromatography 67
– speciation of – by flow-injection analysis 59
Metamizole
– detmn. of major – metabolites in blood serum and urine by TLC 93
Methenamine
– indirect UV visualization of – with ion-pairing reversed-phase LC 161
Methotrexate
– detmn. of – in blood serum by back-flush HPLC 251
3-Methoxy-4-hydroxymandelic acid
– anal. of – in urine by HPLC 167
3-Methoxy-4-hydroxyphenylglycol
– anal. of – in human cerebrospinal fluid by GC/MS and LC/electrochem. detection 572
– detmn. of –, 5-hydroxyindoleacetic acid and homovanillic acid in cerebrospinal fluid by HPLC with electrochem. detection 168
– detmn. of – in blood plasma by HPLC/electrochem. detection 88
– detmn. of – in urine by two-dimensional LC 96
Methylamine
– anal. of copovithane and – in blood and urine by HPLC 96
Methylamines
– detmn. of – in biological materials by head space GC 168
N-Methylamino acids
– enantiomer sepn. of amino acids, – and 3-hydroxy acids as isocyanates by GC 549
Methyl bromide
– residue reviews, hydrocarbons, polycyclic aromatic, –, book 130
2-(2-Methyl-4-chlorophenoxy) propionic acid
– detmn. of 2,4-dichlorophenoxyacetic acid, dicamba and – in formulations by HPLC 159
5-Methylcytosine
– detmn. of – in DNA by GC/MS 482
– detmn. of – in DNA by reversed-phase HPLC 482
Methylhistidine
– detmn. of – and amino acids by HPLC 140
Methylmercury chloride
– detmn. of dimethylmercury and – in air by GC with AAS detection 555
Methyl propenoates, chlorinated
– sepn. of – by capillary GC 139
Methyl-2-pyrrolidine, N-
– detmn. of – in water by HPLC 382
Methyl sulfide
– adsorption of hydrogen sulfide and – on carbon, activated 78
Methylthioadenosine
– detmn. of – in tissues by HPLC 480
Methyltin
– detmn. of tin and – in water by hydride generation graphite-furnace AAS and AES 558
Methyprylon
– detmn. of – and metabolite in blood plasma by HPLC 579
Metoprolol
– detmn. of – in blood plasma by GC 95
– detmn. of – in blood plasma by HPLC 385
Metribuzin
– detmn. of – and metabolites in plant materials by HPLC 158
Metronidazole
– detmn. of – and metabolite in biological fluids by HPLC 386
Microfiltration
– , versatile vacuum device for cells 479
Microscopy, field-ion
– in material science, book 358
Microsomes
– sepn. of nonionic detergent emulgen 911 from – by HPLC 85
Milk
– anal. of proteins in – by enzymatic, immunologic and electrophoretic methods 476
– detmn. of ethoxyquin in – by HPLC with fluorescence detection 84
– detmn. of vitamin D_2, vitamin D_3 and 25-hydroxy derivatives in human – by HPLC 173
– sepn. of lipids of human – by capillary GC 576
Milk fat
– anal. of fatty acids in lipids of – by capillary GC 476
Mimosine
– detmn. of – and 3-hydroxy-4(1H)-pyridone in blood plasma by HPLC 156
Mineral materials
– anal. of – by spectrometry, with angled electrodes 360
Minerals
– activation analysis, neutron of elements in rocks and – 150
– anal. of major and minor elements in phosphates rocks and related – by ICP-AES 551
– certification of reference materials of – 552
– detmn. of palladium and copper(II) in alloys and – with p-anisaldehyde thiosemicarbazone by spectrophotometry 465
– Gmelin handbook, lanthanoides, yttrium, –, excluding silicates 358
Mineral water
– detmn. of silver in – by chemiluminescence 81
Mirex
– sepn. of – from biphenyls, polychlorinated in foods by GC 564
MOBIL-Rf-chamber
– exp. with – for chromatography, sequence thin-layer 289
– in preparative chromatography, sequence thin-layer 291
Mössbauer spectroscopy
– advances in –, book 49
Moisture
– detmn. of – in sunflower seed by Karl Fischer titration 475
Molecular electronic devices
– , book 358
Molecular emission cavity analysis
– detmn. of silicon by – 66
Molecular weight
– detmn. of – of lignins by size exclusion chromatography 155
– detmn. of – of polyacrylonitrile and polyvinylpyrrolidone by size-exclusion chromatography 147
Molybdenum
– decreased – emission in a carbon arc caused by zirconium carbide 373
– detmn. of – in plant materials by pulse polarography 560

Molybdenum
– detmn. of – in sea water by spectrophotometry 559
– detmn. of – in solutions of argillites by AAS 152
– detmn. of – with thiocyanate and amides by extr. spectrophotometry 546
– photokinetic detmn. of – in steel, catalytic oxidation of o-aminophenol 72
Molybdenum(VI)
– detmn. of – by means of an iodide-selective electrode, catalytic method 373
– study of – by polarography in HSO_4 medium 373
Monoamine metabolites
– detmn. of – in cerebrospinal fluid by HPLC with electrochem. detection 168
Monoamine oxidase B
– purification of – of human platelets by HPLC 92
Monosaccharides
– detmn. of – in polysaccharides as formic acid by HPLC 475
– sepn. of – and neutral aromatic glycosides from aqueous solutions by LC 608
Monosodium glutamate
– detmn. of – enantiomers by chiral-phase capillary GC 549
Morin
– detmn. of niobium by fluorimetry using – and cationic surfactants 372
– fluorescence in complexing of aluminum with – using surfactants 543
Mothproofing agents
– formation of dibenzodioxins, dibenzofurans and phenoxazines from – by heat 147
Multicomponent analysis
– spectrometry, – with multi standard addition, partial least squares solution 51
Multielement analysis
– in airborne particulates by X-ray fluorescence spectrometry 377
– in microliter samples by rapid scanning spectrometry, atomic emission, MIP 51
Muramic acid
– detmn. of – in bacterial cell cultures by HPLC 383
Mussels
– detmn. of petroleum hydrocarbons in water und – 559
Mustard oil
– detmn. of allyl isothiocyanate in – and rapeseed oil by spectrophotometry 478
Musts
– anal. of wines and – by chromatography, HPLC 474
Mutarotation catalysts
– sepn. of malto-oligosaccharides by LC, influence of – 140
Mycotoxins
– anal. of – by TLC/HPLC 281
– detmn. of alternaria –, altenuene, alternariol in fruits and vegetables by GC/MS 419
Mycotoxin T2
– detmn. of – in foods by GC 84
Myelin
– anal. of – by two-dimensional gel electrophoresis 170

N

NAD
– measurement of ethanol or – in acid extracts of biological materials by enzymatic method 166
NADH
– detmn. of adenosine triphosphate, – and bile acids based on immobilized enzymes, bioluminescent and photographic detection 569
Nadolol
– detmn. of propranolol, – and prazosin in biological fluids by ion-exchange HPLC 579
Nafazatrom
– detmn. of – in blood plasma and urine by HPTLC/HPLC 267
Naloxone
– detmn. of – hydrochloride in pharmaceutical products by HPLC 164
– detmn. of – in blood by HPLC 578
Naproxen
– detmn. of – in blood serum by HPTLC 93
Naringenin
– detmn. of naringin, prunin and – applied to the assay of naringinase 484
Naringin
– detmn. of –, prunin and naringenin applied to the assay of naringinase 484
Naringinase
– detmn. of naringin, prunin and naringenin applied to the assay of – 484
Natural gas
– detmn. of high-boiling hydrocarbons in – by capillary GC and MS 407
Natural products
– sepn. of xanthomegnin and viomellein in – by HPLC 156
Neomycin
– microbiolog. assay of gentamicin, streptomycin and – by potentiometry, with CO_2 gas-sensing electrode 163
Neon
– detmn. of argon, helium, – and hydrogen in powdered alloys 72
Nickel
– complexation of N-(2-acetoamido)imino-diacetic acid with zinc, cobalt(II), – and copper(II) 460
– detmn. of – and copper with o-mercapto-acetanilide by spectrophotometry 463
– detmn. of – by differential pulse polarography 464
– detmn. of cadmium, cobalt, copper, lead, mercury and – in zinc sulfate plant electrolyte by LC 469
– detmn. of cobalt, copper, –, lead and zinc in rocks by solvent extr. and AAS 152
– detmn. of copper, –, cobalt and zinc in iron-manganese nodules by atomic fluorescence 152
– detmn. of copper(II), – and zinc by HPLC on β-diketone bonded phase 64
– detmn. of – in alloys and soils with cadion and 1,10-phenanthroline by extr. spectrophotometry 375
– detmn. of – in alloys by derivative spectrophotometry 73
– detmn. of – in environment by adsorption voltammetry 321
– detmn. of – in fuel oils by spectrometry, atomic absorption using emulsions 145
– detmn. of – in presence of excess iron by spectrophotometry 463
– detmn. of lead and – in biological tissues by EAAS 570
– detmn. of palladium and – with biacetyl monoxime glycinimine as new reagent 465
– detmn. of – with 1,2,3-cyclohexan-triontrioxime by amperometry and spectrophotometry 464
– detmn. of – with acenaphthenequinone-dioxime by gravimetry 464
– detmn. of – with dipicolindihydroxamic acid by spectrophotometry 463
– stepwise formation constants of – and copper(II) with 3-(o-acetophenyl)-1-methyl-triazene-N-oxide 463
Nickel alloys
– detmn. of cobalt in steel and – by a.c. polarography 72
– detmn. of phosphorus in steel and – without matrix sepn. 71
Nickel-based materials
– detmn. of selenium in – by hydride AAS 375
Nickel tetracarbonyl
– detmn. of – in air by GC 556
Nicotine
– detmn. of – in air by GC, collection on solid sampling tube 77
Niobium
– detmn. of – by fluorimetry using morin and cationic surfactants 372
– detmn. of lanthanides, –, zirconium, tantalum in alkaline rocks by spectrophotometry 151
– extr. of –, tantalum and titanium using NH_4F 59
– influence of buffers on the spectral line intensity for lanthanides, –, zirconium and refractory elements using blowing-in-arc technique 151
Nitrate
– detmn. of –, chloride and sulfate in drinking water by capillary free-zone electrophoresis 78
– detmn. of – in lake water by LC 379
– detmn. of – in plant extracts by microbiological assay 154
– detmn. of – in plant extracts by spectrophotometry/flow-injection anal. 154
– detmn. of nitrite and – in foods by chromatographic methods 428
– detmn. of –, nitrite, phosphate, chloride, sulfate in vegetables by ion chromatography 121
Nitric acid
– conversion of nitrogen dioxide, – and n-propyl nitrate to nitric oxide 68
Nitric oxide
– conversion of nitrogen dioxide, nitric acid and n-propyl nitrate to – 68
Nitrite
– detmn. of – and nitrate in foods by chromatographic methods 428
– detmn. of – as benzotriazole derivatives by GC 545
– detmn. of – by direct voltammetry on a graphite electrode 68
– detmn. of – in animal feeds by spectrophotometry or potentiometry 156
– detmn. of – in meat by fluorometry 476
– detmn. of – in natural water by flow injection anal. 379
– detmn. of – in waste water with 4,5-dihydroxy-coumarin 379
– detmn. of nitrate, –, phosphate, chloride, sulfate in vegetables by ion chromatography 121
– detmn. of – with ^{36}Cl-chloramine T by radio-release method 545
4-Nitrobenzene S
– detmn. of titanium(IV) with – by spectrophotometry in acetic medium 370
Nitrofluorenes
– sepn. of fluorene, – and nitrofluoren-9-ones by TLC 141
Nitrofluoren-9-ones
– sepn. of fluorene, nitrofluorenes and – by TLC 141
Nitrogen
– detmn. of – containing pesticides in biological materials by GC-MS 111
– detmn. of – isotope ratios ^{14}N:^{15}N by OES 68
– detmn. of –, oxygen, fluorine, phosphorus, sulfur and chlorine in aluminum alloys by NAA 73
– detmn. of quaternary ammonium – of water-soluble oligomers 145

Nitrogen-15
– detmn. of – by spectrometry, emission, after hypobromite oxidation 597
– detmn. of – in [guanidino-^{15}N]arginine by GC/MS 86
Nitrogen bases
– isolation of – from petroleum by LC on HCl-modified silica 470
Nitrogen dioxide
– conversion of –, nitric acid and n-propyl nitrate to nitric oxide 68
– monitoring of iodine, ozone and – with galvanic solid-state sensor 59
Nitrogen isotopic composition
– detmn. of – in plant materials by laser spectrometry 153
Nitrogenous bases, polycyclic
– ident. of – by combined GC/MS 147
Nitrogen oxides
– detmn. of – in air by chemiluminescence 555
Nitrophenols
– detmn. of – in water by HPLC 381
Nitrosamine
– research, book 534
– the – problem, book 534
Nitroso-di-n-propylamine
– detmn. of – in trifluralin products by GC with NPD 159
Nitrotriacetic acid
– studies of the oxidation of iminodiacetic acid and – 146
Noble metals
– detmn. of – in lead beads by AAS after fire assay 70
Nomifensine
– detmn. of – and metabolites in urine by TLC 386
Nonylphenol ethylene oxide
– detmn. of average properties of – condensates by spectrophotometry 147
Norephedrine
– sepn. of – enantiomers as 2-oxazolidones by HPLC 162
Norepinephrine
– detmn. of epinephrine, – and dopamine in urine by HPLC 95
– sepn. and detmn. of epinephrine, – and dopamine by chromatography on diphenyl thin layers 567
Norepinephrin-O-sulfate
– detmn. of dopamine-O-sulfate, – and serotonin-O-sulfate by HPLC with dual-electrode detection 87
Norpethidine
– detmn. of pethidine and – as carbamates by GC 95
Nortriptyline
– detmn. of amitriptyline, – and metabolites in blood plasma by GC/NPD 579
Noscapine
– detmn. of – in blood plasma by HPLC 384
Nuclear fuels
– detmn. of uranium and plutonium in – by sequential potentiometric titration 376
Nuclear solutions
– detmn. of metallic impurities and rare earths in – and fission products by flameless AAS 376
Nucleic acid bases
– charge transfer TLC of – and hydrocarbons, polycyclic aromatic 480
Nucleic acids
– detmn. of osmium-labeled – by stripping voltammetry 482
– sepn. of proteins and – on ion-exchangers, TSK-gel IEX-645 DEAE 89
Nucleobases
– sepn. of – and nucleosides by TLC 480
Nucleoside phosphite esters
– ident. of – by mass spectrometry 176
Nucleoside phosphorothioates
– sepn. of diastereomers of – by reversed-phase HPLC 480
Nucleosides
– boronic acid substituted silica for sepn. of –, cis-dioles from biological fluids by chromatography, HPLC 54
– detmn. of cytosine arabinoside, uracil arabinoside, – in biological fluids by HPLC 175
– detmn. of deoxythymidine, – in cell extracts by reversed-phase HPLC 480
– ident. of – by MS 480
– sepn. of – and nucleotides by reversed-phase HPLC with tetrabutylammonium hetaerons 480
– sepn. of nucleobases and – by TLC 480
– sepn. of –, tRNA by HPLC 480
– silica-bound alcohol dehydrogenase as stationary phase for chromatography, HPLC of nucleotides and – 481
Nucleoside 5′-triphosphates
– microdetmn. of – using coupled bioluminescence 481
Nucleotides
– detmn. of adenine, adenosine, – in biological fluids by HPLC/fluorescence detection 175
– detmn. of – in blood platelets by pulse labeling with [^{32}P]orthophosphate 176
– sepn. of – by reversed-phase HPLC 480
– sepn. of nucleosides and – by reversed-phase HPLC with tetrabutylammonium hetaerons 480
– sepn. of sulfur-containing substances, amino acids and – by gel filtration 85
– silica-bound alcohol dehydrogenase as stationary phase for chromatography, HPLC of – and nucleosides 481

O

Ochratoxin A
– detmn. of – in cacao beans by HPLC 84
Octopamine
– detmn. of catecholamines, –, 5-hydroxy-tryptamine in biological tissues by HPLC/coulometry 572
Octopine
– detection of – in biological materials by ^{14}C-radio TLC 561
Odorous components
– anal. of – in swine manure by GC 562
Oils
– anal. of – fractions derived from hydrogenation of aspen wood by chromatography and spectrometry 156
– anal. of – in plant materials by TLC and GC 155
– anal. of lipids in – by capillary GC 476
– anal. of – of Yuzu, plant materials by capillary GC 155
– detmn. of aflatoxin B_1 in – and fats by TLC 478
– detmn. of cyclopropenoic fatty acids in seed – by HPLC and GC 476
– detmn. of fatty acids in seed – by GC and HPLC 475
– detmn. of tocopherols and sterols in fats and – by capillary GC 82
Oil shale
– detmn. of pollution potential of –, elements in aqueous extract 554
Oils, vegetable
– detmn. of free fatty acids in – by GLC 82
Oils, volatile
– detmn. of cinnamic aldehyde and carvone in – by sec. derivative UV spectrometry 566
Oleate
– detmn. of stearate and – in magnetic powders by potentiometry 467
Oligo(ethyleneglycol) dimethylacrylates
– anal. of – by HPLC 147
Oligomers
– detmn. of quaternary ammonium nitrogen of water-soluble – 145
Oligonucleotides
– sepn. of – by HPLC, column of microparticulate silica coated with crosslinked polyethylene imine 481
Oligosaccharides
– sepn. of – by gel chromatography 140
– sepn. of permethylated – by TLC/GC 171
Olive oil
– sepn. of triglycerides in fats and – by TLC 476
Ophthalmic drops
– detmn. of gentamicin in – by TLC and HPLC 239
Opiates
– detmn. of – by GC, capillary columns for perfluoroacylated compounds 568
Ores
– detmn. of gold in silicate rocks and – by coprecipitation with tellurium and neutron activation 150
– detmn. of iron in – and alloys by spectrophotometry, new reagents 462
– detmn. of iron in – by complexometry 152
– detmn. of manganite in – by potentiometry 553
– detmn. of silver in – and concentrates by AAS 551
– detmn. of silver in –, concentrates, zinc process solutions, copper and alloys by AAS, extr. as tribenzylamine-silver bromide complex 374
– detmn. of tin in tin – using flotation and RFA 552
– detmn. of uranium in – by spectrophotometry 551
– detmn. of zinc in –, testing of reference methods 150
– potassium peroxide as a flux in – and rocks anal. 150
Organic acids
– detmn. of – in egg products by GC 82
– detmn. of – of Krebs cycle in biological materials by GC/MS 167
– sepn. of anions, inorganic and – on silica-based ion-exchangers by chromatography, ion 456
– sepn. of – by chromatography, Donnan exclusion 138
– sepn. of – in fermented vegetables by HPLC 475
– sepn. of – in plant materials by HPLC 561
Organic compounds
– chromatography, adsorption of – on Bio-Gel P-2 134
– detection of – by thermal-UV method in chromatography, thin-layer 56
– detection of – with decolorized basic dyes 461
– detmn. (indirect) of – by spectrometry, atomic absorption 455
– detmn. of gas phase – in cigarette smoke by GC, Tenax trap 479
– detmn. of halogens in – by ion chromatography, after sodium fusion 137
– detmn. of ultratraces of metals and – by mass spectrometry 456
– elemental microanalysis of – and metalorgano compounds by pyrolysis GC 137
– tables of spectral data for structure detmn. of –, book 453
– voltammetry, subtractive differential pulse, adsorptive accumulation of – 57

Organic compounds, volatile
– screening of coal fly ash for – by GC 144
Organic contaminants
– detmn. of – in river sediments by extr. and GC 554
Organic extracts
– anal. of fluoride-containing – 59
Organic hydrates
– study of – by thermal analysis 137
Organic ions
– sepn. of – and metal ions by capillary electrophoresis, high-voltage 56
Organic materials
– detmn. of – in airborne particulates, Teflon block extr. apparatus 557
Organic reagents
– photometric reactions between tin(IV) and – in the presence of third components 370
Organic solvents
– detmn. of water in – with bromocresolgreen by spectrophotometry 470
Organic substances
– detmn. of – by kinetic-catalytic methods, review 547
Orotic acid
– detmn. of uric acid, xanthine, hypoxanthine, allopurinol, oxipurinol, –, orotidine and creatinine in biological fluids by HPLC 175
Orotidine
– detmn. of uric acid, xanthine, hypoxanthine, allopurinol, oxipurinol, orotic acid, – and creatinine in biological fluids by HPLC 175
Oscillometric flow cell
– for flow-through detection 364
Osmium
– detmn. of –, ruthenium and iridium traces by chemiluminescence 376
– detmn. of – traces by the catalyzed hydrogen peroxide-cyanocuprate(I) reaction 465
– detmn. of – traces using atomic fluorescence spectrometry 465
– detmn. of – via dithizone complex by photometry 353
Oxalate
– detmn. of –, citrate and fluoride by indirect spectrophotometry 549
Oxcarbazepine
– detmn. of – in blood plasma by HPLC 386
Oxidants
– titration of – with reduced phenosafranine and neutral red 365
Oxide
– detmn. of traces of water, hydroxide and – in metal halide salts by coulometric Karl Fischer titration 467
Oxidimetric titrant
– use of bromochlorohydantoin as – in potentiometric titration 460
Oxipurinol
– detmn. of uric acid, xanthine, hypoxanthine, allopurinol, –, orotic acid, orotidine and creatinine in biological fluids by HPLC 175
Oxprenolol
– detmn. of – in blood plasma by GC 578
Oxygen
– detmn. of dissolved –, book 358
– detmn. of dissolved – in water 378
– detmn. of dissolved – in water by iodometry 78
– detmn. of nitrogen, –, fluorine, phosphorus, sulfur and chlorine in aluminum alloys by NAA 73
– detmn. of the isotopic composition of – by ESR spectrometry 372
Oxygen-containing substances
– detmn. of – as impurities in aluminum chloride 75
Oxyphenbutazone
– detmn. of – in blood plasma by HPLC 384
Oxytocin
– sepn. of diastereoisomers of – analogues by LC 88
Ozone
– detection of hydrogen sulfide and dimethyl sulfide with – by chemiluminescence 69
– detmn. of – by indigo method, organic interferences 546
– detmn. of – in water by amperometry, continuous analyzer 379
– detmn. of – in water by indirect photometry 379
– monitoring of iodine, – and nitrogen dioxide with galvanic solid-state sensor 59

P

Palladium
– detmn. of – and copper(II) in alloys and minerals with p-anisaldehyde thiosemicarbazone by spectrophotometry 465
– detmn. of – and nickel with biacetyl monoxime glycinimine as new reagent 465
– detmn. of – in alloys by selective complexometry 376
– detmn. of – in catalysts with 5-phenylazo-8-aminoquinoline by extr. spectrophotometry 465
– detmn. of – in solutions of its coordination compounds by AAS 464
– detmn. of silver, tellurium and – in geological materials by MS isotope dilution 150
– detmn. of – with 1,3-cyclohexanedione bisthiosemicarbazone by spectrophotometry 464
– extr. of – isotopes in irradiated actinides 376
Palladium(II)
– detmn. of – and platinum(II) with maleonitriledithiol by reversed-phase ion-pair chromatography/spectrophotometry 465
Papaver
– detmn. of alkaloids of – by HPLC 165
PAR
– detmn. of zirconium and hafnium with – by spectrophotometry 370
Paraquat
– anal. of diquat and – in potatoes by GC 478
Pararosaniline
– detmn. of formaldehyde in air with – by spectrophotometry, temperature dependence 77
Parathyroid hormones
– detmn. of – in biological materials and reference standards by HPLC 175
Particle suspensions
– anal. of – by chromatography, size exclusion and chromatography, hydrodynamic 134
Pattern recognition
– applied to vapor-phase spectra, IR 61
Peanuts
– detmn. of aflatoxins in – by TLC, dilution errors in extr. sampling 84
Peat
– pyrolysis of –, a comprehensive review 469
Pefloxacin
– anal. of – and metabolites in biological fluids by HPLC 96
Penicillamine
– anal. of D– in blood plasma by HPLC/fluorescence detection 387
Penicillin G
– detmn. of –, ampicillin and cephapirin in biological materials by microbiological methods 96
Penicillins
– detmn. of – in fermentation broth by HPLC 163
Pentacyanoferrate(II)
– reaction of – complexes with three aldoximes, N-heterocyclic 551
Pentacyanonitrosylferrate(II)
– detmn. of – by polarography 461
Peptides
– anal. of – released from fibrinogen by HPLC 574
– detmn. of amino acid sequences of – by capillary GC 169
– detmn. of enkephalins, β-endorphins and small – in tissues by HPLC/electrochem. detection 89
– sepn. of amino acids and – by TLC on ammonium tungstophosphate layers 169
– sepn. of – by discontinuous electrophoresis 574
– sepn. of – by HPLC on Bio-Gel 574
– sepn. of – by reversed-phase LC, effect of structures 574
– sepn. of diastereomeric – by HPTLC 169
– sepn. of tryptic – of hemoglobins by reversed-phase HPLC 89
– sepn. of tryptic – of human growth hormone by reversed-phase HPLC 89
– structure-ionization relationship of tyrosine-containing – 89
Perhexiline
– detmn. of – in blood plasma by GLC/NPD 94
Periclase
– detmn. of admixtures in – by spectrometry 552
Peroxodisulfate
– detmn. of iron(III) traces in tungsten by catalytic polarography, use of – 71
Perylene
– supersonic jet fluorescence spectrometry of – and benzo(a)pyrene 550
Pesticides
– anal. of – by GC/FTIR 157
– chemistry of organophosphorus –, book 49
– clean-up of – in foods by gel-permeation chromatography 478
– detmn. of – and metabolites by capillary GC, 194 compounds 157
– detmn. of – by chromatography, gas, polar glass capillary column 563
– detmn. of – in foods by automated capillary GC 157
– detmn. of – in foods by automated GC 563
– detmn. of – in foods by capillary GC 478
– detmn. of – in foods by two-dimensional capillary GC 563
– detmn. of – in plant materials, foods 83
– detmn. of nitrogen containing – in biological materials by GC-MS 111
– preconc. of organophosphorus – from tap water and waste water on graphitized carbon black 158
Pethidine
– detmn. of – and norpethidine as carbamates by GC 95
Petroleum
– ident. of azaarenes in – by GC/MS, CH_2-homologous series 145
– ident. of natural seep-oils, – by IR spectrometry 144
– isolation of nitrogen bases from – by LC on HCl-modified silica 470
– sepn. of polar compound classes in –, bitumen and coal liquids by LC with aprotic dipolar solvents 469
Pharmaceutical products
– detmn. of amitriptyline in – by HPLC 162
– detmn. of arbaprostil in – by HPLC 164
– detmn. of ascorbic acid in fruits and – by titration with thallium(III) 477
– detmn. of bismuth in –, cosmetics by extr. spectrophotometry as tetra-n-butylammonium tetraiodobismuthate 160
– detmn. of chloramphenicol in – by ion-selective electrode 163

Pharmaceutical products
– detmn. of chlorhexidine in – by GLC 565
– detmn. of chlorocresol in – by LC and spectrophotometry 565
– detmn. of hydralazine in – by fluorescence 161
– detmn. of indenolol hydrochloride in – by HPLC 161
– detmn. of isosorbide nitrates in – by HPLC 162
– detmn. of mercury in – by AAS 160
– detmn. of naloxone hydrochloride in – by HPLC 164
– detmn. of pyrazolidinedione derivatives in – by spectrophotometry 161
– detmn. of sulfisoxazole in – by reversed-phase HPLC 163
– detmn. of trace elements in –, tablets using ASV 565
– detmn. of triazolo-benzodiazepines in – by HPLC 162
– sepn. of – by extr., distribution quotients 564
– stability testing of – by HPTLC/HPLC, comparison 187
Phase-transfer catalysts
– NMR spectrometry of –, formate selective extr. constants 145
– quant. spectrometry, NMR of – 61
PH electrodes
– polymer-membrane – as internal elements for potentiometric gas sensor 363
1,10-Phenanthroline
– detmn. of cobalt with – by spectrophotometry 463
– detmn. of nickel in alloys and soils with cadion and – by extr. spectrophotometry 375
Phencyclidine
– ident. of – and analogs by TLC, HPLC and GC/MS 165
β-Phenethylamines
– anal. of – in cactaceae by HPLC 156
Phenol
– detmn. of – in polluted water by extr. spectrophotometry, via oxidative coupling using o-toluidine 381
– sorption-chromatographic preconc. of – and cresols 550
Phenols
– detmn. of – with p-N,N-dimethylphenylene-diamine and $NaIO_4$ by spectrophotometry 142
Phenoxazines
– formation of dibenzodioxins, dibenzofurans and – from mothproofing agents by heat 147
Phenoxyacetic acids
– detmn. of chlorophenols and – by LC, on PRP-1 as stationary phase 159
Phenylalanine
– sepn. of tyrosine, tryptophan and – derivatives by TLC 169
5-Phenylazo-8-aminoquinoline
– detmn. of palladium in catalysts with – by extr. spectrophotometry 465
2-Phenylbutyric acid
– detmn. of – in blood plasma by LC and GC 167
1,2-Phenylenediamine
– detmn. of iron(III) using the reaction of – oxidation by fluorimetry 462
Phenylglycidyl ethers
– regioselectivity in the chemical and enzymatic reactions between glutathione and – 85
Phenylphenols
– studies of the reactions of – with hypochlorite in water by GC/MS 382
1-Phenyl-3-thiobenzoyl thiocarbamide
– detmn. of iron with – by extr. spectrophotometry 462
Phenytoin
– anal. of – and salicylate in blood plasma by LC 385
Pheophorbide a
– detmn. of –, pyropheophorbide a and phytol in foods by GC and TLC 477
PH measurement
– in low ionic strength solutions including fresh water 557
– in soils by flow-injection anal. 553
Phorate
– detection of fenthion, disulphoton and – by TLC 158
Phosphatase, acid
– detmn. of seminal – using sodium thymolphthalein monophosphate, screening test 92
Phosphatase, alkaline
– detmn. of – in blood serum by anion exchange chromatography 484
– isoelectric focusing of – isoenzymes in blood serum 484
Phosphate
– anal. of formate in solutions containing –, biological fluids by colorimetry 87
– detmn. of – and sulfate by anion-exchange/AAS 69
– detmn. of – by flow-injection analysis, optimization procedures 371
– detmn. of – in enzymatic solutions by spectrophotometry 166
– detmn. of – in polluted water by extr. of molybdenum blue 379
– detmn. of – in turbid aqueous samples by derivative spectrophotometry 545
– detmn. of nitrate, nitrite, –, chloride, sulfate in vegetables by ion chromatography 121
– detmn. of ortho– by coulometry in a flow system 68
– detmn. of ultratraces – by spectrophotometry with a solid-state emitter 68
– precipitate flotation of trace – in water 79
Phosphate, protein-bound
– detmn. of – by continuous flow analysis 166
Phosphate release
– detmn. of aspartate transcarbamylase by – 483
Phosphates
– anal. of major and minor elements in – rocks and related minerals by ICP-AES 551
Phospho-L-arginine
– detmn. of – in cytoplasm by enzymatic anal. 169
Phospholipids
– detmn. of – in biological fluids by HPLC 577
– detmn. of lipids and – by TLC, plates and detection reagents 172
Phosphorites
– detmn. of radionuclides in marine – by γ-spectrometry 554
Phosphorus
– detmn. of – and antimony in silicon structures by a neutron activation method 375
– detmn. of – and arsenic in steel by extr. of their heteropolyacids 71
– detmn. of – by gas phase chemiluminescence after hydride generation 68
– detmn. of dissolved total – in brackish anoxic water by spectrophotometry 559
– detmn. of – in steel and nickel alloys without matrix sepn. 71
– detmn. of – in tungstic acid by extr. photometry 468
– detmn. of – in vegetables, mineralization with molten alkali 473
– detmn. of nitrogen, oxygen, fluorine, –, sulfur and chlorine in aluminum alloys by NAA 73
– spectrophotometric layer-by-layer detmn. of – in silicon 75
Phosphorusorgano compounds
– detection of – in inorganic materials by LC with post-column photodegradation 471
Phosphorus oxoacids
– complex formation of monomeric – with sodium ion in Donnan exclusion chromatography 371
Photochemistry
– data processing in –, HPLC measured 296
Photodegradation
– detection of phosphorusorgano compounds in inorganic materials by LC with post-column – 471
Photometric analysis
– methods, book 49
Phthalazinylformazanes
– detmn. of mercury(II) with – by spectrophotometry 543
Physical chemistry
– compiled data in –, book 130
Phytol
– detmn. of pheophorbide a, pyropheophorbide a and – in foods by GC and TLC 477
2-(Picolyliminomethyl)phenol
– study of – and its complexes with iron (II) and (III) 462
Piezoelectric crystal
– detmn. of formaldehyde with enzyme-coated – detector 138
– immunoassay, microgravimetric with – 569
Piezoelectric quartz crystal
– detection of ammonia using – 371
– detmn. of silver in solution with a – 366
Pigments
– detmn. of benzidine and – in airborne particulates by HPLC 378
Pinene
– sepn. of – enantiomers as α-cyclodextrin inclusion complexes by GLC 550
Piperazine
– detmn. of – metabolites in biological fluids by GC 383
Piperidine
– detmn. of pyridine and – in waste water of siliconorgano production 81
Piroxicam
– detmn. on – in blood plasma, comparison of HPTLC and HPLC 257
Plant ash
– detmn. of lead in – by X-ray fluorescence spectrometry 153
Plant emissions
– detmn. of biogenic hydrocarbons, volatile in – by GC/MS 560
Plant extracts
– anal. of anthocyanins in – by high-resolution GC/HPLC 561
– anal. of – by HPLC/UV detector 153
– detmn. of nitrate in – by microbiological assay 154
– detmn. of nitrate in – by spectrophotometry/flow-injection anal. 154
– detmn. of reductase activity in – by coupled enzyme assay 561
– detmn. of solamargine, solasonine, glycoalkaloids in – by HPLC 165
Plant hormons
– sepn. of – by counter-current chromatography 561
Plant materials
– anal. of coumarins in – by HPLC 245
– anal. of oils in – by TLC and GC 155
– anal. of oils of Yuzu, – by capillary GC 155
– detmn. of boron (ng) in – by pH-difference measurement 560
– detmn. of digitalis glycosides in – by HPLC 567
– detmn. of glaucarubin and glaucarubinon in – by HPLC 154
– detmn. of glucose and glucosinolate in – by polarography 560

Plant materials
– detmn. of lacinilene c 7-methyl ether in cotton – by HPLC 155
– detmn. of metribuzin and metabolites in – by HPLC 158
– detmn. of molybdenum in – by pulse polarography 560
– detmn. of nitrogen isotopic composition in – by laser spectrometry 153
– detmn. of pesticides in –, foods 83
– detmn. of pulegone in – by TLC 560
– detmn. of sodium in – by neutron activation anal. 153
– detmn. of starch, amylose and amylopectin in – on glass fiber paper 154
– detmn. of sucrose, glucose and fructose in – by HPLC 154
– detmn. of total sulfur in – by X-ray spectrometry 154
– detmn. of trace elements in manganese nodules and – by ion-exchange chromatography 343
– isolation of acid amides from – by HPLC 247
– selection of conditions for ashing – using NAA 560
– sepn. of organic acids in – by HPLC 561
Plants
– anal. of lycorine in – by reversed-phase HPLC 561
– anal. of tannic acids in – by HPLC 154
– detmn. of chlorophylls a and b in – 561
– detmn. of flavonoids in – by HPLC 561
– detmn. of traces of fluoroacetic acid in – by GC/MS 561
– enfleurage chromatography, a new technique for ident. of volatile compounds in small sample of – 566
– screening of sphagnorubins of – by TLC 155
– sepn. of saikosaponins in – by HPLC 155
Plastics
– detmn. of elements in – by electron beam microanal. 472
– detmn. of volatile compounds in – by GC/MS 472
Platinum
– acido complexes of – and their reactions with sulfochlorophenolazorhodanine and tyrodine 465
– detmn. of – based on systems with chlorostannate(II) and basic dyes, flotation/spectrophotometry 466
Platinum(II)
– detmn. of palladium(II) and – with maleonitriledithiol by reversed-phase ion-pair chromatography/spectrophotometry 465
Platinum(IV)
– detmn. of – with propionylpromazine phosphate by spectrophotometry 466
Plutonium
– detmn. of uranium and – in nuclear fuels by sequential potentiometric titration 376
– detmn. of uranium and – in tissues 86
Polarography
– , interface for coupling personal computers 592
– normal pulse – of alkali metals in acid solution 540
Polarography, differential pulse
– , theoretical treatment of electrode process 57
Polyacrylamide gels
– chromatography, effect of eluent electrolyte on the behavior of ionic solutes on – 458
Polyacrylonitrile
– detmn. of molecular weight of – and polyvinylpyrrolidone by size-exclusion chromatography 147
Polyamines
– detmn. of – in blood by GLC/ECD 88
Polyamines
– detmn. of – in blood serum and urine by ion-pairing HPLC 168
Polyaminocarboxylic acids
– oxidative decarboxylation of – with lead dioxide suspension 146
Polyaromatic isomers
– detection of – and polychlorinated isomers in aerosols by capillary GC/MS, NICI 378
Polychlorinated isomers
– detection of polyaromatic isomers and – in aerosols by capillary GC/MS, NICI 378
Polyenes
– examination of the photochemistry of – by HPLC 298
Polyethylene
– study of iron(II)-thiocyanate complexes, effect of – on coloration 462
Polyethylene glycol
– detmn. of – in preparations of proteins by laser nephelometry 572
– immobilization of – in capillary columns for chromatography, gas 136
– sepn. of blood cells by chromatography, affinity on – bonded stationary phases 165
Polyethylene imine
– sepn. of oligonucleotides by HPLC, column of microparticulate silica coated with crosslinked – 481
Polyfluoroalkylphosphoric acid
– detmn. of – in galvanic electrolytes by spectrophotometry as P-Mo-blue 469
Polymers
– anal. of – by LC with refractive index measurement 148
– charact. of – by FD- and FAB-mass spectrometry 339
– detmn. of monomeric acrylamide in water soluble – 335
Polymetallic complexes
– detmn. of lanthanum and cerium in low-alloy metals by spectrophotometry, – 375
Polyols
– detmn. of – in urine and blood serum by GC/MS 171
– sepn. of enantiomers of – and amines, chiral by GC 171
Polyperfluoroalkyl ether
– columns with – as stationary phases in chromatography, gas 55
Polysaccharides
– detmn. of D-mannosamine in – by GLC 576
– detmn. of monosaccharides in – as formic acid by HPLC 475
Polysiloxanes
– containing tolyl and cyanopropyl groups as stationary phases for chromatography, gas 459
Polystyrene oligomers
– sepn. of – by reversed-phase HPLC, solvent selectivity 148
Polystyrene peroxide
– effect of temperature, pressure and additives on pyrolysis of – 472
Polysulfanes
– sepn. of – by reversed-phase HPLC 116
Polyvinylpyrrolidone
– detmn. of molecular weight of polyacrylonitrile and – by size-exclusion chromatography 147
Porous polymer bead
– study of – as stationary phases in chromatography, gas, classification of polarity 459
Porphyrins
– detmn. of – in urine by HPLC, tributylphosphate coated column 91
Potassium
– detmn. of – using electrodes, ion-selective, ISFET 349
Potassium
– sepn. of sodium, –, rubidium, thallium and silver by extraction with β-diketones in MIBK 62
– survey for sodium, –, barium, arsenic and selenium in drinking water supplies 557
Potassium oxide
– detmn. of – in fertilizers by flame photometry 153
Potassium peroxide
– as a flux in ores and rocks anal. 150
Potatoes
– anal. of diquat and paraquat in – by GC 478
– anal. of herbicides in – and carrots by chronopotentiometry 563
Potentiometric titration
– use of bromochlorohydantoin as oxidimetric titrant in – 460
Potentiostatic methods
– , computerized mechanistic classification of curves 61
Poultry tissues
– detmn. of dimetridazole residues in – by HPLC 476
Pralidoxime mesylate
– detmn. of – in preparations by LC 164
Pramiracetam
– detmn. of – in blood plasma by GC/NPD 95
Praseodymium
– study of metal complexes, – EDTA complex by spectrometry, photoacoustic 52
Prazosin
– detmn. of – in blood plasma by HPLC 94
– detmn. of propranolol, nadolol and – in biological fluids by ion-exchange HPLC 579
Preconcentration
– anal. of special purity acids by AES and spark source MS, – of impurities 468
– electrostatic – system to identify interferences in spectrometry, atomic absorption 51
– group – before AES of high-purity lanthanide oxides 74
Primaquine
– detmn. of – in blood plasma by spectrophotometry 388
Primaquine phosphate
– use of – as indicators, redox 461
Procainamide
– detmn. of – and N-acetyl metabolite in blood serum and urine by TLC 385
– detmn. of quinidine, –, acetylprocainamide, N- and disopyramide in blood plasma by HPLC 388
Proguanil
– detmn. of – and chlorhexidine by polarography 566
Prolamins
– dot-immunobinding assay for zein, – 170
Promethazine
– detmn. of – hydrochloride by HPLC, stability assay 162
Propafenone
– ident. of – metabolite in urine by HPLC and GC/MS 579
Propericiazine
– detmn. of ruthenium with – by spectrophotometry 464
Propionic acid
– detmn. of – in bread by GC 475
Propionylpromazine phosphate
– detmn. of platinum(IV) with – by spectrophotometry 466
Propranolol
– detmn. of – in biological materials by radioimmunoassay 94
– detmn. of –, nadolol and prazosin in biological fluids by ion-exchange HPLC 579

Propyldazine
– charact. of – and derived compounds by MS 435
Propylene thiourea
– detmn. of – in tissues, animal by GLC 158
Propyl nitrate
– conversion of nitrogen dioxide, nitric acid and n– to nitric oxide 68
Propylthiouracil
– detmn. of – in blood serum by micro HPLC 580
Prostacyclins
– sepn. of – by HPLC 164
Prostaglandins
– sepn. of – and thromboxane by chromatography, thin-layer, alkylsilane modified silica 577
– sepn. of –, thromboxanes, 6-keto-prostaglandin $F_1\alpha$, arachidonic acid metabolites in biological materials by TLC 172
Protein
– detmn. of – in urine by spectrophotometry, comparison of 4 methods 90
Protein binding
– detmn. of – by dialysis 479
Protein interactions
– study of – by HPLC 90
Proteins
– anal. of – in cells by isoelectric focusing in zwitterionic agarose gel thin layers 170
– anal. of – in milk by enzymatic, immunologic and electrophoretic methods 476
– assay of hydroxyproline in – by fluorimetry 170
– detection of radiolabelled – in electrophoretic slab gels 171
– detmn. of 3-fluorotyrosine substitution in – by HPLC 170
– detmn. of – in chocolate by immunology 82
– detmn. of – in PAA gel by digital image processing 574
– detmn. of – on autoradiograms or fluorograms by spectrophotometry of eluted Ag 574
– detmn. of overlapped – in electrophoresis, SDS-PAA gel 574
– detmn. of polyethylene glycol in preparations of – by laser nephelometry 572
– detmn. of retinol-binding protein, – in blood serum by enzyme-linked immunosorbent assay 575
– direct potentiometric monitoring of – in gel chromatography 140
– fast chromatography, ion-exchange of –, optimal conditions 89
– sepn. of – and nucleic acids on ion-exchangers, TSK-gel IEX-645 DEAE 89
– sepn. of – on fluorinated bonded phases by reversed-phase HPLC 170
– silver staining of high-molecular – on large-pore PAA gels 90
Proteoglycans
– detmn. of gastric – by high-resolution GC 576
Prothiophos
– detmn. of – in cabbage by GC/MS 564
Protolysis equilibria
– spectrophotometry anal. of simultaneous – 460
Protonation constants
– simult. detmn. of glass electrode parameters and – 57
– simult. detmn. of glass electrode parameters and – 58
Prunin
– detmn. of naringin, – and naringenin applied to the assay of naringinase 484
Pseudoephedrine
– sepn. of ephidrine and – enantiomers by HPLC, as Ni dithiocarbamate complexes 162
Pteridines
– sepn. of – from blood by HPLC 91
Pulegone
– detmn. of – in plant materials by TLC 560
Purine nucleotides
– sepn. of – by anion-exchange HPLC 481
Purines
– stationary phase effect on the retention behavior of – and pyrimidines in HPLC 479
Pyrazolidinedione
– detmn. of – derivatives in pharmaceutical products by spectrophotometry 161
Pyrazolone derivatives
– detmn. of cadmium with – by extr. spectrophotometry 368
Pyridine
– detmn. of – and piperidine in waste water of siliconorgano production 81
5-(2-Pyridylazo)-2-monoethylaminoparacresol
– detmn. of tin(IV) with – by extr.-spectrophotometry 67
Pyrimidines
– stationary phase effect on the retention behavior of purines and – in HPLC 479
Pyrimido-benzazepine anxiolytic agent
– detmn. of – and metabolite in biological fluids by HPLC and GLC/ECD 386
Pyrite
– detmn. of selenium in – as tri-p-tolyl-selenonium by extr. spectrophotometry 151
Pyrocatechol-3,5-disulfonic acid
– detmn. of iron in bronzes with – or acetylacetone by spectrophotometry 466
Pyrolysis
– mass spectrometry/– combined with chromatography, gas, applications 439
– mass spectrometry/– combined with chromatography, gas, applications 440
– mass spectrometry/– combined with chromatography, gas, applications 441
– mass spectrometry/– combined with chromatography, gas, applications 442
– mass spectrometry/– combined with chromatography, gas, applications 443
– mass spectrometry/– combined with chromatography, gas, applications 444
– mass spectrometry/– combined with chromatography, gas, applications 445
– mass spectrometry/– combined with chromatography, gas, applications 446
– mass spectrometry/– combined with chromatography, gas, applications 447
– mass spectrometry/– combined with chromatography, gas, applications 448
– mass spectrometry/– combined with chromatography, gas, applications 449
– mass spectrometry/– combined with chromatography, gas, applications 450
– mass spectrometry/– combined with chromatography, gas, applications 451
– mass spectrometry/– combined with chromatography, gas, applications 452
– mass spectrometry/–, instrumental and methodological developments 439
– mass spectrometry/–, instrumental and methodological developments 440
– mass spectrometry/–, instrumental and methodological developments 441
– mass spectrometry/–, thermal degradation reactions 441
– mass spectrometry/–, thermal degradation reactions 442
– mass spectrometry/–, thermal degradation reactions 443
Pyrolysis mass spectra
– biochemical differences observed in – of range grasses 153
– matrix influences on – of amylose using GC/MS 140
Pyropheophorbide a
– detmn. of pheophorbide a, – and phytol in foods by GC and TLC 477
5-Pyrrolidone-2-carboxylate ester
– anal. of – in tissues, animal by HPLC 167

Q

Quinidine
– detmn. of – in blood serum, comparison of methods 388
– detmn. of –, procainamide, acetylprocainamide, N- and disopyramide in blood plasma by HPLC 388
Quinine
– detmn. of – in blood serum by HPLC 580
– detmn. of – in hair by reversed-phase HPLC 567
Quinolinic acid
– assay of – in biological materials by fluorimetry 167
Quinone
– detmn. of – and hydroxyquinone by polarography as iodate 143

R

Radioimmunoassay
– bounding of proteins and hydroxylation rate of digitoxin, – 388
Radionuclides
– detmn. of – in marine phosphorites by γ-spectrometry 554
– sepn. of – from fission product elements by adsorption on diethyleneglycol succinate 376
Range grasses
– biochemical differences observed in pyrolysis mass spectra of – 153
Rapeseed oil
– detmn. of allyl isothiocyanate in mustard oil and – by spectrophotometry 478
Reagents
– detmn. of bromate in perchloric acid medium by spectrophotometry, new – 70
– detmn. of cobalt(II) by spectrophotometry, new – 463
– detmn. of iron and copper by spectrophotometry, new – 462
– detmn. of iron(II) by flow-injection anal./spectrophotometry, new – 462
– detmn. of iron in ores and alloys by spectrophotometry, new – 462
– examination of – for reducing selenium species in chemical anal. 372
Reagents, organic
– application of – to analytical chemistry, review 60
– influence of substituents in – on the metal-ligand bond stability 60
Reductase
– detmn. of – activity in plant extracts by coupled enzyme assay 561
Reference materials
– certification of – of minerals 552
Refractive index
– anal. of polymers by LC with – measurement 148
Refractory elements
– influence of buffers on the spectral line intensity for lanthanides, niobium, zirconium and – using blowing-in-arc technique 151
Regioselectivity
– in the chemical and enzymatic reactions between glutathione and phenylglycidyl ethers 85

Reproterol
– detmn. of – in blood plasma by HPLC/amperometry 93
Residue reviews
– , hydrocarbons, polycyclic aromatic, methyl bromide, book 130
– , vol. 86, book 50
– , vol. 89 534
Retinal
– detmn. of retinol, – and retinyl esters in biological materials by HPLC 253
Retinol
– detmn. of –, retinal and retinyl esters in biological materials by HPLC 253
Retinol-binding protein
– detmn. of –, proteins in blood serum by enzyme-linked immunosorbent assay 575
Retinols
– ident. of – in biological materials by HPLC 172
Retinyl esters
– detmn. of lycopene, carotene and – in blood serum by reversed-phase HPLC 172
– detmn. of retinol, retinal and – in biological materials by HPLC 253
Rhenium
– detmn. of – with 2,2′-diaminodiphenyl-disulfide by spectrophotometry 374
Rhodium
– detmn. of – by potentiostatic coulometry 464
Rhodium(III)
– detmn. of – in thermocouple wires with thiocyanate and rhodamine 6G by spectrophotometry 376
– detmn. of – with N-α(5-bromopyridyl)-N′-benzoyl thiourea by extractive spectrophotometry 612
Ribonucleosides
– sepn. of deoxyribonucleosides and – by isocratic reversed-phase HPLC 176
Rice
– detmn. of iodine in – by neutron activation anal. 474
Rifamycin
– detmn. of – in biological fluids by spectrophotometry 387
RNA
– detection of DNA and – on polyacrylamide and agarose gels by silver staining 175
tRNA
– sepn. of nucleosides, – by HPLC 480
Rocks
– accuracy of detmn. of gold in coarse-detrital – 150
– activation analysis, neutron of elements in – and minerals 150
– anal. of major and minor elements in phosphates – and related minerals by ICP-AES 551
– detmn. of aluminum in – and cement by spectrophotometry 151
– detmn. of cobalt, copper, nickel, lead and zinc in – by solvent extr. and AAS 152
– detmn. of cryolithe in – by ion-selective electrodes 553
– detmn. of lanthanides, niobium, zirconium, tantalum in alkaline – by spectrophotometry 151
– potassium peroxide as a flux in ores and – anal. 150
Rodenticides
– detmn. of warfarin, sulfaquinoxaline and fenitrothion in – by HPLC 159
Römpps encyclopedia
– of chemistry 453
Rubber
– anal. of urethane cross-linkers in – by HPLC 148
Rubidium
– sepn. of sodium, potassium, –, thallium and silver by extraction with β-diketones in MIBK 62
Rubidium benzenesulfonate
– as stationary phases in chromatography, gas 135
Ruthenium
– detmn. of osmium, – and iridium traces by chemiluminescence 376
– detmn. of – with propericiazine by spectrophotometry 464
Ruthenium(II) octaethylporphyrin
– detmn. of carbon monoxide with – 554
Ruthenocenophanes
– sepn. of ferrocenophanes and – by TLC 137
Rutile concentrates
– detmn. of admixtures in – by spectrometry, new spectral buffer 553

S

Saccharides
– sepn. of methylated – by LC on Sep-Pak cartridges 549
Saccharin
– detmn. of o-toluenesulfonamide in – by HPLC 477
Saikosaponins
– sepn. of – in plants by HPLC 155
Salicylaldehyde nicotinoylhydrazone
– detmn. of aluminum with – by spectrophotometry 369
Salicylamide
– detmn. of –, gentisamide and metabolites in biological fluids by HPLC 383
Salicylate
– anal. of phenytoin and – in blood plasma by LC 385
Salicylic acid
– detmn. of aspirin and – in blood plasma by HPLC 383
Salt
– detmn. of magnesium in common – by complexometry 473
Scandium
– detmn. of – as ion associate involving 5,7-dinitro-8-hydroxyquinoline by extr. fluorimetry 369
– enrichment of – traces by froth flotation 19
– Gmelin handbook, –, yttrium, rare earth elements, ion exchange and solvent extr., organometallic compounds 454
– sepn. of – with Amberlite LA-1 from malonate 65
Scopolamine hydrobromide
– detmn. of – and N-butyl scopolammonium bromide using liquid membrane electrodes 165
Scorpion venom
– ident. of amino acids in – by PC 170
Seawater analysis
– methods of –, book 453
Sediments
– anal. of lipids in marine – by HPLC and GC 554
– detection of hydrocarbons, polycyclic aromatic in – by HPLC and Shpol'skii effect fluorimetry 153
– detmn. of biphenyls, polychlorinated in – by high-resolution GC 564
– detmn. of organic contaminants in river – by extr. and GC 554
– detmn. of silver in marine – by Zeeman-corrected spectrometry, atomic absorption, electrothermal 554
– detmn. of the chemical forms of cadmium and silver in – by Zeeman flame AAS 151
– detmn. of volatile sulfide in – by colorimetry 554
Sediments
– digestion methods for detmn. of cadmium and lead in organic and silica-rich – 151
Seep-oils
– ident. of natural –, petroleum by IR spectrometry 144
Selectivity coefficients
– detmn. (automated) of detection limits and – of electrodes, ion-selective 58
– detmn. of – of electrodes, ion-selective 58
Selenium
– detmn. of –, arsenic and mercury in environmental samples by AFS 382
– detmn. of – by distillation and fluorimetry 69
– detmn. of – by hydride generation AAS 351
– detmn. of – in biological materials by AAS 166
– detmn. of – in biological materials by platform furnace AAS and Zeeman background correction 571
– detmn. of – in foods by AAS, testing of two methods 474
– detmn. of – in horse blood by hydride generation AAS 571
– detmn. of – in marine geological materials by fluorimetry 152
– detmn. of – in marine organisms using hydride generation EAAS 571
– detmn. of – in nickel-based materials by hydride AAS 375
– detmn. of – in pyrite as tri-p-tolylselenonium by extr. spectrophotometry 151
– examination of reagents for reducing – species in chemical anal. 372
– survey for sodium, potassium, barium, arsenic and – in drinking water supplies 557
Semicarbazones
– as acid-base indicators 61
Semiconductors
– anal. of high-purity metal oxides and – by spectrometry, with hollow cathode discharge 360
– detmn. of lead in – with iodide and malachite green by extr. spectrophotometry 468
Serine
– detmn. of – in blood by fluorimetry 573
– sepn. of phosphorylated tyrosine, threonine and – by polyamide TLC 169
Serotonin-O-sulfate
– detmn. of dopamine-O-sulfate, norepinephrin-O-sulfate and – by HPLC with dual-electrode detection 87
Sewage
– detmn. of chromium(VI) in – 559
– detmn. of volatile sulfur compounds in – system by GC 27
Sewage sludge
– certification of heavy metals in – 490
Shale oils
– sepn. of hydrocarbons of – by HPLC 470
Silica
– boronic acid substituted – for sepn. of nucleosides, cis-dioles from biological fluids by chromatography, HPLC 54
– study of – based stationary phases for reversed-phase chromatography, liquid, cation-exchange characteristics 53
– study of bonded – phases by adiabatic calorimetry 132
Silica gels
– charact. of bonded –, stationary phases for chromatography, gas 459
Silicate
– detmn. of reactive – in sea water by flow injection anal. 379
Silicate lump
– X-ray fluorescence anal. of – 76

Silicate rocks
– detmn. of gold in – and ores by coprecipitation with tellurium and neutron activation 150
– detmn. of iron and aluminum in alloys and –, ion-exchange sepn. on zirconium(IV) phospho and silico arsenates 73
– detmn. (simult.) of iron and titanium in – with dual-wavelength spectrophotometry 152
Silicates
– detmn. of silicon in silicon alloys and – by gravimetry via various produces 317
Siliceous materials
– direct anal. of solid samples, – by spectrometry, atomic absorption, electrothermal 551
Silicon
– detmn. of – by molecular emission cavity analysis 66
– detmn. of chromium besides – and tungsten by optimization of flame AAS 309
– detmn. of – in silicon alloys and silicates by gravimetry via various produces 317
– detmn. of phosphorus and antimony in – structures by a neutron activation method 375
– electron-microanal. of thin-layers of titanium on – substrates 75
– spectrophotometric layer-by-layer detmn. of phosphorus in – 75
Silicon alloys
– detmn. of silicon in – and silicates by gravimetry via various produces 317
Siliconorgano compounds
– anal. of – containing Cr, Sn and V by AAS 471
– ident. of – by GC without reference samples 470
Siliconorgano production
– detmn. of pyridine and piperidine in waste water of – 81
Silver
– detmn. of – and halides in glass by potentiometric titration 76
– detmn. of – and mercury(II) with chloramine T by electrodes, ion-selective 542
– detmn. of – based on a new kinetic-fluorometric method 62
– detmn. of – by AAS after solvent extr. by di-2-ethylhexylphosphoric acid 366
– detmn. of – by catalytic hydrolysis of hexachloroantimonate 63
– detmn. of copper and – in ppm solutions by electrodeposition ICP-AES 541
– detmn. of elements in – by AAS 374
– detmn. of – in copper products by extr./AAS 374
– detmn. of – in galvanic cyanide solutions by electrodes, ion-selective 76
– detmn. of – in marine sediments by Zeeman-corrected spectrometry, atomic absorption, electrothermal 554
– detmn. of – in mineral water by chemiluminescence 81
– detmn. of – in ores and concentrates by AAS 551
– detmn. of – in ores, concentrates, zinc process solutions, copper and alloys by AAS, extr. as tribenzylamine-silver bromide complex 374
– detmn. of – in sea water by coprecipitation and Zeeman graphite-furnace AAS 558
– detmn. of – in solution with a piezoelectric quartz crystal 366
– detmn. of iron, sulfate, – and cadmium by flow-injection anal. 462
– detmn. of lead, bismuth, antimony and – in steel by flame spectrometry, atomic absorption/flow-injection analysis 71
– detmn. of microamounts of –, lead and copper(II) by peak PC 366
Silver
– detmn. of –, tellurium and palladium in geological materials by MS isotope dilution 150
– detmn. of the chemical forms of cadmium and – in sediments by Zeeman flame AAS 151
– detmn. of – traces in mercury by voltammetry at HMDE 466
– sepn. of sodium, potassium, rubidium, thallium and – by extraction with β-diketones in MIBK 62
Silver cyanide
– detmn. of – and thiocyanate in galvanic electrolytes by ion-selective electrodes 469
Smoke mixtures
– anal. of dye mixtures, anthraquinone derived, red and violet – 149
Snake venom
– sepn. of cardiotoxins in – by HPLC 580
Snow
– detmn. of common ions at ultratrace levels in Antarctic – and ice by ion chromatography 557
Soap products
– detmn. of fatty acids in – and detergents by capillary GC 473
Sodium
– detection of – with zinc-uranyl acetate by spot test 541
– detmn. of – in butter by AAS 473
– detmn. of – in fertilizers by AAS 153
– detmn. of – in plant materials by neutron activation anal. 153
– sepn. of –, potassium, rubidium, thallium and silver by extraction with β-diketones in MIBK 62
– survey for –, potassium, barium, arsenic and selenium in drinking water supplies 557
Sodium dodecyl sulfate
– use of – in anodic-stripping complexometric titration 59
Sodium hydroxide
– detmn. of chloride in – and sulfuric acid by ion chromatography 468
Sodium thymolphthalein monophosphate
– detmn. of seminal phosphatase, acid using –, screening test 92
Soft drinks
– detmn. of heavy metals in commercial – by DPASV, automated 474
Soils
– certification of heavy metals in – 588
– detection of asulam, herbicides in – by TLC 158
– detmn. of 2,4-dichlorophenoxyacetic acid in – by capillary GC with ion-mobility detection 564
– detmn. of calcium and magnesium in – by spectrophotometry 153
– detmn. of nickel in alloys and – with cadion and 1,10-phenanthroline by extr. spectrophotometry 375
– N-containing pyrolysis products and amino acid composition of humic acids of – 553
– pH measurement in – by flow-injection anal. 553
Solamargine
– detmn. of –, solasonine, glycoalkaloids in plant extracts by HPLC 165
Solasonine
– detmn. of solamargine, –, glycoalkaloids in plant extracts by HPLC 165
Solder alloy
– detmn. of antimony in – by hydride generation AAS 502
Solid samples
– direct anal. of –, siliceous materials by spectrometry, atomic absorption, electrothermal 551
Solubility data
– series (IUPAG), sulfur dioxide, chlorine, fluorine and chlorine oxides 50
Solution equilibria
– treatise on analytical chemistry, –, book 129
Solvents
– detmn. of – in waste materials by GC 382
– detmn. of tributylphosphate and Hyfrane in – by HPLC 146
Sorbic acid
– anal. of technical – by TLC and GC 471
Sorbitan monolaurate
– detmn. of – in human blood serum by GLC 569
Sorption
– detmn. of – of zeolites by headspace method 468
Sorption concentrator
– anal. of high-boiling impurities in a – by GC 146
Spectra, IR
– pattern recognition applied to vapor-phase – 61
Spectral data
– tables of – for structure detmn. of organic compounds, book 453
Spectroelectrochemistry
– multichannel image detectors for use in – 57
– , thin-layer cell with long optical path length 363
Spectrometer, atomic absorption
– eliminating a flame – noise problem using Teflon burner nebulizer fittings 51
Spectrometer, atomic fluorescence
– multielement non-dispersive – using modulated sources 52
Spectrometer, photodiode-array
– solid-state – with optical feedback stabilization 360
Spectrometry
– anal. of high-purity metal oxides and semiconductors by –, with hollow cathode discharge 360
– anal. of metals and alloys by –, a.c. arc and high-frequency spark in air and argon 360
– anal. of mineral materials by –, with angled electrodes 360
– , multicomponent analysis with multi standard addition, partial least squares solution 51
– , multidimensional variance and discriminance analysis of spectrographical data 517
– , plots of dispersion vs. absorption for overlapped Gaussian peaks 362
Spectrometry, atomic absorption
– automation of –, graphite-furnace system with a Z80-based microcomputer 361
– continuous-dilution calibration technique for flame – 455
– detmn. (indirect) of organic compounds by – 455
– detmn. of chromium by –, N_2O-acetylene flame 546
– detmn. of lead, bismuth, antimony and silver in steel by flame –/flow-injection analysis 71
– detmn. of metals by –, conc. at cation exchange resin 51
– detmn. of nickel in fuel oils by – using emulsions 145
– electrostatic preconcentration system to identify interferences in – 51
– , imposed variance concept for the coeffficient of variation 51
– , improvement in the dispersion system 455
– in situ gaseous pre-treatment of liver extracts in – of cadmium and lead 165
– , microcomputer interface for rapid acquisition of data 360

Spectrometry, atomic absorption
– , transformation of a graphite furnace during anal. 361
– , Zeeman effect, correction methods 455
Spectrometry, atomic absorption, electrothermal
– anal. of trace elements in waste water by – with L'vov platform 80
– detmn. of lead in potable water by – with La matrix modification 80
– detmn. of mercury by –, photometric accessory 543
– detmn. of silver in marine sediments by Zeeman-corrected – 554
– direct anal. of solid samples, siliceous materials by – 551
– , optimization of atomization 51
Spectrometry, atomic emission
– detmn. of mercury vapor in air by arc-source – after preconcentration 377
– detmn. of metals in solid samples by –, YICP, evolved gas analysis 51
– multielement analysis in microliter samples by rapid scanning –, MIP 51
Spectrometry, atomic fluorescence
– detmn. of mercury by flow-injection analysis/– 455
– resonance laser-enhanced detection of photons in –, review 52
– with tungsten coil as atomizer 361
Spectrometry, emission
– detmn. of arsenic by hollow-cathode – 545
Spectrometry, ICP
– factors affecting the sample introduction system in – 360
Spectrometry, molecular absorption
– detmn. of bromide traces by – of AlBr 546
– detmn. of fluorine in blood serum by automated – 571
Spectrometry, NMR
– quant. – of phase-transfer catalysts 61
Spectrometry, NMR, ^{59}Co
– detmn. of isotope composition in protic solvents by – 61
Spectrometry, photoacoustic
– detmn. of metals as complex compounds by – 362
– study of metal complexes, praseodymium EDTA complex by – 52
Spectrometry, UV
– , coupled with desk-top computer 511
Spectrometry, X-ray
– , ^{241}Am sources 361
– detmn. of little admixtures in metals by –, excitation of accelerated ions 361
– , spectral intensity of radiation with anodes of medium type 361
Spectrometry, X-ray fluorescence
– , ^{71}Ge ring-source 455
– detmn. of elements in water by tertiary – 557
– detmn. of tin in geological materials by – 151
– , neutral addition method 455
Spectrophotometry, IR
– , equations, regression analysis 52
Spectrophotometry
– detmn. of phosphate in turbid aqueous samples by derivative – 545
– detmn. of trace metals by –, flow-injection analysis 59
– detmn. of ultratraces phosphate by – with a solid-state emitter 68
Spectrophotometry, thermal lens
– detmn. of uranium(VI) in water solutions by – 79
Spectroscopy
– anal. of natural coals by optical – methods, pecularities 143
Sphagnorubins
– screening of – of plants by TLC 155
Spot test
– detection of sodium with zinc-uranyl acetate by – 541
Standard materials
– spectrometry of – of ferrous metallurgy 360
Stannic arsenate
– sepn. of metal ions by chromatography, thin-layer on – layers 56
Stannic arsenoantimonate
– sepn. of metals on – as ion-exchangers 131
Starch
– detmn. of –, amylose and amylopectin in plant materials on glass fiber paper 154
Stationary phases
– bonded – surface study by LC and NMR 132
– bromophenyl ethers as – in chromatography, gas 135
– charact. of bonded silica gels, – for chromatography, gas 459
– columns with polyperfluoroalkyl ether as – in chromatography, gas 55
– cyclodextrins, acetylated as – in chromatography, gas 135
– immobilization of silicone – for capillary chromatography, gas with azoiso-butyronitrile 55
– nonextractable cyanopropyl polysiloxane – for capillary chromatography, gas 135
– polysiloxanes containing tolyl and cyanopropyl groups as – for chromatography, gas 459
– rubidium benzenesulfonate as – in chromatography, gas 135
– study of porous polymer bead as – in chromatography, gas, classification of polarity 459
– study of silica based – for reversed-phase chromatography, liquid, cation-exchange characteristics 53
Stearate
– detmn. of – and oleate in magnetic powders by potentiometry 467
Steel
– anal. of high speed –, phase anal. and phase composition 467
– anal. of thermal decomposition products of phosphate and oxalate coatings on – 467
– detmn. of aluminum in – with aluminon by spectrophotometry 467
– detmn. of arsenic by galvanostatic stripping anal., appl. to – 72
– detmn. of chromium(III) in – by spectrophotometry with tropolon 372
– detmn. of cobalt in – and nickel alloys by a.c. polarography 72
– detmn. of hydrogen in – by low-temperature extr. 71
– detmn. of lead, bismuth, antimony and silver in – by flame spectrometry, atomic absorption/flow-injection analysis 71
– detmn. of phosphorus and arsenic in – by extr. of their heteropolyacids 71
– detmn. of phosphorus in – and nickel alloys without matrix sepn. 71
– detmn. of tungsten(VI) traces in – by catalymetric titration 72
– detmn. of vanadium in – with 4-(1′H-1′,2′,4′-triazolyl-3′-azo)-2-methylresorcinol by spectrophotometry 467
– photokinetic detmn. of molybdenum in –, catalytic oxidation of o-aminophenol 72
Steoids
– detmn. of – in biological fluids by capillary GC 577
Stepper-motor controller
– a programmable positioning – 461
Steroid metabolites
– detmn. of – in urine by capillary packed LC as benzoyl derivatives 577
Steroids
– detection of anabolics, – in urine by capillary GC/MS 577
– detmn. of anabolics, – in biological fluids by capillary GC 577
– sepn. of – in blood plasma by HPLC 174
Sterols
– detmn. of tocopherols and – in fats and oils by capillary GC 82
Stoichiometry
– computerized plotting method for detmn. of – of complexes 460
Stratosphere
– detmn. of chlorine and bromine in the –, air by spectrometry, MIP 555
Streptomycin
– microbiolog. assay of gentamicin, – and neomycin by potentiometry, with CO_2 gas-sensing electrode 163
Striatal biolog. materials
– anal. of – by HPLC with chronoamperometric detection 569
Strontium
– detmn. of – in biological materials by AAS 570
Strontium sulfate
– coprecipitation of lanthanides with – in the presence of potassium 369
Styrene
– anal. of inoculated copolymers of – and divinylbenzene by pyrolytic GC 147
– detmn. of – in margarine by head-space GC, migration from polymer packings 82
Styrene oligomers
– sepn. of – by reversed-phase micro-HPLC 472
Styrene oxide
– sepn. of diastereomeric glutathione adducts of – by HPLC 85
Succineimidedioxime
– detmn. of manganese(II) by means of –, kinetic-ctalytic method 373
Sucrose
– detmn. of –, glucose and fructose in plant materials by HPLC 154
– detmn. of glucose and – using an invertase reactor with a glucose oxidase electrode 474
Sucrose esters
– anal. of – in glycerides by GC 474
Sugar alcohols
– detmn. of – in foods by HPLC with UV detection 475
Sugars
– detmn. of – as alditol benzoates by liquid-solid chromatography 140
Sulfamethoxazole
– detmn. of trimethoprim, – and metabolite in biological fluids by HPLC 579
– detmn. of trimethoprim, – in biological fluids by HPLC 96
Sulfaquinoxaline
– anal. of – in tissues, animal by HPLC 157
– detmn. of warfarin, – and fenitrothion in rodenticides by HPLC 159
Sulfarsazene
– complex formation of aluminum, gallium and indium with – 65
Sulfate
– detmn. of – by potentiometric and photometric titrations 69
– detmn. of – in sodium hydroxide solutions by FIA/spectrophotometry 546
– detmn. of iron, –, silver and cadmium by flow-injection anal. 462
– detmn. of nitrate, chloride and – in drinking water by capillary free-zone electrophoresis 78
– detmn. of nitrate, nitrite, phosphate, chloride, – in vegetables by ion chromatography 121
– detmn. of phosphate and – by anion-exchange/AAS 69

Sulfate
– detmn. of –, sulfite and dithionate mixtures by potentiometric titration using lead ion-selective electrode 372
Sulfide
– detmn. of – by electrodes, ion-selective 69
– detmn. of volatile – in sediments by colorimetry 554
Sulfinpyrazone
– detmn. of – in blood plasma and urine by HPLC 383
Sulfisoxazole
– detmn. of – in pharmaceutical products by reversed-phase HPLC 163
Sulfite
– continuous detmn. of – in beverages by second-derivative spectrophotometry 81
– detmn. of – in wines by UV absorption spectrometry 474
– detmn. of sulfate, – and dithionate mixtures by potentiometric titration using lead ion-selective electrode 372
Sulfochlorophenolazorhodanine
– acido complexes of platinum and their reactions with – and tyrodine 465
Sulfonamides
– detmn. of – in meat, swine liver by spectrophotometry, errors by anthranilic acid 83
Sulfonates, aromatic
– sepn. of – by high-voltage electrophoresis in dimethylformamide 141
Sulfones, aromatic
– detmn. of – by bromatometric titration 142
Sulfonitrazo E
– detmn. of titanium(IV) with – by spectrophotometry 544
Sulfur
– detmn. of – in cosmetics by ion chromatography 567
– detmn. of – in fly ashes and fuel oils standards by radiochem. NAA 377
– detmn. of nitrogen, oxygen, fluorine, phosphorus, – and chlorine in aluminum alloys by NAA 73
– detmn. of total – in plant materials by X-ray spectrometry 154
– retention of – homocycles in reversed-phase HPLC 327
Sulfur anions
– detmn. of – by LC, detection of individual species 69
Sulfur compounds
– detection of – in chromatography, gas with fluorine induced chemiluminescence detector 55
– detmn. of volatile – in sewage system by GC 27
Sulfur-containing substances
– sepn. of –, amino acids and nucleotides by gel filtration 85
Sulfur dioxide
– distant analysis of – in air with correlations spectroscopic method 555
– solubility data series (IUPAG), –, chlorine, fluorine and chlorine oxides 50
Sulfuric acid
– detmn. of chloride in sodium hydroxide and – by ion chromatography 468
Sulfurorgano compounds
– detmn. of distribution coefficients of – in air/water systems by head space GC 548
– detmn. of halogenorgano compounds and – in water by group parameters 560
Sulthiame
– detmn. of – in blood plasma by HPLC 531
Sunflower seed
– detmn. of moisture in – by Karl Fischer titration 475
Surfactants
– detmn. of impurities in –, potassium 5,8-diisopropyl-2-naphthalenesulfonate by NMR 473
– detmn. of – using halide ion-selective electrodes 149
Surfactants, amphoteric
– anal. of – by LC, post-column detection 149
– structural anal. of – after hydrolysis 472
Surfactants, cationic
– structural anal. of imidazolinium – 472
Surfactants, non-ionic
– detmn. of – with iron(III) thiocyanate by extr. spectrophotometry 472
Sweat
– anal. of components of – by laser desorption MS 569
Sweets
– detmn. of menthol in – by GC 478
Swine liver
– detmn. of sulfonamides in meat, – by spectrophotometry, errors by anthranilic acid 83
Swine manure
– anal. of odorous components in – by GC 562
Synergic systems
– involving alkylphosphoric acids, review 61

T

Tannic acids
– anal. of gallic acids in – by HPLC 143
– anal. of – in plants by HPLC 154
Tantalum
– detmn. of lanthanides, niobium, zirconium, – in alkaline rocks by spectrophotometry 151
– extr. of niobium, – and titanium using NH_4F 59
Tea
– detmn. of elements in – leaves by INAA 82
Technical solutions
– detmn. of uranium in – by automatic spectrophotometry 599
Tellurium
– detmn. of silver, – and palladium in geological materials by MS isotope dilution 150
– Gmelin handbook, – 50
Terbium
– detmn. of – in solutions containing other lanthanides by fluorimetry 66
Terpenes, oxygenated
– sepn. of – by LC, optimization of mobile phase by TLC 243
Terphenyls
– formation of isomeric – and triphenylene by pyrolysis of benzene 146
Tetraalkyllead compounds
– electrostatic capture of gaseous – from air and their detmn. by EAAS 555
Tetrachloroethylene
– detmn. of – in tissues, animal (poultry) by GC 562
Tetrachloropalladate(II)-cacotheline
– detmn. of carbon monoxide with – by spectrophotometry 555
Tetrahydroaminoacridine
– detmn. of – in tissues, animal by HPLC/Sep-Pak C_{18} extr. 387
Δ^9-Tetrahydrocannabinol
– detmn. of – in cannabis by GC 568
Tetrahydroisoquinolines
– study of – and degradation of tetrahydropapaveroline by HPLC 388
Tetrahydropapaveroline
– study of tetrahydroisoquinolines and degradation of – by HPLC 388
Thallium
– detmn. of gold and – using solvent extr. 366
– detmn. of – in cadmium and lead by graphite furnace AAS with platform 71
Thallium
– detmn. of indium and – by hydride generation AAS 544
– detmn. of – in lead salts by DPASV 468
– detmn. of – in waste water by EAAS, matrix-modification 558
– detmn. of – with ferroin or diethyldithiocarbamate by reverse isotope dilution anal. 66
– sepn. of sodium, potassium, rubidium, – and silver by extraction with β-diketones in MIBK 62
Thallium(III)
– detmn. of ascorbic acid in fruits and pharmaceutical products by titration with – 477
Theophylline
– detmn. of – and caffeine in blood plasma by HPLC 580
Thermal methods
– treatise on analytical chemistry, –, book 358
Thermal neutron absorption analysis
– detmn. of cadmium in zinc ores by – 150
Thermocouple wires
– detmn. of rhodium(III) in – with thiocyanate and rhodamine 6G by spectrophotometry 376
Thermonuclease
– detection of staphylococal – and coagulase in foods by enzymatic anal. 478
Thiabendazole
– detmn. of – in foods by TLC/GLC 276
Thiamine
– detmn. of – in foods as thiochrome by fluorimetry 477
– detmn. of total – in biological fluids by HPLC 172
2-(2-Thiazolylazo)-4-methyl-5-(sulfopropylamino)benzoic acid
– detmn. of copper(II) with – by flow-injection anal. 63
Thin-layers
– electron-microanal. of – of titanium on silicon substrates 75
– spark source mass spectrometry of –, high-purity water 53
Thiocyanate
– detmn. of molybdenum with – and amides by extr. spectrophotometry 546
– detmn. of silver cyanide and – in galvanic electrolytes by ion-selective electrodes 469
Thioglycolic acid
– detmn. of iron with – by spectrophotometry 462
Thiols
– detmn. of amino acids, imino acids and – by LC post-column derivatization with 4-fluoro-7-nitrobenzo-2,1,3-oxadiazole 88
– detmn. of – and hydrazines with electrogenerated iodine by coulometry 138
Thio-Michler ketone
– investigation of the reactions between mercury (I, II) and – 368
Thiosemicarbazide
– detmn. of – by titration as sulfonamide complexes 548
Thiourea dioxide
– anal. of technological solutions in the – synthesis by spectrophotometry 471
Thorium
– electrodeposition of – for alphaspectrometry 45
Thorium(IV)
– solvent extr. and sepn. of – from lanthanides 543
– solvent extr. studies of – with Aliquat 336 369
Threonine
– sepn. of phosphorylated tyrosine, – and serine by polyamide TLC 169

Thromboxanes
– sepn. of prostaglandins and – by chromatography, thin-layer, alkylsilane modified silica 577
– sepn. of prostaglandins, –, 6-keto-prostaglandin $F_1\alpha$, arachidonic acid metabolites in biological materials by TLC 172
Thymosin α1
– isolation of – from thymus extract by HPLC 175
Thymus extract
– isolation of thymosin α1 from – by HPLC 175
Thyronine
– sepn. of tyrosine, –, thyroxine and their iodo derivatives by reversed-phase LC with electrochem. detection 175
Thyroxine
– sepn. of tyrosine, thyronine, – and their iodo derivatives by reversed-phase LC with electrochem. detection 175
Tiazofurin
– detmn. of – in blood serum by TLC/HPLC 387
Tin
– detmn. of – and methyltin in water by hydride generation graphite-furnace AAS and AES 558
– detmn. of – by graphite furnace AAS, influence of the composition of solutions 67
– detmn. of – in biological materials by tin iodide-anodic stripping voltammetry 570
– detmn. of – in geological materials by spectrometry, X-ray fluorescence 151
– detmn. of – in geological materials by EAAS 552
– detmn. of – in tin ores using flotation and RFA 552
– sepn. of – from metals by extr.-chromatography 67
Tin(II)
– detmn. of – by coulometry with Fe(III) 544
Tin(IV)
– detmn. of – with 5-(2-pyridylazo)-2-monoethyl-aminoparacresol by extr.-spectrophotometry 67
– photometric reactions between – and organic reagents in the presence of third components 370
– sepn. of – and indium by extr. with Alamine-335 67
Tissues
– anal. of folate cofactor in – by HPLC 173
– detmn. of enzyme, angiotensin-converting in blood and – by HPLC 91
– detmn. of α-tocopherol in – and blood plasma by HPLC 173
– detmn. of enkephalins, β-endorphins and small peptides in – by HPLC/electrochem. detection 89
– detmn. of gold in – and blood by cold ashing/AAS 86
– detmn. of imidazole acetic acid in – by enzymatic anal. 87
– detmn. of methylthioadenosine in – by HPLC 480
– detmn. of uranium and plutonium in – 86
Tissues, animal
– anal. of 5-pyrrolidone-2-carboxylate ester in – by HPLC 167
– anal. of sulfaquinoxaline in – by HPLC 157
– detmn. of adiphenin, diphenylacetic acid and diethylaminoethanol in – by HPLC 388
– detmn. of amines, biogenic in – by HPLC 168
– detmn. of astemizole and metabolites in blood plasma, – by HPLC 579
– detmn. of diethylstilbestrol in urine, – and meat by fluorimetry 83
Tissues, animal
– detmn. of flavin-adenine-dinucleotide in – and bacteria by luminometric anal. 481
– detmn. of propylene thiourea in – by GLC 158
– detmn. of tetrachloroethylene in – (poultry) by GC 562
– detmn. of tetrahydroaminoacridine in – by HPLC/Sep-Pak C_{18} extr. 387
– sepn. of adenine and adenosylsulfur compounds in – by HPLC 479
Titanium
– detmn. of trace – using differential pulse polarography 67
– detmn. (simult.) of iron and – in silicate rocks with dual-wavelength spectrophotometry 152
– electron-microanal. of thin-layers of – on silicon substrates 75
– extr. of niobium, tantalum and – using NH_4F 59
– sepn. of –, zirconium and hafnium as pentamethylcyclopentadienyl dichlorides by HPLC 68
– valence state and ligand atom effects in – K X-ray spectra 544
Titanium(IV)
– detmn. of – with 4-nitrobenzene S by spectrophotometry in acetic medium 370
– detmn. of – with mannitol by spectrophotometry 544
– detmn. of – with sulfonitrazo E by spectrophotometry 544
Titanium dioxide
– detmn. of lead in – by anodic stripping voltammetry 75
Titanium tetrachloride
– ident. of titanium oxychlorides in – by gel chromatography 75
Tobacco
– sampling and investigation of foods, –, cosmetics, official collection 130
Tocainide
– assay of – enantiomers in urine by GC, chiral capillary column 94
α-Tocopherol
– detmn. of – in tissues and blood plasma by HPLC 173
Tocopherols
– detmn. of – and sterols in fats and oils by capillary GC 82
Tolerance values
– of hazardous substances in biological materials, book 357
Toloxatone
– detmn. of – in blood plasma by GLC/NPD 93
Toluenesulfonamide
– detmn. of o– in saccharin by HPLC 477
Tomatoes
– sepn. of isolectins from – by chromatofocusing 475
Tomato juices
– detmn. of ascorbic acid in citrus juices and – with "sandwich"-indicator sticks 477
Toxicity
– study of – of environmental substances by electrophoresis 382
Toxic metals
– detmn. of –, metals in water and waste materials by graphite cuvette AAS 382
Toxicological analysis
– by TLC and HPLC 255
– concentration-dependent retention behavior in capillary chromatography, gas, – 568
Toxicology
– instrumental anal. in –, book 533
Trace analysis
– clean-up-steps in chromatography in – 302
– enrichment techniques for inorganic –, book 533
Trace analysis
– in coupled systems, total transfer of traces from packed to capillary columns in chromatography, gas 458
Trace elements
– anal. of – in waste water by spectrometry, atomic absorption, electrothermal with L'vov platform 80
– detmn. of – in coals by AAS 144
– detmn. of – in geological materials by flameless AAS 551
– detmn. of – in graphite by spectrometry, ICP-AES, chelating resin preconc. 74
– detmn. of – in high purity germanium tetrachloride by spark source-MS 402
– detmn. of – in manganese nodules and plant materials by ion-exchange chromatography 343
– detmn. of – in pharmaceutical products, tablets using ASV 565
– detmn. of – in water by AAS and ICP-AES 380
Trace metals
– detmn. of – by spectrophotometry, flow-injection analysis 59
– detmn. of –, copper in apatite by anion exchangers and spectrophotometry 131
– detmn. of – in magnesium compounds by differential pulse polarography 467
Tranexamic acid
– detmn. of – with chloranil by spectrophotometry 566
Transferrin^c subtypes
– detection of – by isoelectric focusing 575
Transferrins
– sepn. of – in blood plasma by HPLC 90
Triamantanone
– detmn. of carbonyl groups position in – by ^{13}C-NMR spectroscopy 354
Triazolam
– assay of – in blood plasma and urine by capillary GC 94
Triazolo-benzodiazepines
– detmn. of – in pharmaceutical products by HPLC 162
Tributylphosphate
– detmn. of – and Hyfrane in solvents by HPLC 146
Trichothecenes
– ident. and detmn. of – by capillary GC 84
Triethylenetetramine
– investigation of the complex of mercury(II) with – 368
– investigation of the protonation of – by means of a glass electrode 145
Trifluoroacetylacetone
– detmn. of geometrical isomers of metal chelates of benzoylacetone and – by HPLC 458
Trifluralin
– detmn. of nitroso-di-n-propylamine in – products by GC with NPD 159
Triglycerides
– detmn. of hydrocarbons, fatty acid derivatives, cholesterol esters, wax esters, – in beeswax by GLC 410
– sepn. of – and brominated triglycerides by reversed-phase HPLC 476
– sepn. of – in fats and olive oil by TLC 476
Triisoamyl phosphate
– extr. of uranium(VI) from aqueous nitrate solution with – 370
Trimethoprim
– detmn. of –, sulfamethoxazole and metabolite in biological fluids by HPLC 579
– detmn. of –, sulfamethoxazole in biological fluids by HPLC 96

Trimethylamine
– detmn. of dimethylamine and – in fish by GC 83
Trimethyllead(IV)
– detmn. of lead and – in water by differential pulse polarography 381
Trinitrobenzene-1-sulfonic acid
– polarographic reduction of 2,4,6— and trinitrophenyl-amino acid derivatives 549
Trinitrophenyl-amino acid derivatives
– polarographic reduction of 2,4,6-trinitrobenzene-1-sulfonic acid and – 549
Triphenylene
– formation of isomeric terphenyls and – by pyrolysis of benzene 146
Triphenyltinchloride
– detmn. of fluoride by two-phase titration with –, X-ray fluorescence endpoint 546
Tripolyphosphates
– detmn. of – using tris(ethylenediamine)cobalt(III) chloride and potassium ferricyanide by potentiometry 69
Tryptophan
– sepn. of tyrosine, – and phenylalanine derivatives by TLC 169
TSK-Gel CM-Toyopearl 650
– study of –, ion-exchangers for chromatography, liquid 131
Tungsten
– detmn. of – as tungsten blue by extr. spectrophotometry 546
– detmn. of – by catalytic polarography with chlorate and mandelic acid 373
– detmn. of chromium besides silicon and – by optimization of flame AAS 309
– detmn. of – in geological materials with dithiol by spectrophotometry 152
– detmn. of iron(III) traces in – by catalytic polarography, use of peroxodisulfate 71
– sepn. of zirconium and – from other metals by TLC 544
Tungsten(VI)
– detmn. of – traces in steel by catalymetric titration 72
Tungsten ores
– phase analysis of – 552
Tungstic acid
– detmn. of phosphorus in – by extr. photometry 468
Tylosin
– detmn. of – in feeds by HPLC 562
Tyrodine
– acido complexes of platinum and their reactions with sulfochlorophenolazorhodanine and – 465
Tyrosine
– detmn. of L-dopa, 6-hydroxydopa and – by LC, with voltammetric detection 162
– sepn. of phosphorylated –, threonine and serine by polyamide TLC 169
– sepn. of –, thyronine, thyroxine and their iodo derivatives by reversed-phase LC with electrochem. detection 175
– sepn. of –, tryptophan and phenylalanine derivatives by TLC 169
– structure-ionization relationship of —containing peptides 89

U

UDP-sugars
– sepn. of 4′-epimeric – by borate HPLC 87
Unithiol
– investigation of ion associates of – complexes of arsenic(III) with basic dyes 545
Uracil arabinoside
– detmn. of cytosine arabinoside, –, nucleosides in biological fluids by HPLC 175
Uranium
– detmn. of – and plutonium in nuclear fuels by sequential potentiometric titration 376
– detmn. of – and plutonium in tissues 86
– detmn. of – in aqueous samples by fluorimetry, pulsed-source fluorescence spectrometer 370
– detmn. of – in ores by spectrophotometry 551
– detmn. of – in sea water by INAA 79
– detmn. of – in technical solutions by automatic spectrophotometry 599
– detmn. of – in water by adsorptive voltammetry, stripping 79
– detmn. of – traces in natural waters by spectrometry, ICP-OES, XRFA 1
– Gmelin handbook, –, compounds with C and Si 533
Uranium(VI)
– detmn. of – in water solutions by spectrophotometry, thermal lens 79
– extr. of – from aqueous nitrate solution with triisoamyl phosphate 370
Uranium-235/uranium-238 ratio
– detmn. of – in water by NAA after Chelex 100 sepn. 79
Uranium carbide
– detmn. of carbon in – and uranium oxide by manometry 46
Uranium isotopes
– detmn. of – by γ-spectrometry and X-ray fluorescence 376
Uranium oxide
– detmn. of carbon in uranium carbide and – by manometry 46
– detmn. of rare earths in – by spark source MS 12
Urea
– detmn. of –, carbamates and anilides, herbicides by reversed-phase TLC 157
– detmn. of – in blood serum with a urease reactor/ion-selective electrode 86
Urethane cross-linkers
– anal. of – in rubber by HPLC 148
Uric acid
– detmn. of – in blood serum by reversed-phase HPLC 572
– detmn. of – in grains and cereals by HPLC 475
– detmn. of –, xanthine, hypoxanthine, allopurinol, oxipurinol, orotic acid, orotidine and creatinine in biological fluids by HPLC 175
Urine
– anal. of 3-methoxy-4-hydroxymandelic acid in – by HPLC 167
– anal. of cardiotonic agents, MDL 19,205 in blood plasma and – by HPLC 578
– anal. of copovithane and methylamine in blood and – by HPLC 96
– anal. of ifosfamide in blood plasma and – by GC/ECD 387
– anal. of sulfated 7α-hydroxy bile acids in –, enzymatic detection 91
– assay of tocainide enantiomers in – by GC, chiral capillary column 94
– assay of triazolam in blood plasma and – by capillary GC 94
– detection of 2-ethyl-3-oxohexanoic acid and 4-heptanone in blood serum and – by GC 572
– detection of anabolics, steroids in – by capillary GC/MS 577
– detect. of narcotic analgesics in blood and – by TLC 580
– detmn. of 2,8-dihydroxyadenine in – by HPLC 175
– detmn. of (3-methoxy-4-hydroxyphenyl)glycol in – by two-dimensional LC 96
Urine
– detmn. of 5-benzoyl-2,3-dihydro-6-hydroxy-1H-inden-1-carboxylic acid in blood plasma and – by GC/ECD 384
– detmn. of 6β-hydroxycortisol in –, index of enzyme induction 174
– detmn. of acetone and acetoacetic acid in – by GC 571
– detmn. of amines, aromatic, in – by HPTLC 271
– detmn. of anabolics in – of cattle by GC/MS 562
– detmn. of atenolol in blood plasma and – by HPLC 383
– detmn. of azapropazone and its 6-hydroxy metabolite in blood plasma and – by HPLC 384
– detmn. of calcium in – by direct EAAS with the L'vov platform 570
– detmn. of catecholamine metabolites and 5-hydroxyindoleacetic acid in – by capillary GC 573
– detmn. of catecholamines in – by HPLC/electrochem. detection 88
– detmn. of catecholamines in – by ion-exchange LC/electrochem. detection 572
– detmn. of catecholamine sulfoconjugate isomers in – by HPLC/photometry 87
– detmn. of cisplatin in – by HPLC 96
– detmn. of cortisol in blood plasma and – by affinity HPLC 174
– detmn. of diethylstilbestrol in –, tissues, animal and meat by fluorimetry 83
– detmn. of disopyramide in blood plasma and – by HPLC 94
– detmn. of epinephrine, norepinephrine and dopamine in – by HPLC 95
– detmn. of flurazepam in – by TLC, improved screening 95
– detmn. of glucaric acid, D- in – by enzymatic anal. at low pH 167
– detmn. of glucaric acid in – by HPLC 575
– detmn. of heptaminol in blood plasma and – by HPLC 93
– detmn. of hydrazines in – by LC with electrochem. pretreated glassy carbon electrodes 86
– detmn. of hydroxyphenytoin in – by HPLC 386
– detmn. of indomethacin and metabolite in blood plasma and – by GC 384
– detmn. of lysozyme in blood serum and – by turbidimetry 484
– detmn. of major metamizole metabolites in blood serum and – by TLC 93
– detmn. of metabolites of catecholamines in – by TLC-spectroscopy 273
– detmn. of nafazatrom in blood plasma and – by HPTLC/HPLC 267
– detmn. of nomifensine and metabolites in – by TLC 386
– detmn. of polyamines in blood serum and – by ion-pairing HPLC 168
– detmn. of polyols in – and blood serum by GC/MS 171
– detmn. of porphyrins in – by HPLC, tributylphosphate coated column 91
– detmn. of procainamide and N-acetyl metabolite in blood serum and – by TLC 385
– detmn. of protein in – by spectrophotometry, comparison of 4 methods 90
– detmn. of steroid metabolites in – by capillary packed LC as benzoyl derivatives 577
– detmn. of sulfinpyrazone in blood plasma and – by HPLC 383
– detmn. of vanillylmandelic acid and p-hydroxymandelic acid in – by UV-spectrophotometry/generalized standard addition 87

Urine
– detmn. of volatile carboxylic acids in blood and – by GC 167
– detmn. of zomepirac and metabolite in – by HPLC 383
– ident. of chlorophenols in – by GC/MS, SIM 96
– ident. of propafenone metabolite in – by HPLC and GC/MS 579
– sepn. of kallikrein in – by HPLC with enzyme detector 176
Uronic acids
– detmn. of – in alginates by HPLC 171

V

Valproic acid
– detmn. of – in blood serum by GLC 386
– detmn. of – in blood serum by GLC/NPD 94
Vanadium
– detmn. of – by oxidation of pyrogallol red by spectrophotometry 545
– detmn. of – (III and IV) with gallocyanine by amperometry 371
– detmn. of – in sea water by AAS, extr. as thiocyanato complex 381
– detmn. of – in sea water by AAS, extr. for preconcentration 80
– detmn. of – in sea water by X-ray fluorescence spectrometry 80
– detmn. of – in steel with 4-(1′H-1′,2′,4′-triazolyl-3′-azo)-2-methylresorcinol by spectrophotometry 467
Vanadium(V)
– detmn. of – and iron(III) by kinetic potentiometric method 372
– detmn. of – in the presence of acetic acid or an azide by spectrophotometry N-hydroxy-N,N′-diarylbenzamidines as selective extractants 372
– detmn. of – with chlorobenzohydroxamic acid, o- by extr. spectrophotometry 545
Vancomycin
– detmn. of – as Cu(II)-chelate by continuous flow amperometric detection 163
Vanillylmandelic acid
– detmn. of – and p-hydroxymandelic acid in urine by UV-spectrophotometry/generalized standard addition 87
Variance and discriminance analysis
– spectrometry, multidimensional – of spectrographical data 517
Vegetables
– detmn. of alternaria mycotoxins, altenuene, alternariol in fruits and – by GC/MS 419
– detmn. of carbamates, insecticides in fruits and – by capillary GC 157
– detmn. of nitrate, nitrite, phosphate, chloride, sulfate in – by ion chromatography 121
– detmn. of phosphorus in –, mineralization with molten alkali 473
– sepn. of organic acids in fermented – by HPLC 475
Venom enzymes
– sepn. of – by LC 484
Verapamil
– assay of – in biological fluids by ion-exchange HPLC 385
Vessel materials
– stability of – for decomposition procedures 461
γ-Vinyl-γ-aminobutyric acid
– detmn. of – enantiomers in body fluids by GC/MS 169
Viomellein
– sepn. of xanthomegnin and – in natural products by HPLC 156
Vitamin A
– detmn. of – in feeds, effects of grinding and storage 156
Vitamin B_6
– derivatization of – with 2,6-dibromoquinone-4-chlorimide for UV detection/HPLC 477
Vitamin D_2
– detmn. of –, vitamin D_3 and 25-hydroxy derivatives in human milk by HPLC 173
Vitamin D_3
– detmn. of vitamin D_2, – and 25-hydroxy derivatives in human milk by HPLC 173
Vitamin K_1
– detmn. of – in foods by reversed-phase HPLC 477
Vitamin D_3-metabolites
– sepn. of – by HPLC 173
– sepn. of – by HPTLC 173
Vitamins
– detmn. of – in foods by HPLC 287
Vitamin U
– detmn. of – in biological materials by GC 174
Volatile compounds
– anal. of – in cigarette smoke condensate by LC/GC-MS 479
– detmn. of – in plastics by GC/MS 472
– enfleurage chromatography, a new technique for ident. of – in small sample of plants 566
Voltammetric instrumentation
– controlled by two microcomputers 57
Voltammetric stripping
– complexometric titration controlled by anodic-stripping methods, – 59
Voltammetry
– charact. of electrodes, graphite-coated in – 57
Voltammetry, anodic stripping
– copper-zinc and copper-cadmium intermetallic compounds in – 64
– pyrolytic carbon film electrode for – 363
Voltammetry, stripping
– detmn. of uranium in water by adsorptive – 79
Voltammetry, subtractive differential pulse
– , adsorptive accumulation of organic compounds 57

W

Warfarin
– detmn. of – in blood plasma by HPLC 577
– detmn. of –, sulfaquinoxaline and fenitrothion in rodenticides by HPLC 159
Waste materials
– detmn. of solvents in – by GC 382
– detmn. of toxic metals, metals in water and – by graphite cuvette AAS 382
Waste water
– anal. of dehydroabietic acid in – by HPLC 473
– anal. of trace elements in – by spectrometry, atomic absorption, electrothermal with L'vov platform 80
– charact. of biologically treated – 559
– detmn. of aniline and derivatives in – by GC and HPLC 81
– detmn. of cadmium and zinc in –, comparison of polarography and stripping voltammetry 81
– detmn. of chlorophenols in water, – by GLC/ECD 381
– detmn. of copper(II) and zinc in – as porphine derivatives by HPLC 380
– detmn. of copper, zinc, manganese and iron in – by stripping voltammetry 557
– detmn. of metal ions in – by X-ray fluorescence spectrometry 380
– detmn. of nitrite in – with 4,5-dihydroxy-coumarin 379
– detmn. of pyridine and piperidine in – of siliconorgano production 81
– detmn. of thallium in – by EAAS, matrix-modification 558
Waste water
– detmn. of total cyanide in thiocyanate-containing – by spectrophotometry or potentiometry 79
– preconc. of organophosphorus pesticides from tap water and – on graphitized carbon black 158
Water
– detmn. of alkali metals and alkaline earth metals in – by ion-chromatography/coulometry 380
– detmn. of alkalinity and total carbonate in sea – by automatic titration 379
– detmn. of ammonia and ammonium in – by flow-injection anal. 78
– detmn. of ammonia in – by continuous fluorimetry 78
– detmn. of – and hydroxide in clay minerals by Erba-CHNO-analyzator 347
– detmn. of anions in airborne particulates and rain – by ion chromatography 377
– detmn. of anions in environmental – by nonsuppressed ion chromatography 380
– detmn. of anions, inorganic in –, comparison of methods 557
– detmn. of arsenic compounds in – by AAS/hydride generation 80
– detmn. of bromide in fresh – after chromatographic enrichment 559
– detmn. of C_2–C_8 carboxylic acids in – by HPLC with conductivity detection 381
– detmn. of cadmium and lead in natural – by EAAS 434
– detmn. of cadmium and zinc traces in – by AAS, graphite rod 380
– detmn. of cadmium in – by extr. preconcentration and AAS 380
– detmn. of chlorophenols in –, waste water by GLC/ECD 381
– detmn. of chromium(VI) in ground – by electrothermal AAS, selective 381
– detmn. of copper(II) in – by spectrophotometry 541
– detmn. of cyanide in – by AAS, indirect 559
– detmn. of dissolved oxygen in – 378
– detmn. of dissolved oxygen in – by iodometry 78
– detmn. of dissolved total phosphorus in brackish anoxic – by spectrophotometry 559
– detmn. of elements in – by tertiary spectrometry, X-ray fluorescence 557
– detmn. of halogenorgano compounds and sulfurorgano compounds in – by group parameters 560
– detmn. of herbicides in – by GC/MS, chromatographic extr. for enrichment 157
– detmn. of hydrocarbons, polycyclic aromatic in lake – by HPLC with fluorometric detection 382
– detmn. of – in an aluminum chloride ionic liquid by voltammetry 75
– detmn. of – in ethanol and acetone by direct injection enthalpimetry 470
– detmn. of – in ethanol and moist air by GC 470
– detmn. of – in foods by filament hygrometer 81
– detmn. of – in organic solvents with bromocresolgreen by spectrophotometry 470
– detmn. of lead and trimethyllead(IV) in – by differential pulse polarography 381
– detmn. of lead and zinc in sea – by extr.-AAS 80
– detmn. of lead in potable – by AAS with matrix modification 558
– detmn. of lead in potable – by spectrometry, atomic absorption, electrothermal with La matrix modification 80

Water
– detmn. of lead in sea – by graphite furnace AAS/electrolytic preconcentration 381
– detmn. of manganese at ng/ml levels in natural – by differential pulse polarography 80
– detmn. of manganese(II) in – using 3-cyano-formazan oxidation by catalytic-kinetic spectrophotometry 547
– detmn. of mercury in –, humic acid as sample storing preservative 380
– detmn. of methyl-2-pyrrolidine, N- in – by HPLC 382
– detmn. of molybdenum in sea – by spectrophotometry 559
– detmn. of nitrate, chloride and sulfate in drinking – by capillary free-zone electrophoresis 78
– detmn. of nitrate in lake – by LC 379
– detmn. of nitrite in natural – by flow injection anal. 379
– detmn. of nitrophenols in – by HPLC 381
– detmn. of ozone in – by amperometry, continuous analyzer 379
– detmn. of ozone in – by indirect photometry 379
– detmn. of petroleum hydrocarbons in – und mussels 559
– detmn. of phenol in polluted – by extr. spectrophotometry, via oxidative coupling using o-toluidine 381
– detmn. of phosphate in polluted – by extr. of molybdenum blue 379
– detmn. of reactive silicate in sea – by flow injection anal. 379
– detmn. of silver in sea – by coprecipitation and Zeeman graphite-furnace AAS 558
– detmn. of tin and methyltin in – by hydride generation graphite-furnace AAS and AES 558
– detmn. of total chromium in sea – by AAS 80
– detmn. of toxic metals, metals in – and waste materials by graphite cuvette AAS 382
– detmn. of trace elements in – by AAS and ICP-AES 380
– detmn. of trace heavy metals in – by extr. ICP-AES 557
– detmn. of trace mercury in –, enrichment on gold collector 498
– detmn. of traces of –, hydroxide and oxide in metal halide salts by coulometric Karl Fischer titration 467
– detmn. of traces of mercury and barium in mineral-containing – by selective retention on ion-exchange paper and X-ray fluorecence 558
– detmn. of uranium-235/uranium-238 ratio in – by NAA after Chelex 100 sepn. 79
– detmn. of uranium in – by adsorptive voltammetry, stripping 79
– detmn. of uranium in sea – by INAA 79
– detmn. of uranium(VI) in – solutions by spectrophotometry, thermal lens 79
– detmn. of uranium traces in natural – by spectrometry, ICP-OES, XRFA 1
– detmn. of vanadium in sea – by AAS, extr. for preconcentration 80
– detmn. of vanadium in sea – by AAS, extr. as thiocyanato complex 381
– detmn. of vanadium in sea – by X-ray fluorescence spectrometry 80
– extr. of gold and mercury from sea – with bismuth diethyldithiocarbamate prior to NAA 380
– fish test in – on the basis of the avoidance reaction 559
– lead extr. from natural – 79
– pH measurement in low ionic strength solutions including fresh – 557

Water
– precipitate flotation of trace phosphate in – 79
– preconcentration of lead from tap – 79
– preconc. of organophosphorus pesticides from tap – and waste water on graphitized carbon black 158
– spark source mass spectrometry of thin layers, high-purity – 53
– speciation of aluminum in acidic fresh – 381
– speciation of copperorganic compounds in soil-pore – by HPLC 553
– studies of the reactions of phenylphenols with hypochlorite in – by GC/MS 382
– survey for sodium, potassium, barium, arsenic and selenium in drinking – supplies 557
– , vol. 61, treatment and anal., book 454

Water hardness
– selectivity of a liquid membrane electrode for detmn. the total – 379

Waxes
– anal. of –, hardness test procedure 473

Wax esters
– detmn. of hydrocarbons, fatty acid derivatives, cholesterol esters, –, triglycerides in beeswax by GLC 410
– sepn. of – by TLC/enzymatic reaction 577

Welding-fluxing agents
– detmn. of aluminum in – with chromazurol KS by spectrophotometry 375

Wine
– detmn. of ethanol in – by GC 81

Wines
– anal. of – and musts by chromatography, HPLC 474
– detmn. of sulfite in – by UV absorption spectrometry 474

Wood
– anal. of oils fractions derived from hydrogenation of aspen – by chromatography and spectrometry 156

X

Xanthate complexes
– chromatography of – of heavy metals 278

Xanthine
– detmn. of hypoxanthine and – in biological fluids by HPLC/enzyme reactors 384
– detmn. of uric acid, –, hypoxanthine, allopurinol, oxipurinol, orotic acid, orotidine and creatinine in biological fluids by HPLC 175

Xanthomegnin
– sepn. of – and viomellein in natural products by HPLC 156

X-ray microanalysis
– energy-dispersive – at the scanning electron microscope 456
– quant. – of individual microparticles 52

Xylene, o-
– sorption of benzene in presence of – on different chromatographic sorbents 140

Y

Ytterbium
– detmn. of – by graphite furnace AAS with vaporization from a platform 66
– detmn. of – in solutions by laser-enhanced ionization 66

Yttrium
– detmn. of – by reduction of molybdate with Mohr's salt 543
– detmn. of cerium in lanthanide oxides and – by inverse voltammetry 369
– Gmelin handbook, lanthanoides, –, minerals, excluding silicates 358
– Gmelin handbook, scandium, –, rare earth elements, ion exchange and solvent extr., organometallic compounds 454

Yttrium oxide
– detmn. of yttrium subgroup impurities in high-purity – by extr.-chromatography 74

Yuzu
– anal. of oils of –, plant materials by capillary GC 155

Z

Zein
– dot-immunobinding assay for –, prolamins 170

Zeolites
– detmn. of sorption of – by headspace method 468

Zinc
– analytical applications of the complexes of copper(II) and – with sulfonated azo dyes 367
– complexation of N-(2-acetoamido)imino-diacetic acid with –, cobalt(II), nickel and copper(II) 460
– detmn. of aluminum, copper and – in human hair by AAS 86
– detmn. of cadmium and – in waste water, comparison of polarography and stripping voltammetry 81
– detmn. of cadmium and – traces in water by AAS, graphite rod 380
– detmn. of chromium and – in corrosion-resistant coatings by XRS/AAS 73
– detmn. of cobalt, copper, nickel, lead and – in rocks by solvent extr. and AAS 152
– detmn. of copper, –, cadmium and manganese in blood serum and liver tissue 570
– detmn. of copper(II) and – in waste water as porphine derivatives by HPLC 380
– detmn. of copper(II), nickel and – by HPLC on β-diketone bonded phase 64
– detmn. of copper, –, manganese and iron in waste water by stripping voltammetry 557
– detmn. of copper, nickel, cobalt and – in iron-manganese nodules by atomic fluorescence 152
– detmn. of – in alloys, nonferrous by chelatometric titration 73
– detmn. of – in blood serum by AAS, matrix modification 570
– detmn. of – in blood serum by flameless AAS 86
– detmn. of – in magnesium alloys with 7(2-thiazolylazo)-8-hydroxyquinoline-5-sulfonic acid by spectrophotometry 374
– detmn. of – in ores, testing of reference methods 150
– detmn. of lead and – in sea water by extr.-AAS 80
– detmn. of – with immobilized carboxypeptidase A 64

Zinc-aluminum alloys
– detmn. of aluminum in – with EDTA and Cu(II)-selective electrode 73

Zinc electrolyte
– detmn. of copper in – by potentiometry with Cu-sensitrode 15

Zinc ores
– detmn. of cadmium in – by thermal neutron absorption analysis 150

Zinc oxide
– anal. of – surface areas by isotope exchange, gas adsorption and air-permeability 74

Zinc sulfate plant electrolyte
– detmn. of cadmium, cobalt, copper, lead, mercury and nickel in – by LC 469

Zirconium
– complexation of – with azopyrazolonic derivatives 68
– detmn. of – and hafnium with PAR by spectrophotometry 370
– detmn. of – as molybdoarsenozirconic acid by spectrophotometry 544

Zirconium
– detmn. of – in alloys with 2-(6-bromo-2-benzothiazolylazo)-5-diethylaminophenol by spectrophotometry 375
– detmn. of – in gallium-gadolinium garnets by spectrophotometry 553
– detmn. of lanthanides, niobium, –, tantalum in alkaline rocks by spectrophotometry 151
– influence of buffers on the spectral line intensity for lanthanides, niobium, – and refractory elements using blowing-in-arc technique 151

Zirconium
– sepn. of – and tungsten from other metals by TLC 544
– sepn. of titanium, – and hafnium as pentamethylcyclopentadienyl dichlorides by HPLC 68
– solvent extr. of collidinesalicylate complexes of – 370

Zirconium(IV)
– and antimony(III) for structural investigation of flavonoids by spectrophotometry 143

Zirconium carbide
– decreased molybdenum emission in a carbon arc caused by – 373

Zomepirac
– detmn. of – and metabolite in urine by HPLC 383

Zymogens
– detmn. of aspartic proteinases with peptide substrate in presence of – 91
